

American Samoa Statistical Yearbook 2012

Department of Commerce
Statistics Division

STATISTICAL YEARBOOK 2012

Message from the Director

It is with great pleasure that I present the 2012 Statistical Yearbook for American Samoa. The 2012 Statistical Yearbook is the thirty-third annual publication of compendia detailing both historical and current economic and social characteristics of the Territory. The information contained in this yearbook provides a useful source of data for the local community as well as leaders in government, businesses and civic organizations.

I would like to commend the many government agencies (both local and federal), private businesses, and individuals who have contributed diligently in making this publication possible.

I hope the users of this book will find its content useful and informative. I also welcome any comments or suggestions for improving these statistical series. A suggestion and comment sheet is provided at the end of the book for this purpose.

Keniseli F. Lafaele

Director

Department of Commerce

STATISTICAL YEARBOOK 2012

TABULAR PRESENTATION

Explanatory Notes: The following symbols used in the tables throughout this publication are explained in enclosed form in footnotes to the tables where they appear.

- Represents zero or rounds to less than half the unit of measurement shown
- . . Not available or not applicable
- (E) Estimates
- (P) Preliminary
- ® Revise
- (D) Data withheld to avoid disclosing data for individual's farm

Fa'alavelave – Samoan cultural events

***Calendar Year is used unless otherwise specified**

Head-notes immediately below table titles provide information for correct interpretation or evaluation of the tables as a whole or for a major segment of it.

Unit indicators ("In thousands", "In millions of dollars", etc.) are usually given as the first element of the head-notes. In tables where several units are used, the unit indicators are generally given in the stub in the column headings.

Footnotes below the bottom rule of tables give information relating to specific items, figures or symbols within the tables. Details may not add up due to rounding.

All annual statistics should be understood as referring to calendar years unless otherwise indicated.

Government Fiscal Year starts from October of previous year to September of current year.

Method of Order

Copies of this report may be obtained for \$20.00 each from the Department of Commerce at Utulei, A.P. Lutali Executive Office Building, Second floor, or may be ordered from outside the Territory by sending a money order for \$30.00 per copy, (postpaid) to the Department of Commerce, American Samoa Government, Pago Pago, American Samoa 96799.

STATISTICAL YEARBOOK 2012

Section One

POPULATION

This section presents statistics on growth, geographic distribution and general characteristics of the local population.

The U.S. Census Bureau has released the 2010 Census total population and a breakdown of the population by district, county and village levels. The 2010 Census counted the population of American Samoa at 55,519. According to the 2010 Census information, the median age was 22.4 years and the gender ratio was recorded at 103 males for every 100 females.

The population density (average number of persons per square kilometer) in 2010 was 331. This number could be a lot higher given the ruggedness and steep mountainous landscaping of the islands. People move to other places because of economic reasons, availability of land resources, and socio-political stability. The Manu'a Island residents continued to relocate to the main island of Tutuila looking for better economic opportunities or attending schools. Tutuila's population shifted from the Eastern District to the Western District in the past decades. In the 2010 Census, there were 31,329 people living in the Western District while 23,030 people live in the Eastern District.

The mid-year population estimate is calculated annually using the Balancing Equation Method. However, this estimate was not calculated as there was a lack of data available at the time of publication.

While the proportion of the American Samoa born population remained above 50 percent, the trend of foreign-born has increased from less than 20 percent in 1960 to over 40 percent in the 2010 census. The majority of the foreign-born were from neighboring Samoa accounted for about 30 percent, followed by the US born population with 6 percent. The resident population remained ethnically Samoan at 85 percent. There were over 19,000 that were neither citizen nor national of the United States. A full set of detailed demographic, social, economic and housing data on the American Samoa Census 2010 down to the block level geography can be found on the US Census Bureau website: <http://www.census.gov/2010census/news/press-kits/island-areas/island-areas.html>.

STATISTICAL YEARBOOK 2012

Section Two

VITAL AND HEALTH STATISTICS

This section presents data on births, deaths, life expectancy, marriages, diseases, patient visits and hospital discharges.

The LBJ Medical Authority reported 1,175 births and 282 deaths in 2012. Teen births dropped slightly to 133 births in 2012. Due to the unavailability of the 2011 and 2012 population estimates, the last data recorded for Crude Birth Rate (CBR), Crude Death Rate (CDR), infant mortality rate, neonatal mortality rate, and fetal deaths were for 2010. However, the number of births, deaths, infants, neonatal, and feta are available for 2011 and 2012. The three leading cause of death in 2012 were Heart Disease, Influenza/pneumonia, and Malignant Neoplasm.

Population natural growth is defined as total births minus deaths. The natural growth of the population in 2012 was 893 and is slowly decreasing. Natural growth prior to 2005 registered above 1,300 persons added to the local population each year. The number of out-patient visits in 2012 was 105,015 a decrease of 14,053 from the previous year. The addition of the following units: Renal Dialysis, Primary Care, and Mental Health have increased the number of out-patient visits in the last two years. Marriage licenses processed at the Vital Statistics dropped again in 2012. There were 155 marriage licenses recorded in the registry in 2012.

STATISTICAL YEARBOOK 2012

Section Three

EDUCATION

This section presents statistical information on the number of educational institutions, school enrollment, and educational achievement.

Total educational institutions in 2012 were 151. This includes the only community college in American Samoa. School enrollment is at 18,000 for school years 2012. The American Samoa Community College dropped slightly in 2011 and continued to drop in 2012.

Table 3.2 shows that the average school enrollment for public schools for the 2011-2012 school years was 13,280. School enrollment for public schools dropped this year at 15,109. Public high school graduates vary from year to year. In 2011 and 2012, public high school graduates dropped below the 1,000 mark at 942.

In 2012, there were 562 students who enrolled at ASCC full time and 1,233 enrolled part-time. Since 2002, there were more females attending ASCC than males.

ASCC offers many majors and certificate programs. The majority of students major in liberal arts but other majors that are popular as well are accounting, business management, criminal justice, art, education, pre law, and nursing.

The American Samoa Community College awarded 135 degrees and certificates in 2012. The college awarded 90 Associate of Arts degrees (66.7%), 40 Associate of Science degrees (29.6%), and 2 Certificate of Proficiency (1.5%) in 2012.

STATISTICAL YEARBOOK 2012

Section Four

LAW ENFORCEMENT

This section contains statistical data on crime, traffic, accidents, firearm registration, correctional facility population, fire, and court activities.

The Department of Public Safety reported 1,863 offenses in FY2012, a 19.2% increase from 2011. Both Part One and Part Two offenses increased in FY2012. For Part One offenses, burglary remained the number one offense followed by larceny. All Part One offenses with the exception of criminal homicide increased in FY2012. For Part Two offenses, disorderly conduct is still the number one offense for Part Two offenses. Since FY2009, DUI offenses have decreased 37.4% with 149 in FY2012.

For offenses committed by juveniles, the number of offenses increased by 25.6 percent in FY2012 for Part One offenses. For Part Two offenses, the number increased by 35.8 percent in the same year. The two leading offenses for Part One and Part Two offenses respectively were burglary and disorderly conduct.

In FY2012, traffic accidents increased by 4.0 percent. There were 705 traffic accidents reported in FY2012. About 114 people were injured in these accidents and two fatalities were reported. There were 135 firearms registered in FY2012 compared to 146 in FY2011. The Tafuna Correctional Facility reported that there were 172 inmates in FY2012 compared to 176 in 2011. The average inmate population in FY2012 was also 172 compared to 176 in FY2011. In FY2012, the majority of inmates incarcerated are from US National with 49.4% and Samoa make up 38.4% of inmates while the remaining 12.2 percent are other nationalities.

In 2012, there were 112 fires reported. There were 92 residential home fires, 8 commercial building fires, and 12 industrial fires.

The High Court reported there were 352 cases filed in FY2012. There were 2,609 pending cases from FY2012. Only 568 cases were completed and disposed in FY2012. Because there were only 568 cases completed and disposed in FY2012, the pending cases for FY2012 that will carry on to FY2013 will be 2,609.

Section Five

CLIMATE

This section presents climate data for American Samoa.

American Samoa has a tropical maritime climate with abundant rain and warm, humid days and nights. The average temperature in 2012 was recorded at 81.4 degrees Fahrenheit. Throughout the past ten years, average temperature remained between 75.1 and 83.6 degrees. A total of 124.01 inches of rainfall was recorded in 2012. The month of November recorded the most rain with 18.35 inches and August recorded the lowest rainfall with 3.19 inches.

The two main seasons in Samoa are those of wet and dry, sometimes referred to as 'summer' and 'winter'. However, these are actually relative terms as it still rains quite a bit during the dry season. In addition, the south coast receives, on an annual basis, approximately twice as much rain as the north coast.

Summer or wet season is also cyclone season and runs from November through April. Winds tend to be either calm or mainly out of the north. Although heavy rain, showers and long rainy periods can occur any month of the year, torrential downpours are most common and humidity is at its peak during the summer months.

Winter or dry season is also Trade Wind season and runs May through October. The Trade Winds are mainly south-easterly but can turn to a more easterly direction at times. During the winter months the Trade Winds tend to blow rather incessantly and can range from anywhere from mild to rather strong at times. However, the Trade Winds can also blow during any month of the year, not just the winter months, or they might unexpectedly stop blowing in the middle of the Trade Wind season, often for days at a time.

Note: A cooling degree day is a unit used to relate the day's temperature to the energy demands of air conditioning. Cooling degree days are calculated by subtracting 65 from a day's average temperature. For example, if the day's high is 90°F and the day's low is 70°F, the day's average is 80°F. Eighty minus 65 is 15 cooling degree days. Cooling degree days can be used to compare the current summer to past summers. It can also be used to compare the heat in one part of the country with another.

Section Six

**LAND USE/REGISTRATION, HOUSING CHARACTERISTICS, AND
BUILDING PERMITS**

This section presents statistics on land use, land ownership registration and tenure, housing characteristics, building permits, type and value of construction activities.

American Samoa has a total land area of 48,767 acres and about two-thirds of the land is steeply sloping and virtually inaccessible. Land registration at the Office of the Territorial Registrar added another 12 acres of land in 2012. Approximately 7,875 acres of land have been registered in 2012. Land ownership registration is categorized into five titles. Communal land holds 27 percent, individually-owned holds 26 percent, government-owned holds 21.0 percent, freehold land holds 14 percent and church-owned holds 13 percent.

In the 2010 Census, American Samoa registered 10,963 housing units. Of the 10,963 housing units, 88 percent were occupied and 12 percent (1,275) were vacant. Of the 9,688 occupied housing units, 73 percent were owner-occupied and 27 percent were rather occupied. In the Tualauta County, Tafuna village had the highest number of occupants per room in both owner-occupied and renter-occupied units.

Approximately 55 percent of the 10,963 housing units were located in the Maoputasi and Tualauta counties. Furthermore, these two counties absorbed most of the growth: a combined 68 percent of the rental market. Housing units are characterized as single detached units, attached units, 2 houses, 3 or more houses. This is unique to American Samoa where about 8 percent of households live in two or more houses. Those living in apartment housing although small but are on the rise as 7 percent of households live in building with two or more housing units. Those living in single detached houses have increased slightly from 78 percent in 2000 to 79 percent in 2010.

The number of building permits issued dropped 692 in 2012. Permits for new structures decreased in 2012 with 135 permits issued. Permits for extension, repair and alteration dropped in 2012 with 199. The estimated value of construction in 2012 was \$28 million.

Section Seven

INTERNATIONAL ARRIVALS AND DEPARTURES

This section presents statistical data on international arrivals and departures by purpose and citizenship of travelers.

In 2012, approximately 67,979 travelers arrived in American Samoa. The majority of travelers were returning residents of American Samoa (about 39,136). Visitor arrivals accounted for 40 percent of all arrivals in 2012. However, visitor arrivals dropped again for the fourth year in a row with 27,348.

Approximately 69,472 travelers departed American Samoa in 2012. The majority of departures were residents leaving the island (39,100) for better opportunities abroad. In 2012, there was a net loss of 1493 persons. When comparing 2011 to 2012, arrivals and departures have increased in 2012.

The United States continued to be our primary tourism market holding 56 percent of the market. New Zealand followed with 29 percent, Australia with 11 percent and the rest of the countries with the remaining 9 percent.

Section Eight

ELECTION

This section presents data on the American Samoa voter registration, election results and participation by voting districts, village, age and gender of the voting population.

About 17,768 people registered to vote in the 2012 General Election on November 6, 2012. This is an increase from the 2010 General Election. Although this many registered to vote in the 2012 election, only 13,178 actually voted. The Tualauta voting district (District #15) cast the most votes with 2,643 (20.1 percent). Ituaau (District #12) was second with 1,723 votes cast (about 13.1 percent) in the General Election.

In the 2012 election, the majority of registered voters were between the ages of 18 and 34 (47.1 percent). About 25.6 percent of registered voters were between the ages of 35 and 49. The 65 and over age group had the least registered voters with 9.9 percent. The 50-64 age group made up 18.7 percent of registered voters. A total of 6,033 males (45.8 percent) registered to vote while 7,145 females (54.2 percent) registered to vote in the 2012 General Election.

STATISTICAL YEARBOOK 2012

Section Nine

GOVERNMENT FINANCE

This section presents statistical data on government revenues and expenditures.

In 2002, the American Samoa Government adopted GASB Statement No. 34. It is a reporting approach established by Governmental Accounting Standards Board to enforce new requirements and a new reporting model for the annual financial reports of state and local governments. Its primary purpose is to develop annual financial reports for easier interpretations and understandings of government funding. GASB No. 34 has technically changed the format of the financial statements in contrast to the previous years. This had made financial data incompatible for analytical purposes. Therefore, it is difficult to evaluate the financial trend from previous to 2002.

The American Samoa Government collected \$278 million in revenues and spent \$277 million in Fiscal Year 2012. The resulting surplus was \$1 million. In Fiscal Year 2011, the government collected \$278.3 million in revenues and spent \$282.9 million resulting in a \$4 million deficit. Federal grants accounted for 71 percent of revenues in FY 2012. Local taxes accounted for 23 percent of revenues in the same fiscal year.

In Fiscal Year 2011, thirty-one percent of expenditures were for Education/Culture and thirty-five percent were for General Government. Federal grants accounted for seventy-three percent of revenues and local taxes amounted to twenty-six percent of revenues in FY 2011.

Section Ten

LABOR FORCE, EMPLOYMENT AND EARNINGS

This section presents statistical data on labor force participation, employment and earnings.

Total employment in 2011 and 2012 were estimated at 18,028 and 14,806 respectively. General government and the four authorities made up 36 percent of the workforce in 2012. In 2011, it went up 34 percent. Employment dropped to 14,806 in 2012. Both government and the private sector employment dropped in 2012.

The Fair Minimum Wage Act of 2007 (Public Law 110-28) ordered new wage increases for American Samoa. The law stipulated \$0.50 increases to current local minimum wages every year until it reaches the US minimum wage of \$7.25 an hour. Local minimum wages for various industries in American Samoa had another fifty-cent increase on May 25, 2009. In 2010, a bill was passed to postpone the 50 cents increases for 2010 and 2011 until September 30, 2012 when this issue will be discussed again in the U.S. Congress. Another bill was approved by Congress in 2012 to postpone the minimum wage increase (50 cents) until September 30, 2015. The current minimum wage rates by industry in American Samoa still remain on the last 50 cents increase on May 25, 2009.

In 2010, the median household income was \$23,892. Close to \$350 million worth of income from all sources were received by all residents of the territory in 2010. Thus, the per capita income was \$6,311.

In 2010, about 57.8 percent of all persons or 54.4 percent of families were below the national poverty level. Of the 3,875 grandparents reported to have lived with their grandchildren, 66 percent of them were responsible for grandchildren.

Section Eleven

CONSUMER PRICES AND EXPENDITURES

This section presents statistical data on local consumer prices and indices with some household expenditure information from previous household surveys.

American Samoa initiated a Consumer Price Index rebase in the fourth quarter of 2007. Commodity descriptions and household spending details from the 2005 household income and expenditure survey were utilized for creating new CPI weights distributions. The current CPI was expanded and added three new subgroups making it 9 subgroups now. Two other major revisions were done to the CPI since the inception in 1974. The first revision was carried out in 1982 after consultation with an SPC CPI expert and then another one in 1997 using the 1995 household income and expenditure survey results.

Table 11.1 shows the Consumer Price Index in 2012 registered at an average of 129.7 index points for All Items. The average inflation rate in 2012 was calculated at 3.3 percent. Table 11.4 shows average retail prices of selected commodities from 2002-2012. Units for a few commodities were changed and noted on the bottom of the table.

Since there is no final report for the 2005 Household Income and Expenditure Survey (HIES), household expenditures from the 1995 HIES is still being published until a new HIES is conducted.

NOTE: (1) In 2002-2008 prices collected was for the 91 lb tank, this was changed recently to the 30 lb tank for years 2009-2012.

(2) Coconut average price is calculated using prices for each coconut sold; not by basket of coconuts.

(3) Price for Electricity was collected by 300 kWh in the previous years. The unit was changed to 1 kWh in 2012.

Section Twelve

COMMUNICATION AND TRANSPORTATION

This section presents statistical data on communication and transportation services including vehicle registration and driver licenses, vessel and cargo movements, and air traffic and aircraft operations. This publication also includes data from Blue Sky Communications for the very first time.

Table 12.1 shows the number of telephones declined for the sixth year in a row. There were 8,794 telephones in 2012 compared to 9,226 in 2011. The number of cellular phones skyrocketed in 2010 with 20,053 to 29,096 in 2011. However, it dropped slightly to 29,033 in 2012. The number of internet subscribers remained at 2,000.

Table 12.2 shows Blue Sky has 9,484 cellular phones, 1,129 MoanaTV cable subscribers, 3,000 internet subscribers, and 19,735 text message subscribers.

Table 12.3 shows that a total of 8,227 motor vehicles were registered at the Office of Motor Vehicles in 2012. This is true because of the drop of commercial and private vehicles being registered. However, the number of ASG registered vehicles increased by 40 in 2012.

Table 12.4 shows a drop in licenses and permits issued in 2012. A total of 7,153 licenses and permits were issued in 2011, whereas in 2012, only 6,567 were issued.

Table 12.5 shows the vessel and cargo movement within the Territory. If you look at the trend, the number of incoming and outgoing vessels is consistent from year to year. However, the incoming and outgoing cargo in tons varies from year to year. Table 12.6 shows that most of the vessels coming in to the Territory fall under the others category. Other vessels that entered and left the Territory were freighters, yachts, tankers, and cruise ships.

Table 12.7 shows that there were 3,477 flights that landed at Pago Pago International Airport in 2012 compared to 3,511 in 2011. The incoming flights carried 67,980 passengers and the same number of flights took off carrying 69,652 passengers. About 2 million pounds of cargo and 1.8 million pounds of mail were brought in by commercial carriers.

Table 12.8 and T12.9 show there were 136 flights in 2012 between Pago Pago and Honolulu. This is an average of 11 flights per month. In 2012, there were 3,053 flights between Pago Pago and Samoa (an average of 254 flights per month).

Section Thirteen

AGRICULTURE AND FISHING

This section presents statistics on agricultural land, farms, farm tenures, field crops and livestock, and local fishing.

The 2009 Agricultural Census, which is conducted every five years, will be conducted again in 2013 with the assistance of USDA-NASS. The Agriculture Census was usually conducted as supplement to the Decennial Census of Population and Housing.

A total of 5,840 farms were covered in 2008. Approximately 39 percent of total land area (19,003 acres) is used for farming. This includes cropland, pastureland, and other farm uses including woodland. The majority of farms were cropland farms covering over 12,971 acres of land. Forty-four percent of farms were 1 to 2 acres in size. Another 22 percent were one or less acre in size. Similar distributions of average farm sizes were seen in both the 2003 and 2008 censuses.

All agricultural farming whether for commercial resale or home consumption were valued at \$49.3 million in 2008. This is a significant drop from the 2003 census with \$58.2 million. The drop in value of agriculture farming was probably due to flooding which affected American Samoa in 2003 and Hurricane Heta that devastated the islands in January 2004.

Staple food (taro, green bananas and breadfruits) sold at the market increased in 2011 after a drop in 2010. Vegetables sold at the marketplace dropped drastically to 19,896 pounds compared to a huge increase in 2010 with 175,221 pounds. Main contributors to this increase in the previous year include Chinese cabbage, cucumbers, eggplants and other vegetables.

Table 13.12 shows that in 2012, about 63,945 pounds of fish were caught by local fishermen. This is a drop from the previous year which recorded 98,906 pound of fish caught. The number of boats utilized also dropped from 42 in 2011 to only 34 in 2012. The number of fishermen also dropped to 102 in 2012 from 126 in 2011.

Table 13.13 shows the five methods used in catching fish. Total pounds caught using the five methods dropped in 2012 although it increased in 2011.

STATISTICAL YEARBOOK 2012

Section Fourteen

COMMERCE AND TRADE

This section covers data on trade, government purchases, and business registration.

In this publication, trade data is classified using the 2012 Harmonized System Code. The Secretariat of the Pacific Community assisted the Statistics Division in technical assistance on improving the International Merchandise Trade Statistics for American Samoa. An economic statistician from SPC worked with the Statistics Division staff on improving trade statistics and adopting the accepted practice as used by the United Nations. New tables were recommended to be used and are published in this publication.

The American Samoa Balance of Trade in fiscal year 2012 recorded a surplus of \$151.3 million. Imports include government purchases, value of fish brought in for processing for the canneries, and value of commercial merchandise brought in for resale. Trade data is still considered incomplete because of the absence of the Post Exchange (PX) data from the import series. The value of exports is made up primarily of canned tuna and by-products.

Imports brought in through Customs Regulations for commercial use and resale valued at \$269.6 million which is an increase from FY2011 reported value. The United States continued to be American Samoa's leading trade partner, followed by Fiji, New Zealand, Korea and Taiwan.

Major improvements are needed at the Customs Office for the collection of trade statistics, especially in regards to the right Country of Origin and the correct value of imported goods. Any and all goods crossing American Samoa border should be accounted for regardless of purpose or user. Valuation of goods (FOB and CIF) must be applied. Automation and standard commodity classification of all goods should be adopted. Differentiation between intermediate goods and final consumption goods need major improvements.

STATISTICAL YEARBOOK 2012

STATISTICAL YEARBOOK 2012

Section Fifteen

ELECTRICITY AND WATER

This section presents statistical data in electricity production and consumption, number of meters and water usage.

Table 15.1 shows electricity generated in the past three years were 159 million KWh in FY2010, 155 million KWh in FY2011, and 157 million KWh in FY2012. Although it went up in 2012, it is a small increase compared to previous years. About 7.7 million KWh was used in the production of electricity, netting 148.9 million KWh for sale. With 9.7 percent of line loss, only 134 million KWh was sold. Fuel efficiency remained at 14.1 KWh per gallon for the past ten years. Lube efficiency increased to 5,591 in 2012.

About 11 gallons of fuel was consumed in FY2012. The average cost of a gallon of fuel was \$3.774 in FY2012. With the increase in cost of a gallon of fuel in the past three years, the fuel surcharge also increased in this period.

The number of meters went up in FY2012 to 12,177. The majority of meters were for residential usage (about 88.3 percent of total meters). About 7 percent were for commercial usage. The rest were for government (3.6 percent), ASPA (1.1 percent) and large power (.03 percent).

About 4,772 million gallons of water were sold in FY2012.

STATISTICAL YEARBOOK 2012

Section Sixteen

NATIONAL ACCOUNTS

This section on national accounts was added to include GDP for American Samoa as released by the Bureau of Economic Analysis.

The Bureau of Economic Analysis (BEA) under the U.S. Department of Commerce, through the Statistical Improvement Program funded by the Office of Insular Affairs (OIA) of the U.S. Department of the Interior has been developing formal methodologies for measuring the GDP of American Samoa and other Island Areas (Guam, CNMI and U.S. Virgin Islands).

BEA has released annual estimates of gross domestic product (GDP) for American Samoa from 2002-2012 since 2010. The latest GDP release is for 2011 and 2012. According to BEA, gross domestic product in 2011 and 2012 was \$648 million and \$725 million respectively. Real GDP, which is GDP adjusted to remove price changes, was \$516 million (2011) and \$504 million (2012). Per capita GDP was \$3,991 (2011) and \$9,164 (2012).
