C Reports on Solomon Islands in SOPAC Library	12

INTRODUCTION

At the request of Solomon Islands Geology Division (Task SB 1998.033), a short training attachment was provided for Phyllis Solo, Technical Records Clerk of Solomon Islands Geology Division from 20-24 November 2000. The attachment for Mrs Solo was deferred to later in the year 2000 because of the state of unrest in Fiji from May-August.

Mrs Solo was given training in library organisation, procedures and maintenance, and WINISIS database management for cataloguing publications and maps.

Funds for the attachment was provided under the SOPAC Fellowship Scheme.

OBJECTIVES

The main objective of this attachment was to provide Mrs Solo with the basic skills required in maintaining the Solomon Islands Geology Division Library.

SCOPE OF ATTACHMENT

- Familiarisation with SOPAC library and SOPAC produced reports storage and retrieval procedures;
- Practical exercises in library operations;
- Procedures of receiving, recording and shelving library materials;
- Citing and indexing publications.

Library and technical records practices were taught at the simplest level required to meet the immediate needs of the Solomon Islands Geology Library:

- Basic citation format for library books (rather than Anglo American Cataloguing Rules, 2nd ed);
- Indexing using subject descriptors from Australian Thesaurus of Earth Science and Related Terms and Georef Thesaurus;
- Introduction to a simple WINISIS computer database to assist in cataloguing and indexing reports and maps;
- Introduction to basic library services (current awareness services and interlibrary loans)

(A daily training schedule is given as Appendix A)

Phyllis Solo cataloguing maps

The following documents were given to Mrs Solo for reference:

- Australian Mineral Foundation. 1979. Australian thesaurus of earth sciences and related terms. (2nd ed.) AMF, Adelaide.
- Creech, H. 1990. Strengthening information services, Solomon Islands, Ministry of Natural Resources. SOPAC Technical Report 113.
- Creech, H. 1992. Strengthening information resources at the Solomon Islands Geology Division. SOPAC Technical Report 140.
- Goodman, B.A. (eds) 1997. GeoRef thesaurus. (8th ed.) AGI, Alexandria, VA: 776 p.
- Hardy, S.J. 1999. Geoscience Information Society Membership directory.
- McDowell, R. 1992. Manual for Fisheries Libraries in the South Pacific.
- UNESCO. 1989. Mini-micro CDS/ISIS Reference Manual. (Selected notes on system overview, data entry, searching, sorting and printing.
- Oates, S.E. 1985. Handbook for government departmental special libraries. Public Service Commission, Suva: 94 p.

CONCLUSION

With the basic training provided and guidelines prepared in Creech (1990, 1992) Mrs Solo should be able to maintain the Ministry library once it is organised and set up. A computer should be made accessible to Mrs Solo so she can update the Catalogue of SIGD publications, catalogue maps and publications.

Appendix A

DAILY TRAINING SCHEDULE

Monday 20 November

Overview of the training program

Comments on Creech's (1990, 1992) reports

Tour of PLU:

Library

Reference, General, Country Collection

SOPAC published reports per series

Journals – annual reports, publishers catalogues, conference notices

Audiovisual material

Vertical files, newsfile

Slide photo collection

Serial photographs

Map collection

Publications

Catalogue of publications

Storage of "master" copies of publications and spare copies

Virtual library (computer setup with scanner that is being used to pdf SOPAC internally produced reports)

Overview of WINISIS database

Procedures for receiving books (Check in ie catalogue, index, label, display,shelve)

Procedures for receiving serials (Check in, catalogue recent issue received, in this issue, advise via email latest on display, display, shelve)

Procedure for receiving Maps (Topographic, Geological, Navigation, Bathymetric)

(Catalogue, index, Label, shelve, update map catalogue)

Introduction to WINISIS database

(familiarisation see handout on CDS/ISIS for Windows)

opening databases,

creating new records,

data entry (edit a field, add a field, deleting a field)

searching (expert search, guided search, marking records, printing, close search window - and, or, not, boolean expressions)

editing records, deleting records

printing (using different print formats ie sigd, all - see SIGD database)

data entry rules for fields:

author (Solo, P.) %, eds, compl., et al.,

title (a, an, the in <>

subject (repeatable fields) - thesaurus (in <>

geographic (in <>

Tuesday 21 November

Training/practice in citation (books)

Editing, indexing (subject/geographic), cataloguing (books)

Wednesday 22 Novmeber

Training/practice in citation (maps)

Editing, indexing (subject/geographic), cataloguing (maps)

"Tour" USP Library and USP bookshop

Thursday 23 November

Training/practice in serials control

Updating inverted file, searching, printing (books/maps)

"Tour" MRD Library and Mining Records Section

Friday 24 Novmeber

Review of work done

Continue practise with citation

Internet and Web browsing (sending/receiving email, surfing on the net)

CD-ROM

Appendix B

SOPAC LIBRARY Reports produced on Solomon Islands 24 November 2000

CCOP/SOPAC CRUISE REPORT
