Regional reporting

Regional alignment

- **Regional policy mapping underway**
 - Various stakeholders & partners are concurrently undertaking mapping exercises to identify overlap / synergies across policies
- **Regional set of fisheries related indicators**
 - Through the report cards, policy mapping & MEL framework development the aim is to have a regionally agreed upon set of indicators
 - Align as much as possible with SDG & other global policies, as well as downwards to sub-regional & national plans, & projects
- **Ongoing process – stay tuned & coordinated**
 - This process, HOF10, Oceans Conference Prep & Working Groups, etc

Regional alignment
