STATISTICAL YEARBOOK 2013

Message from the Director

It is with great pleasure that I present the 2013 Statistical Yearbook for American Samoa. The 2013 Statistical Yearbook is the thirty-fourth annual publication of compendia detailing both historical and current economic and social characteristics of the Territory. The information contained in this yearbook provides a useful source of data for the local community as well as leaders in government, businesses and civic organizations.

I would like to commend the many government agencies (both local and federal), private businesses, and individuals who have contributed diligently in making this publication possible.

I hope the users of this book will find its content useful and informative. I also welcome any comments or suggestions for improving these statistical series. A suggestion and comment sheet is provided at the end of the book for this purpose.

Keniseli F. Lafaele
Director
Department of Commerce

STATISTICAL YEARBOOK 2013

TABULAR PRESENTATION

Explanatory Notes: The following symbols used in the tables throughout this publication are explained in enclosed form in footnotes to the tables where they appear.

- Represents zero or rounds to less than half the unit of measurement shown
- .. Not available or not applicable
- (E) Estimates
- (P) Preliminary
- ® Revise
- (D) Data withheld to avoid disclosing data for individual's farm

Fa'alavelave – Samoan cultural events

***Calendar Year is used unless otherwise specified**

Head-notes immediately below table titles provide information for correct interpretation or evaluation of the tables as a whole or for a major segment of it.

Unit indicators (“In thousands”, “In millions of dollars”, etc.) are usually given as the first element of the head-notes. In tables where several units are used, the unit indicators are generally given in the stub in the column headings.

Footnotes below the bottom rule of tables give information relating to specific items, figures or symbols within the tables. Details may not add up due to rounding.

All annual statistics should be understood as referring to calendar years unless otherwise indicated.

Government Fiscal Year starts from October of previous year to September of current year.

To Request Copy of the Yearbook

Only a few copies of the yearbook are available in hard copies as it can now be accessed electronically on the DOC website: doc.as.gov. The yearbook is also available in electronic format through email or flash drive. Please contact the Statistics Division at 633-5155 or email Chief of Statistics, Etuale Tuileta, at etuale.tuileta@doc.as to request a copy of the yearbook.

STATISTICAL YEARBOOK 2013

Section One

POPULATION

This section presents statistics on growth, geographic distribution and general characteristics of the local population.

The U.S. Census Bureau has released the 2010 Census total population and a breakdown of the population by district, county and village levels. The 2010 Census counted the population of American Samoa at 55,519. According to the 2010 Census information, the median age was 22.4 years and the gender ratio was recorded at 103 males for every 100 females.

The population density (average number of persons per square kilometer) in 2013 was 199. This number could be a lot higher given the ruggedness and steep mountainous landscaping of the islands. People move to other places because of economic reasons, availability of land resources, and socio-political stability. The Manu'a Island residents continued to relocate to the main island of Tutuila looking for better economic opportunities or attending schools. Tutuila's population shifted from the Eastern District to the Western District in the past decades. In the 2010 Census, there were 31,329 people living in the Western District while 23,030 people live in the Eastern District.

The mid-year population estimate is calculated annually using the Balancing Equation Method. The estimates show a declining trend in the population since 2009; from 70,100 to 62,610. The mid-year population estimates, as calculated by the Department of Commerce, may be different significantly when compared to those calculated elsewhere such as the Secretariat of the Pacific Communities. Sources of data may be suspected as the cause of this critical disparity.

While the proportion of the American Samoa born population remained above 50 percent, the trend of foreign-born has increased from less than 20 percent in 1960 to over 40 percent in the 2010 census. The majority of the foreign-born were from neighboring Samoa accounted for about 30 percent, followed by the US born population with 6 percent. The resident population remained ethnically Samoan at 85 percent. There were over 19,000 that were neither citizen nor national of the United States. A full set of detailed demographic, social, economic and housing data on the American Samoa Census 2010 down to the block level geography can be found on the US Census Bureau website: <http://www.census.gov/2010census/news/press-kits/island-areas/island-areas.html>.

STATISTICAL YEARBOOK 2013

Section Two

VITAL AND HEALTH STATISTICS

This section presents data on births, deaths, life expectancy, marriages, diseases, patient visits and hospital discharges.

The LBJ Medical Authority reported 1,161 births and 270 deaths in 2013. Teen births dropped slightly to 137 births in 2013. The Crude Birth Rate (CBR), Crude Death Rate (CDR), infant mortality rate, neonatal mortality rate, and fetal deaths for 2013 are shown on table 2.1. The three leading cause of death in 2013 were Heart Disease, Malignant Neoplasm, and Nephritis & Nephrosis.

Population natural growth is defined as total births minus deaths. The natural growth of the population in 2013 was 891 and is slowly decreasing. Natural growth prior to 2005 registered above 1,300 persons added to the local population each year. The number of out-patient visits in 2013 was 101,070 a decrease of 3,945 from the previous year. The number of Dental Clinic visits dropped significantly from last year. Marriage licenses processed at the Vital Statistics saw an increase in 2013. There were 186 marriage licenses recorded in the registry in 2013.

STATISTICAL YEARBOOK 2013

Section Three

EDUCATION

This section presents statistical information on the number of educational institutions, school enrollment, and educational achievement.

Total educational institutions in 2013 were 115. This includes the only community college in American Samoa. School enrollment is at 17,461 for school years 2013. The American Samoa Community College enrollment continued to drop in 2013.

The average school enrollment for public schools for the 2012-2013 school year was 12,957. School enrollment for public schools dropped again this year to 14,269. Public high school graduates vary from year to year. In the 2012-2013 school year, public high school graduates increased above the 1,000 mark at 1,105.

In 2013, there were 735 students who enrolled at ASCC full time and 753 enrolled part-time. Since 2002, there were more females attending ASCC than males.

ASCC offers many majors and certificate programs. The majority of students major in liberal arts but other majors that are popular as well are accounting, business management, criminal justice, art, education, pre law, and nursing.

The American Samoa Community College awarded 134 degrees and certificates in 2013. The college awarded 101 Associate of Arts degrees (75.4 %), 31 Associate of Science degrees (23.1%), and 2 Bachelor of Arts (1.5%) in 2013.

STATISTICAL YEARBOOK 2013

Section Four

LAW ENFORCEMENT

The Department of Public Safety reported 1,878 offenses in FY2013, a 0.8% increase from 2012. Part One offenses increased slightly while Part Two offenses decreased in FY2013. For Part One offenses, burglary remained the number one offense followed by larceny. All Part One offenses with the exception of burglary increased in FY2013. Disorderly conduct is still the number one offense for Part Two offenses. Since FY2009, DUI offenses continued to slide with 128 in FY2013.

Part One offenses that were committed by juveniles in FY2013 has decreased by 3.9 percent. Part Two offenses also dropped by 2.0 percent in the same year. The two leading offenses for Part One and Part Two offenses respectively were assault and disorderly conduct.

In FY2013, traffic accidents increased by 0.6 percent. There were 709 traffic accidents reported in FY2013. About 75 people were injured in these accidents and one fatality was reported. There were 172 firearms registered in FY2013 compared to 135 in FY2012. The Tafuna Correctional Facility reported 212 inmates in FY2013 compared to 172 in 2012. The average inmate population in FY2013 was 203 compared to 172 in FY2012. In FY2013, the majority of inmates incarcerated are from US National with 49.5% and Samoa make up 40.1% of inmates while the remaining 10.4 percent are other nationalities.

In 2013, there were 88 fires reported. There were 65 residential home fires, 10 commercial building fires, and 13 industrial fires.

The High Court reported there were 425 cases filed in FY2013. There were 2,035 pending cases from FY2013 which were carried on to FY2014. Only 494 cases were completed and disposed in FY2013.

STATISTICAL YEARBOOK 2013

Section Five

CLIMATE

This section presents climate data for American Samoa.

American Samoa has a tropical maritime climate with abundant rain and warm, humid days and nights. The average temperature in 2013 was recorded at 82 degrees Fahrenheit. Throughout the past ten years, average temperature remained between 75.1 and 83.3 degrees. A total of 129.44 inches of rainfall was recorded in 2013. The month of January recorded the most rain with 18.27 inches and October recorded the lowest rainfall with 5.71 inches.

The two main seasons in Samoa are those of wet and dry, sometimes referred to as 'summer' and 'winter'. However, these are actually relative terms as it still rains quite a bit during the dry season. In addition, the south coast receives, on an annual basis, approximately twice as much rain as the north coast.

Summer or wet season is also cyclone season and runs from November through April. Winds tend to be either calm or mainly out of the north. Although heavy rain, showers and long rainy periods can occur any month of the year, torrential downpours are most common and humidity is at its peak during the summer months.

Winter or dry season is also Trade Wind season and runs May through October. The Trade Winds are mainly south-easterly but can turn to a more easterly direction at times. During the winter months the Trade Winds tend to blow rather incessantly and can range from anywhere from mild to rather strong at times. However, the Trade Winds can also blow during any month of the year, not just the winter months, or they might unexpectedly stop blowing in the middle of the Trade Wind season, often for days at a time.

December	560	539	524	526	514	616	584	544	549	618	550

Note: A cooling degree day is a unit used to relate the day's temperature to the energy demands of air conditioning. Cooling degree days are calculated by subtracting 65 from a day's average temperature. For example, if the day's high is 90°F and the day's low is 70°F, the day's average is 80°F. Eighty minus 65 is 15 cooling degree days. Cooling degree days can be used to compare the current summer to past summers. It can also be used to compare the heat in one part of the country with another.

Section Six

**LAND USE/REGISTRATION, HOUSING CHARACTERISTICS, AND
BUILDING PERMITS**

This section presents statistics on land use, land ownership registration and tenure, housing characteristics, building permits, type and value of construction activities.

American Samoa has a total land area of 48,767 acres and about two-thirds of the land is steeply sloping and virtually inaccessible. Land registration at the Office of the Territorial Registrar added another 13 acres of land in 2013, which increases the registered acres of land to approximately 7,888. Land ownership registration is categorized into five titles. Communal land holds 27 percent, individually-owned holds 26 percent, government-owned holds 21.0 percent, freehold land holds 14 percent and church-owned holds 13 percent.

In the 2010 Census, American Samoa registered 10,963 housing units. Of the 10,963 housing units, 88 percent were occupied and 12 percent (1,275) were vacant. Of the 9,688 occupied housing units, 73 percent were owner-occupied and 27 percent were renter-occupied. In the Tualauta County, Tafuna village had the highest number of occupants per room in both owner-occupied and renter-occupied units.

Approximately 55 percent of the 10,963 housing units were located in the Maoputasi and Tualauta counties. Furthermore, these two counties absorbed most of the growth: a combined 68 percent of the rental market. Housing units are characterized as single detached units, attached units, 2 houses, 3 or more houses. This is unique to American Samoa where about 8 percent of households live in two or more houses. Those living in apartment housing although small but are on the rise as 7 percent of households live in building with two or more housing units. Those living in single detached houses have increased slightly from 78 percent in 2000 to 79 percent in 2010.

The number of building permits issued dropped to 683 in 2013. Permits issued for new structures increased to 150 in 2013. Permits for extension, repair and alteration also increased in 2013 with 421. The estimated value of construction in 2013 was \$16 million.

Section Seven

INTERNATIONAL ARRIVALS AND DEPARTURES

This section presents statistical data on international arrivals and departures by purpose and citizenship of travelers.

In 2013, approximately 62,157 travelers arrived in American Samoa. The majority of travelers were returning residents of American Samoa (about 35,335). Visitor arrivals accounted for 42.2 percent of all arrivals in 2013. However, visitor arrivals dropped again for the fourth year in a row with 26,247.

Approximately 63,266 travelers departed American Samoa in 2013. The majority of departures were residents leaving the island (35,555) for better opportunities abroad. In 2013, there was a net loss of 1,109 persons. When comparing 2012 to 2013, arrivals and departures have decreased in 2013.

The United States continued to be our primary tourism market holding 51 percent of the market. New Zealand followed with 34 percent, Australia with 11 percent and the rest of the countries with the remaining 4 percent.

Section Eight

ELECTION

This section presents data on the American Samoa voter registration, election results and participation by voting districts, village, age and gender of the voting population.

About 17,768 people registered to vote in the 2012 General Election on November 6, 2012. This is an increase from the 2010 General Election. Although this many registered to vote in the 2012 election, only 13,178 actually voted. The Tualauta voting district (District #15) cast the most votes with 2,643 (20.1 percent). Ituaui (District #12) was second with 1,723 votes cast (about 13.1 percent) in the General Election.

In the 2012 election, the majority of registered voters were between the ages of 18 and 34 (47.1 percent). About 25.6 percent of registered voters were between the ages of 35 and 49. The 50-64 age group made up 18.7 percent of registered voters. The 65 and over age group had the least registered voters with 9.9 percent. A total of 6,033 males (45.8 percent) registered to vote while 7,145 females (54.2 percent) registered to vote in the 2012 General Election.

STATISTICAL YEARBOOK 2013

Section Nine

GOVERNMENT FINANCE

This section presents statistical data on government revenues and expenditures.

In 2002, the American Samoa Government adopted GASB Statement No. 34. It is a reporting approach established by Governmental Accounting Standards Board to enforce new requirements and a new reporting model for the annual financial reports of state and local governments. Its primary purpose is to develop annual financial reports for easier interpretations and understandings of government funding. GASB No. 34 has technically changed the format of the financial statements in contrast to the previous years. This had made financial data incompatible for analytical purposes. Therefore, it is difficult to evaluate the financial trend from previous to 2002.

The American Samoa Government collected \$241.2 million in revenues and spent \$243.7 million in Fiscal Year 2013. The resulting deficit was \$2.5 million. In Fiscal Year 2012, the government collected \$278.9 million in revenues and spent \$277.8 million resulting in a \$1 million surplus. Federal grants accounted for 67 percent of revenues in FY 2013. Local taxes accounted for 32 percent of revenues in the same fiscal year.

In Fiscal Year 2013, twenty-nine percent of expenditures were for Public Safety and thirty-five percent were for General Government.

Section Ten

LABOR FORCE, EMPLOYMENT AND EARNINGS

This section presents statistical data on labor force participation, employment and earnings.

Total employment in 2013 was estimated at 16,089. General government and the four authorities made up 39 percent of the workforce in 2013. In 2012, it dropped by 18 percent and then rebounded in 2013 by 9 percent. Both government and the private sector employment increased in 2013.

The Fair Minimum Wage Act of 2007 (Public Law 110-28) ordered new wage increases for American Samoa. The law stipulated \$0.50 increases to current local minimum wages every year until it reaches the US minimum wage of \$7.25 an hour. Local minimum wages for various industries in American Samoa had another fifty-cent increase on May 25, 2009. In 2010, a bill was passed to postpone the 50 cents increases for 2010 and 2011 until September 30, 2012 when this issue will be discussed again in the U.S. Congress. Another bill was approved by Congress in 2012 to postpone the minimum wage increase (50 cents) until September 30, 2015. The current minimum wage rates by industry in American Samoa still remain on the last 50 cents increase on May 25, 2009.

In 2010, the median household income was \$23,892. Close to \$350 million worth of income from all sources were received by all residents of the territory in 2010. Thus, the per capita income was \$6,311.

In 2010, about 57.8 percent of all persons or 54.4 percent of families were below the national poverty level. Of the 3,875 grandparents reported to have lived with their grandchildren, 66 percent of them were responsible for grandchildren.

Section Eleven

CONSUMER PRICES AND EXPENDITURES

This section presents statistical data on local consumer prices and indices with some household expenditure information from previous household surveys.

American Samoa initiated a Consumer Price Index rebase in the fourth quarter of 2007. Commodity descriptions and household spending details from the 2005 household income and expenditure survey were utilized for creating new CPI weights distributions. The current CPI was expanded and added three new subgroups making it 9 subgroups now. Two other major revisions were done to the CPI since the inception in 1974. The first revision was carried out in 1982 after consultation with an SPC CPI expert and then another one in 1997 using the 1995 household income and expenditure survey results.

Due to certain challenges with the process, there was no final report for the 2005 Household Income and Expenditure Survey (HIES). The household expenditures from the 1995 HIES is still being published until a new HIES is conducted.

The Consumer Price Index in 2013 registered at an average of 132.9 index points for All Items. The average inflation rate in 2013 was calculated at 2.0 percent. Table 11.4 shows average retail prices of selected commodities from 2003-2013. Units for a few commodities were changed and noted on the bottom of the table. Noted also were the corrections to the CPIs since the second quarter of 2008. A review of the average retail price of some commodities uncovered a posting error, hence the revisions. However, they were of minute differences.

NOTE: (1) In 2003-2008 prices collected was for the 91 lb tank, this was changed recently to the 30 lb tank for years 2009-2012.

(2) Coconut average price is calculated using prices for each coconut sold; not by basket of coconuts.

(3) Price for Electricity was collected by 300 kWh in the previous years. The unit was changed to 1 kWh in 2012.

STATISTICAL YEARBOOK 2013

Section Twelve

COMMUNICATION AND TRANSPORTATION

This section presents statistical data on communication and transportation services including vehicle registration and driver licenses, vessel and cargo movements, and air traffic and aircraft operations.

There is a continuous decline in the number of telephones over the last seven years. In 2013 there were 8,776 telephones as compared to 8,794 telephones in 2012. The number of cellular phones skyrocketed in 2010 with 20,053 and the upward trend continued over the last three years to 45,488 in 2013. The number of internet subscribers increased to 3,515.

There were 3,249 cable service subscribers in 2013 which indicates an increase from 2012, and 25,998 text message subscribers.

The Office of Motor Vehicle in 2013 recorded 9,364 vehicle registrations. Commercial and private vehicles registrations contributed to the total increase. The number of ASG registered vehicles increased by 106 in 2013.

The number of licenses and permits issued in 2013 increased to 7,427 from 6,567 in 2012. Both private licenses and commercial permits contributed to this increase.

The vessel movement and cargo movement within the Territory in 2013 indicated significant drops from the previous year. The vessel movement (incoming/outgoing) showed an average reduction of 34%. This reduction directly impacted the cargo movement (incoming/outgoing) which recorded an average drop of 61%. Table 12.5 shows that most of the vessels coming in to the Territory fall under the others category. Other vessels that entered and left the Territory were freighters, yachts, tankers, and cruise ships.

There were 3,665 flights that landed at Pago Pago International Airport in 2013, compared to 3,477 in 2012. The incoming flights carried 120,661 passengers and the same number of flights took off carrying 123,359 passengers. About 1.6 million pounds of cargo and 1.3 million pounds of mail were brought in by commercial carriers. Outgoing cargo and mail were reported as less than that of incoming loads.

There were 170 flights in 2013 between Pago Pago and Honolulu. This is an average of 14 flights per month. In 2013, there were 2,693 flights between Pago Pago and Samoa (an average of 224 flights per month).

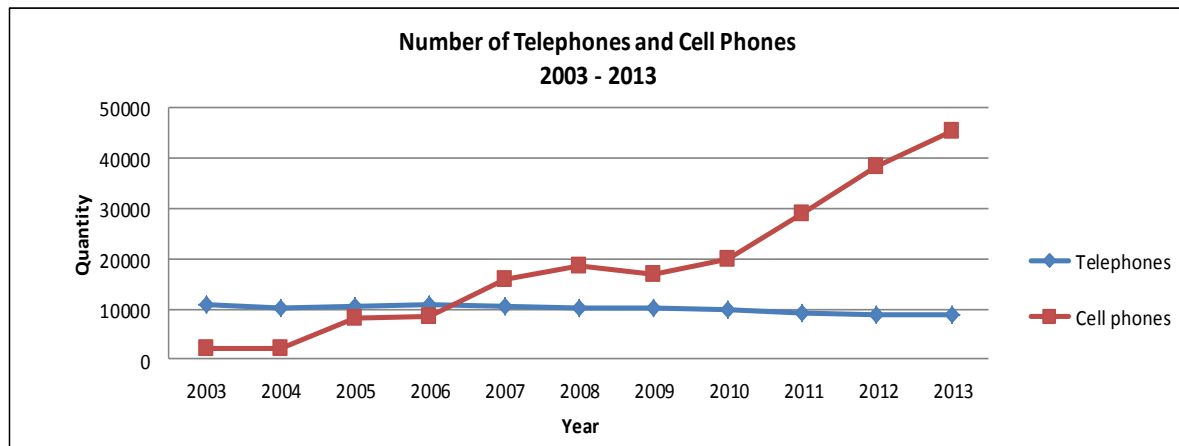

STATISTICAL YEARBOOK 2013

Section Thirteen

AGRICULTURE AND FISHING

This section presents statistics on agricultural land, farms, farm tenures, field crops and livestock, and local fishing.

The Agricultural Census, which is conducted every five years, is usually conducted as supplement to the Decennial Census of Population and Housing. The one slated for 2013 was canceled due to the unavailability of financial assistance from USDA-NASS. Therefore, data is reproduced as presented in table 13.1 to table 13.9 from the 2008 Agricultural Census.

A total of 5,840 farms were covered in 2008. Approximately 39 percent of total land area (19,003 acres) is used for farming. This includes cropland, pastureland, and other farm uses including woodland. The majority of farms were cropland farms covering over 12,971 acres of land. Forty-four percent of farms were 1 to 2 acres in size. Another 22 percent were one or less acre in size. Similar distributions of average farm sizes were seen in both the 2003 and 2008 censuses.

All agricultural farming whether for commercial resale or home consumption were valued at \$49.3 million in 2008. This is a significant drop from the 2003 census with \$58.2 million. The drop in value of agriculture farming was probably due to flooding which affected American Samoa in 2003 and Hurricane Heta that devastated the islands in January 2004.

Staple food (taro, green bananas and breadfruits) sold at the market increased in 2013 as compared to the sales in 2012. In particular, green banana sales jumped over 188,000 lbs., up nine times that of 2012. Vegetables sold at the marketplace increased to 40,387 lbs. from the previous year.

In 2013, about 102,735 pounds of fish were caught by local fishermen. This is an increase of about 61% from the previous year which recorded 63,945 pound of fish caught. Bottom fishing and longlining methods contributed to this increase in catch volume. The number of boats utilized, however, continued on a downward slide over the last four years; dropping from 48 since 2009 to only 25 in 2013. The number of fishermen also dropped to 75 in 2013 from 102 in 2012.

STATISTICAL YEARBOOK 2013

Section Fourteen

COMMERCE AND TRADE

This section covers data on trade, government purchases, and business registration.

In the last publication, trade data was classified using the 2012 Harmonized System Code.

The American Samoa Balance of Trade in fiscal year 2013 recorded a deficit of \$85.4 million. Imports include government purchases, value of fish brought in for processing for the canneries, and value of commercial merchandise brought in for resale. Trade data is still considered incomplete because of the absence of the Post Exchange (PX) data from the import series. The value of exports is made up primarily of canned tuna and by-products.

Imports brought in through Customs Regulations for commercial use and resale valued at \$478.5 million in fiscal year 2013. The United States continued to be American Samoa's leading trade partner, followed by Fiji, New Zealand, Korea and Singapore.

There were major revisions done to the trade tables that were published in the 2012 yearbook. The availability of confirmed data on some major imports warranted such revisions.

The Department of Commerce and Treasury are collaborating on improving imports statistics by utilizing a new system to capture imports to include value, quantity and unit of measure, country of import and origin, as well classifying commodities in the HS coding system. The new system will be implemented at the start of Fiscal Year 2015. Although implementation is still early but trial runs were conducted in which Customs staff were trained in using this new system.

STATISTICAL YEARBOOK 2013

Section Fifteen

ELECTRICITY AND WATER

This section presents statistical data on electricity production and consumption, number of meters and water usage.

Total gross kWh of electricity generated in 2013 amounted to 156 million. About 7.0 million kWh were used in the production of electricity, netting 149.5 million kWh for sale. With 9.3 percent of line loss, only 135.5 million kWh were sold. Fuel efficiency remained at 14.3 kWh per gallon for the past year. Lube efficiency decreased to 4,889 in 2013.

About 10.9 million gallons of fuel were consumed in FY2013. The average cost of a gallon of fuel slightly dropped to \$3.675 in FY2013. With the decrease in fuel cost, the fuel surcharge also dropped proportionally in this period.

The number of meters slightly went up in FY2013 to 12,331. The majority of meters were for residential usage (about 87.2 percent of total meters). About 8.1 percent were for commercial usage. The rest were for government (3.6 percent), ASPA (1.1 percent) and large power (.03 percent).

In 2013, about 1,638 million gallons of water were sold and costing American Samoa Power Authority just over \$3 million for production.

STATISTICAL YEARBOOK 2013

Section Sixteen

NATIONAL ACCOUNTS

This section on national accounts was added to include GDP for American Samoa as released by the Bureau of Economic Analysis.

The Bureau of Economic Analysis (BEA) under the U.S. Department of Commerce, through the Statistical Improvement Program funded by the Office of Insular Affairs (OIA) of the U.S. Department of the Interior has been developing formal methodologies for measuring the GDP of American Samoa and other Island Areas (Guam, CNMI and U.S. Virgin Islands).

Since 2010, BEA has released annual estimates of gross domestic product (GDP) for American Samoa from 2002-2013. The latest GDP release is for 2013. According to BEA, gross domestic product in 2012 and 2013 was \$718 million and \$711 million respectively. Real GDP, which is GDP adjusted to remove price changes, was \$502 million (2012) and \$490 million (2013). Per capita GDP was \$9,127 (2012) and \$8,942 (2013).
