Sixth SPC Regional Technical Meeting  
on Coastal Fisheries and Aquaculture

# How can I find useful documents?

The screenshot shows the SPC website's navigation menu. The 'Resources' tab is selected, and a dropdown menu is open. The 'Digital Library' option is circled in pink. Below it are 'Documents', 'News and stories', 'Roadmap and report cards', 'Web applications', 'Tools and apps', 'Stock assessment files', and 'CBFM web platform: Echoes of Oceania'. On the left, there is a 'Recent resources' section with a 'Videos' sub-section containing 'Fish and tips training videos' and a URL: <https://fame.spc.int/resources>. The background features a banner with 'SPC' and a person in the water, and another banner with 'aquaculture systems' and a person in a boat.

Did you know that the Digital Library houses almost 14000 fisheries and aquaculture related publications (in French and English)?

Tell me more!

# Looking for some useful coastal fisheries tools and apps?

The screenshot shows the Pacific Community website's navigation menu. The main menu includes 'Resources', 'Events', and 'Support'. A sub-menu is open, listing 'Digital Library', 'Documents', 'News and stories', 'Roadmap and report cards', 'Web applications', 'Tools and apps', 'Stock assessment files', and 'CPM web platform:'. The 'Tools and apps' item is highlighted in light blue. A secondary menu is visible on the right side of the page, listing 'Tufman 2', 'Ikasavea', and 'Data Management Tools'. The background of the website features a large image with the text 'aquaculture and ecosystems'.

The screenshot shows the 'Tools and apps' page on the Pacific Community website. The page title is 'Tools and apps'. Below the title, there is a paragraph stating: 'A wide variety of tools and apps have been developed by SPC FAME to cover a range of data needs relating to fisheries and aquaculture. Access to some of these tools is restricted to authorised users. The FAME data policy provides the overarching data governance for the handling of data, ownership, security, data sharing, integration, and dissemination.' Below this text is a grid of 12 tool cards, each with a logo, title, and a brief description. The tools are: TUFMAN 2, IK, Tails, OLLO, OnBoard application, OnShore application, MULTIFAN-CL, PacFishID, REEFLEX, SEAPODYM, Pacific Marine Specimen Bank, and Web Tagging Data System. Each card has a blue arrow icon at the bottom right.

# How about CBFM resources?

The screenshot shows the RTMCFA website home page. The navigation menu is open, listing the following items:

- Digital Library
- Documents >
- News and stories
- Roadmap and report cards
- Web applications >
- Tools and apps >
- Stock assessment files >
- CBFM web platform: Echoes of Oceania

The main content area features a large banner for "Aquaculture and Marine ecosystems" with a background image of a boat. Below the banner, there are sections for "Fisheries Newsletter", "Tuna Fisheries Assessment Report", and "Upcoming events" which includes the "Sixth SPC Regional Technical Meeting on Coastal Fisheries and Aquaculture (RTMCFA6)" held from 13-17 November 2023.

This screenshot shows the "Echoes of Oceania" resource page. It features a search bar with the text "Find resources" and a "Go" button. Below the search bar is a grid of "Explore by topic" cards, including "Legal guide", "Fish and tips", "Special management areas", and "Fish smart rules". At the bottom, there is a "Need a contact?" section and a "Partners and donors" section with circular icons.

## Contact

Home > Contact

For general SPC FAME enquiries, please use the form below.

Your Name \*

Your Email \*

Message \*

SEND MESSAGE

Contact us Careers Procurement Staff Email Intranet OneSPC Subscribe to SPC Newsletter

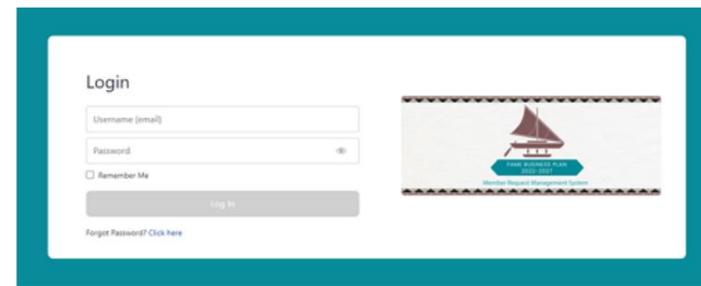

For SPC members requiring support from SPC FAME, please send your requests, outlining your specific priority need, in an email to [fame\\_support@spc.int](mailto:fame_support@spc.int)

The official email should explain the type of assistance needed and note the category, or categories, of assistance requested:

- Respond to an emergency or natural disaster.
- Make progress towards national priorities.
- Make progress towards regional priorities.
- Respond to an emerging issue of the SPC member.

The official request should also outline the urgency of the assistance being requested.

The SPC member representative will then receive an acknowledgement of receipt of the request along with the login details for the [Member Request Management System](#) where they can track the progress of submitted requests.

Login to the Member Request Management System

### For specific work support requests

Please use the [fame\\_support@spc.int](mailto:fame_support@spc.int) address.

Your request will then be logged and you can follow its progress.

# Where are all the meeting documents?

The screenshot shows the website's navigation menu. The 'Events' tab is highlighted with a yellow circle. A dropdown menu is open, showing 'Past events', 'Events calendar', and 'SPC FAME meetings', with the latter also highlighted by a yellow circle. The background features a banner with the text 'culture and Marine Ecosystems' and an image of a boat.

The screenshot shows the main content area of the website. A banner at the top reads 'SPC FAME meetings'. Below it, a larger banner features the text 'Sixth SPC Regional Technical Meeting on Coastal Fisheries and Aquaculture and Third Community-Based Fisheries Dialogue' over an image of a boat on the water.

## Groupers

### Fish smart rules

#### Gear restrictions

- 👉 A ban on gill nets which, especially if used on spawning aggregations, have been responsible for reducing the number of breeding fish.
- 👉 A ban on spear fishing at night, which has been responsible for removing many large fish from extensive areas of reef.

#### Tabu areas (Fish reserves)

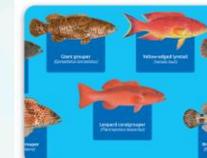

- 👉 A ban on fishing in areas (sites) where spawning aggregations occur – which assumes that the community has some control over the spawning sites which may be some distance away.

#### Temporary bans

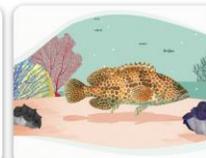

- 👉 A ban on fishing during the peak of the spawning season, which may involve several short closures at monthly intervals as some species appear to aggregate at particular times in the moon cycle.

## Guardians of the Pacific: Malia, Tonga

“ I urge our Fishing Committee to take care of our Special Management Area and of the Red Zone to preserve our ocean’s resources. When our children grow up, they can still benefit from our ocean. ”

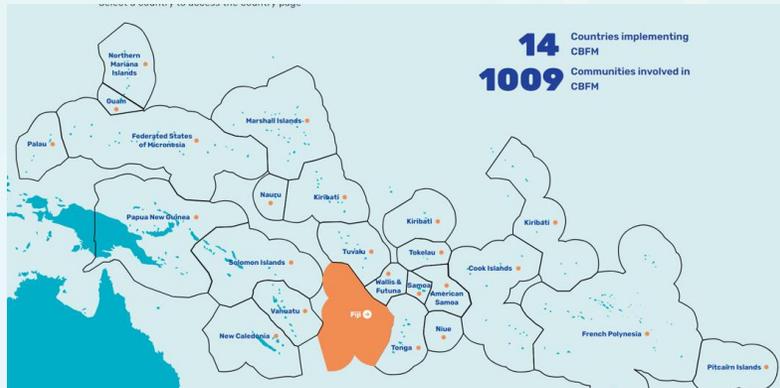

Malia Peta Sioko Noa, a fisher from Tonga.
