

2017 Results Summary for French Polynesia

This report provides an overview of the results achieved in French Polynesia in 2017 through SPC scientific and technical assistance. It includes results specific to French Polynesia and multi-country results, where initiatives involve French Polynesia and other Pacific Island Countries and Territories (PICTs). Results are reported against SPC's nine development objectives as outlined in the *Pacific Community Strategic Plan 2016-2020*.

This report should be read together with the 2017 Regional Results Summary.

15 results
in
**French
Polynesia**

1
territory-specific
14
multi-country results

2 INSTANCES OF SUSTAINED IMPACT

Evidence of the difference SPC has made towards achieving PICTs' development objectives

3 CHANGES IN PRACTICE

Evidence of the effects of the application of acquired knowledge, skills, capacities, and changed attitudes on PICTs' individual or institutional performance

2 CHANGES IN ATTITUDE

Evidence of effectiveness of SPC's outputs and actions in changing PICTs' beliefs, opinions, motivations, intentions

3 CHANGES IN KNOWLEDGE

Evidence of effectiveness of SPC's outputs and actions in increasing PICTs' knowledge, skills, capacities, awareness

5 OUTPUTS

Evidence of relevance of SPC scientific and technical assistance provided to PICTs

Pacific Community Results Hierarchy

Results are described as dynamic change processes in PICTS along a non-linear hierarchy. The hierarchy shows how SPC responds to PICT development needs and priorities with appropriate capabilities to deliver outputs to PICTs (i.e. goods and services) to achieve changes in knowledge, attitude and practice, and where sustained over time, impact at the individual, institutional and population level. Ultimately the change pathway contribute to the three development goals of the *Pacific Community Strategic Plan 2016-2020*.

Sustainable Development Goals

The report also shows specific areas of synergy between the 17 Sustainable Development Goals and SPC's nine development objectives.

2017 Results Summary for French Polynesia

Result description	Result level	Result type	PICTs
 <p>Strengthen sustainable management of natural resources (fisheries, forestry, land use, agriculture, minerals, water)</p>			
Fisheries			
1140 observer trips were processed by SPC from 14 PICT observer programmes and regional arrangements (FSM Arrangement and US Treaty)	OUTPUT	Knowledge building, e.g. data collection and mapping	Cook Islands, Federated States of Micronesia, Fiji, French Polynesia, Kiribati, Marshall Islands, Nauru, New Caledonia, Palau, Papua New Guinea, Solomon Islands, Tonga, Tuvalu, Vanuatu
			
Summary of tuna stock status and national implications provided to 14 PICTs	OUTPUT	Knowledge building, e.g. assessment and analysis	Cook Islands, Fiji, French Polynesia, Kiribati, Marshall Islands, Nauru, New Caledonia, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Vanuatu
			
 <p>Improve multi-sectoral responses to climate change and disasters</p>			
Integrated management of Raiatea-Tahaa lagoon	IMPACT	Increased resilience to climate change	French Polynesia
			
Integrated management of whole-of-area pilot sites (including integrated coastal zone management pilot sites and watershed areas) with activities across all sectors. Sites include Great South Lakes Ramsar area in New Caledonia, Moorea in French Polynesia (marine area management plan), and Kadavu and Ra Provinces in Fiji	IMPACT	Increased resilience to climate change	Fiji, French Polynesia, New Caledonia
			
 <p>Improve multi-sectoral responses to non communicable diseases and food security</p>			
Pacific Monitoring Alliance for NCD Action (MANA) dashboards endorsed and use demonstrated	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	French Polynesia, Nauru, Niue, Tonga, Wallis and Futuna
			
Awareness campaigns implemented, particularly for tobacco control, with resources and/or trained staff	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	French Polynesia, Nauru, Wallis and Futuna
			

Result description	Result level	Result type	PICTs
National NCD initiatives led by government ministers and parliamentarians, Ministry of Health/Minister of Health and/or CEO, and senior public servants	CHANGE IN PRACTICE 	Implementation of policies, legislation and initiatives	Cook Islands, Fiji, French Polynesia, Marshall Islands, Tokelau
Governments committed to take up NCDs as a national health priority, develop their national NCD strategic plans and establish their NCD committee	CHANGE IN ATTITUDE 	Commitment to action	French Polynesia, Wallis and Futuna
MANA dashboard developed and action committed to	CHANGE IN ATTITUDE 	Change in attitude as a result of SPC support	French Polynesia, Nauru, New Caledonia, Niue, Tonga, Wallis and Futuna
After training in NCDs/youth and media, over 95% of the 34 young participants reported increased knowledge of NCDs	CHANGE IN KNOWLEDGE 	Increased knowledge	Cook Islands, Fiji, French Polynesia, New Caledonia, Tonga, Vanuatu, Wallis and Futuna
Over 95% of 16 participants reported increased knowledge of NCDs after data management training	CHANGE IN KNOWLEDGE 	Increased knowledge	French Polynesia, New Caledonia, Vanuatu, Wallis and Futuna
The results of a survey of Pacific diabetes associations provided guidance for decision-making processes and monitored the progress made by associations in 11 PICTs	CHANGE IN KNOWLEDGE 	Increased knowledge	American Samoa, Federated States of Micronesia, Fiji, French Polynesia, Guam, Marshall Islands, Papua New Guinea, Solomon Islands, Tonga, Vanuatu
Survey on the status of diabetes' associations undertaken in 13 PICTs	OUTPUT 	Knowledge building, e.g. survey, strategy	American Samoa, Cook Islands, Federated States of Micronesia, Fiji, French Polynesia, Guam, Marshall Islands, Nauru, Papua New Guinea, Samoa, Solomon Islands, Tonga, Vanuatu
Launch of revised regional Youth in Agriculture strategy	OUTPUT 	Knowledge building, e.g. survey, strategy	EU-OCTs
 Strengthen regional public health surveillance and response			
55 health staff participated in outbreak simulation exercises	OUTPUT 	Capacity development, including training and mentoring	American Samoa, Cook Islands, Federated States of Micronesia, Fiji, French Polynesia, Kiribati, Marshall Islands, Niue, Northern Mariana Islands, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu
