

## Clean Energy Workshop

### Session 4: Tools for Attracting Private & Multilateral Investment Proposed Agenda: CFAN- led Grant-writing Session

Session	Duration	Description	Objectives	Outcomes
4.1 Funding Landscape in the Pacific	00:30	This session will present a very brief overview of the climate finance landscape in the Pacific. It will outline the available funding options for Pacific Small Island Developing States (PSIDS). This will include key multilateral funds (GCF, GEF, Adaptation Fund and CIF) and philanthropic funders. The session will highlight the GCF's requirements, including the investment criteria, in particular.	<p>This session will seek to:</p> <ul style="list-style-type: none"> <li>• Present an overview of the climate finance landscape in the Pacific</li> <li>• Outline key sources of funding for PSIDS and their requirements</li> </ul>	<p>After completing this session, participants will:</p> <ul style="list-style-type: none"> <li>• Understand the climate finance landscape in the Pacific</li> <li>• Be able to identify key sources of climate finance for PSIDS and have knowledge of their requirements for accessing funding</li> </ul>
4.2 The theory of change	00:30	This session will focus on the theory of change and walk participants through the steps for developing one. Additionally, it will include an example from an approved GCF concept note.	<p>This session will seek to:</p> <ul style="list-style-type: none"> <li>• Introduce participants to the theory of change and why its important in project development</li> <li>• Outline the steps to developing a theory of change</li> <li>• Provide an example of a theory of change that is in</li> </ul>	<p>After completing this session, participants will:</p> <ul style="list-style-type: none"> <li>• Understand the importance of the theory of change to project development</li> <li>• Be able to identify the key steps in developing a theory of change</li> <li>• Be aware of the GCF's requirements for a theory of change</li> </ul>

			line with GCF's theory of change requirements.	
4.3 Exercise: Developing a theory of change	1:00:00	In their groups, participants will be asked to develop a basic theory of change, using a case study project. Participants will be given a set of questions to guide them through the theory of change process. They will then share their theories of changes with their groups.	<p>This session will seek to:</p> <ul style="list-style-type: none"> <li>Ensure participants are familiar with the steps for developing a theory of change and allow them to practice implementing the process discussed in 3.2</li> </ul>	<p>After completing this session, participants will:</p> <ul style="list-style-type: none"> <li>Be familiar with the steps for developing a theory of change</li> </ul>

## Session 4.1 Outline

### 4.1 Funding landscape in the Pacific: Sources of finance and their requirements (30 minutes)

Session	Presentation	Description
4.1.1	Introduction to the session: agenda, objectives and outcomes	<p>Objectives:</p> <ul style="list-style-type: none"> <li>Present an overview of the climate finance landscape in the Pacific</li> <li>Outline key sources of funding for PSIDS and their requirements</li> </ul> <p>Outcomes:</p> <ul style="list-style-type: none"> <li>Understand the climate finance landscape in the Pacific</li> <li>Be able to identify key sources of climate finance for PSIDS and understand their requirements</li> </ul>
4.1.3	Overview of the climate finance landscape in the Pacific	<p>This session will include:</p> <ul style="list-style-type: none"> <li>Brief discussion of the PSIDS context: unique circumstances, vulnerability and challenges for accessing finance</li> <li>Brief discussion on the climate finance gap in PSIDS</li> </ul>
4.1.3	Sources of climate finance in the Pacific and their requirements	<p>This session will include:</p> <ul style="list-style-type: none"> <li>Overview of the climate finance architecture in the Pacific, including bilaterals, development banks, UNFCCC mechanisms, foundations and philanthropies</li> <li>Overview of the funding requirements</li> </ul>

## Session 4.2 Outline

### 4.2 The theory of change (30 minutes)

Session	Presentation	Description
4.2.1	Introduction to the session: agenda, objectives and outcomes	<p>Objectives:</p> <ul style="list-style-type: none"> <li>• Introduce participants to the theory of change and why its important in project development</li> <li>• Outline the steps to developing a theory of change</li> <li>• Provide an example of a theory of change that is in line with GCF's theory of change requirements.</li> </ul> <p>Outcomes:</p> <ul style="list-style-type: none"> <li>• Understand the importance of the theory of change to project development</li> <li>• Be able to identify the key steps in developing a theory of change</li> <li>• Be aware of the GCF's requirements for a theory of change</li> </ul>
4.2.2	Overview of the theory of change	<p>This session will include:</p> <ul style="list-style-type: none"> <li>• An introduction to the theory of change</li> <li>• Key steps in developing a theory of change</li> <li>• An example theory of change from an approved GCF project</li> </ul>

## Session 4.3 Outline

### 4.3 Exercise: Developing a theory of change (1 hour)

Session	Presentation	Description
4.3.1	Introduction to the exercise (5 minutes)	<p>Objectives:</p> <ul style="list-style-type: none"> <li>• Ensure participants are familiar with the steps for developing a theory of change and allow them to practice implementing the process discussed in 3.2</li> </ul> <p>Outcomes:</p> <ul style="list-style-type: none"> <li>• Participants are familiar with the steps for developing a theory of change</li> </ul>
4.3.2	Exercise	<p>This session will include:</p> <ul style="list-style-type: none"> <li>• A guided exercise where participants develop their own theories of change, using a template and case study provided by CFAN.</li> </ul>
