

GUAM STATISTICAL YEARBOOK 2011

**Bureau of Statistics and Plans
Office of the Governor**

2011 Guam Statistical Yearbook

Bureau of Statistics and Plans
Office of the Governor
2012

THE HONORABLE
EDDIE BAZE CALVO
GOVERNOR OF GUAM

THE HONORABLE
RAY TENORIO
LIEUTENANT GOVERNOR

Bureau of Statistics and Plans

Sagan Planu Siha Yan Emfotmasion
Government of Guam

THOMAS A. MORRISON
DIRECTOR

A MESSAGE FROM THE DIRECTOR

Buenas yan Hafa Adai! The Bureau of Statistics and Plans is pleased to present to you the “*2011 Guam Statistical Yearbook*.” This comprehensive sourcebook presents a portrait of current and historical socio-economic statistics that reflect Guam’s economic development and performance over time.

As Guam’s economy continues to progress from proceeds of increased tourism arrivals, developed job opportunities, the growing military presence, and the expected construction growth and infrastructure improvement, the Guam Statistical Yearbook serves as a valuable resource instrument in providing information needed to promote economic expansion and prosperity for the people. I am confident this report will provide our government, business and civic leaders with the information necessary to effectively develop immediate and long term strategies to address our island’s needs and generate investment opportunities to local and potential businesses alike.

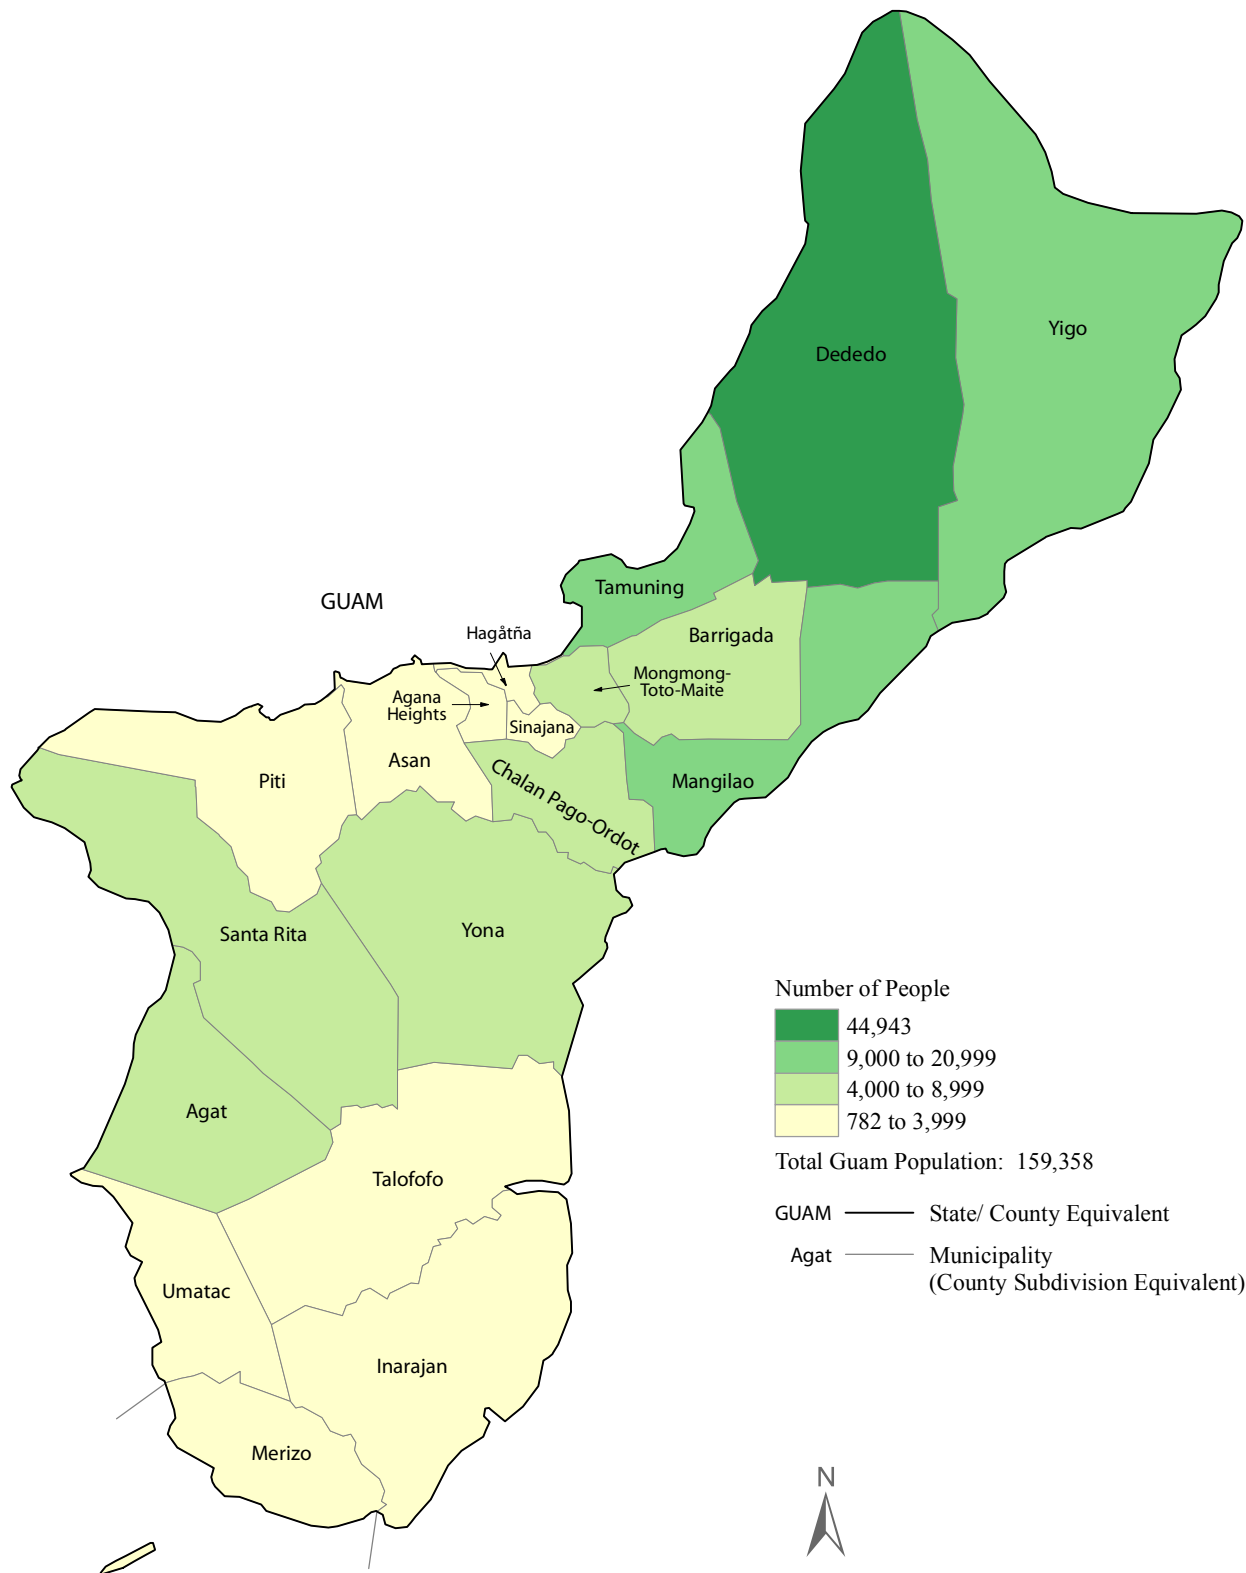

I commend the staff of the Bureau for their dedication and hard work and acknowledge the valuable contributions of the various government agencies and private sector businesses whose efforts have made this publication possible. It is my hope that the information in this report presents a clear picture of Guam’s economic condition and outlook in the upcoming years.

Dangkulo Na Si Yu’os Ma’ase’,

THOMAS A. MORRISON
Director
Bureau of Statistics and Plans

GUAM - 2010 Census Results

Total Population by Municipality

Number of People

Total Guam Population: 159,358

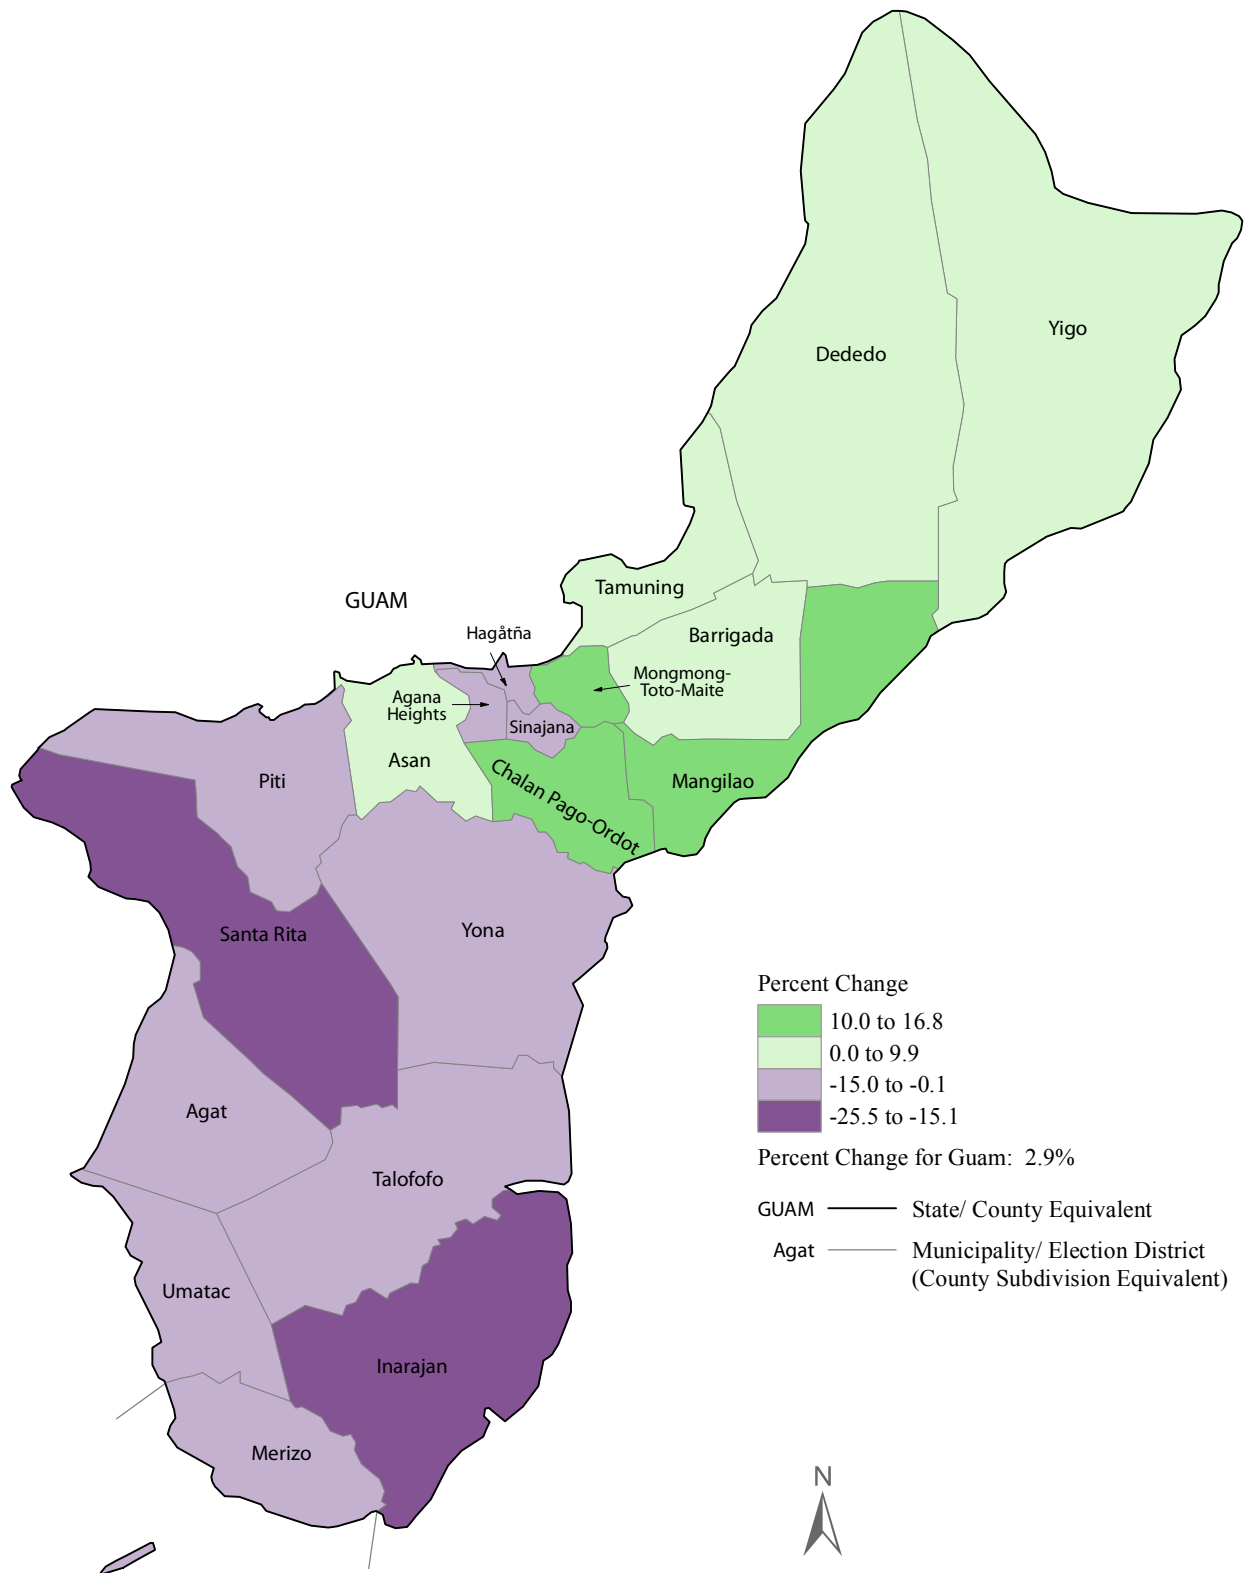

GUAM — State/ County Equivalent

Agat — Municipality
(County Subdivision Equivalent)

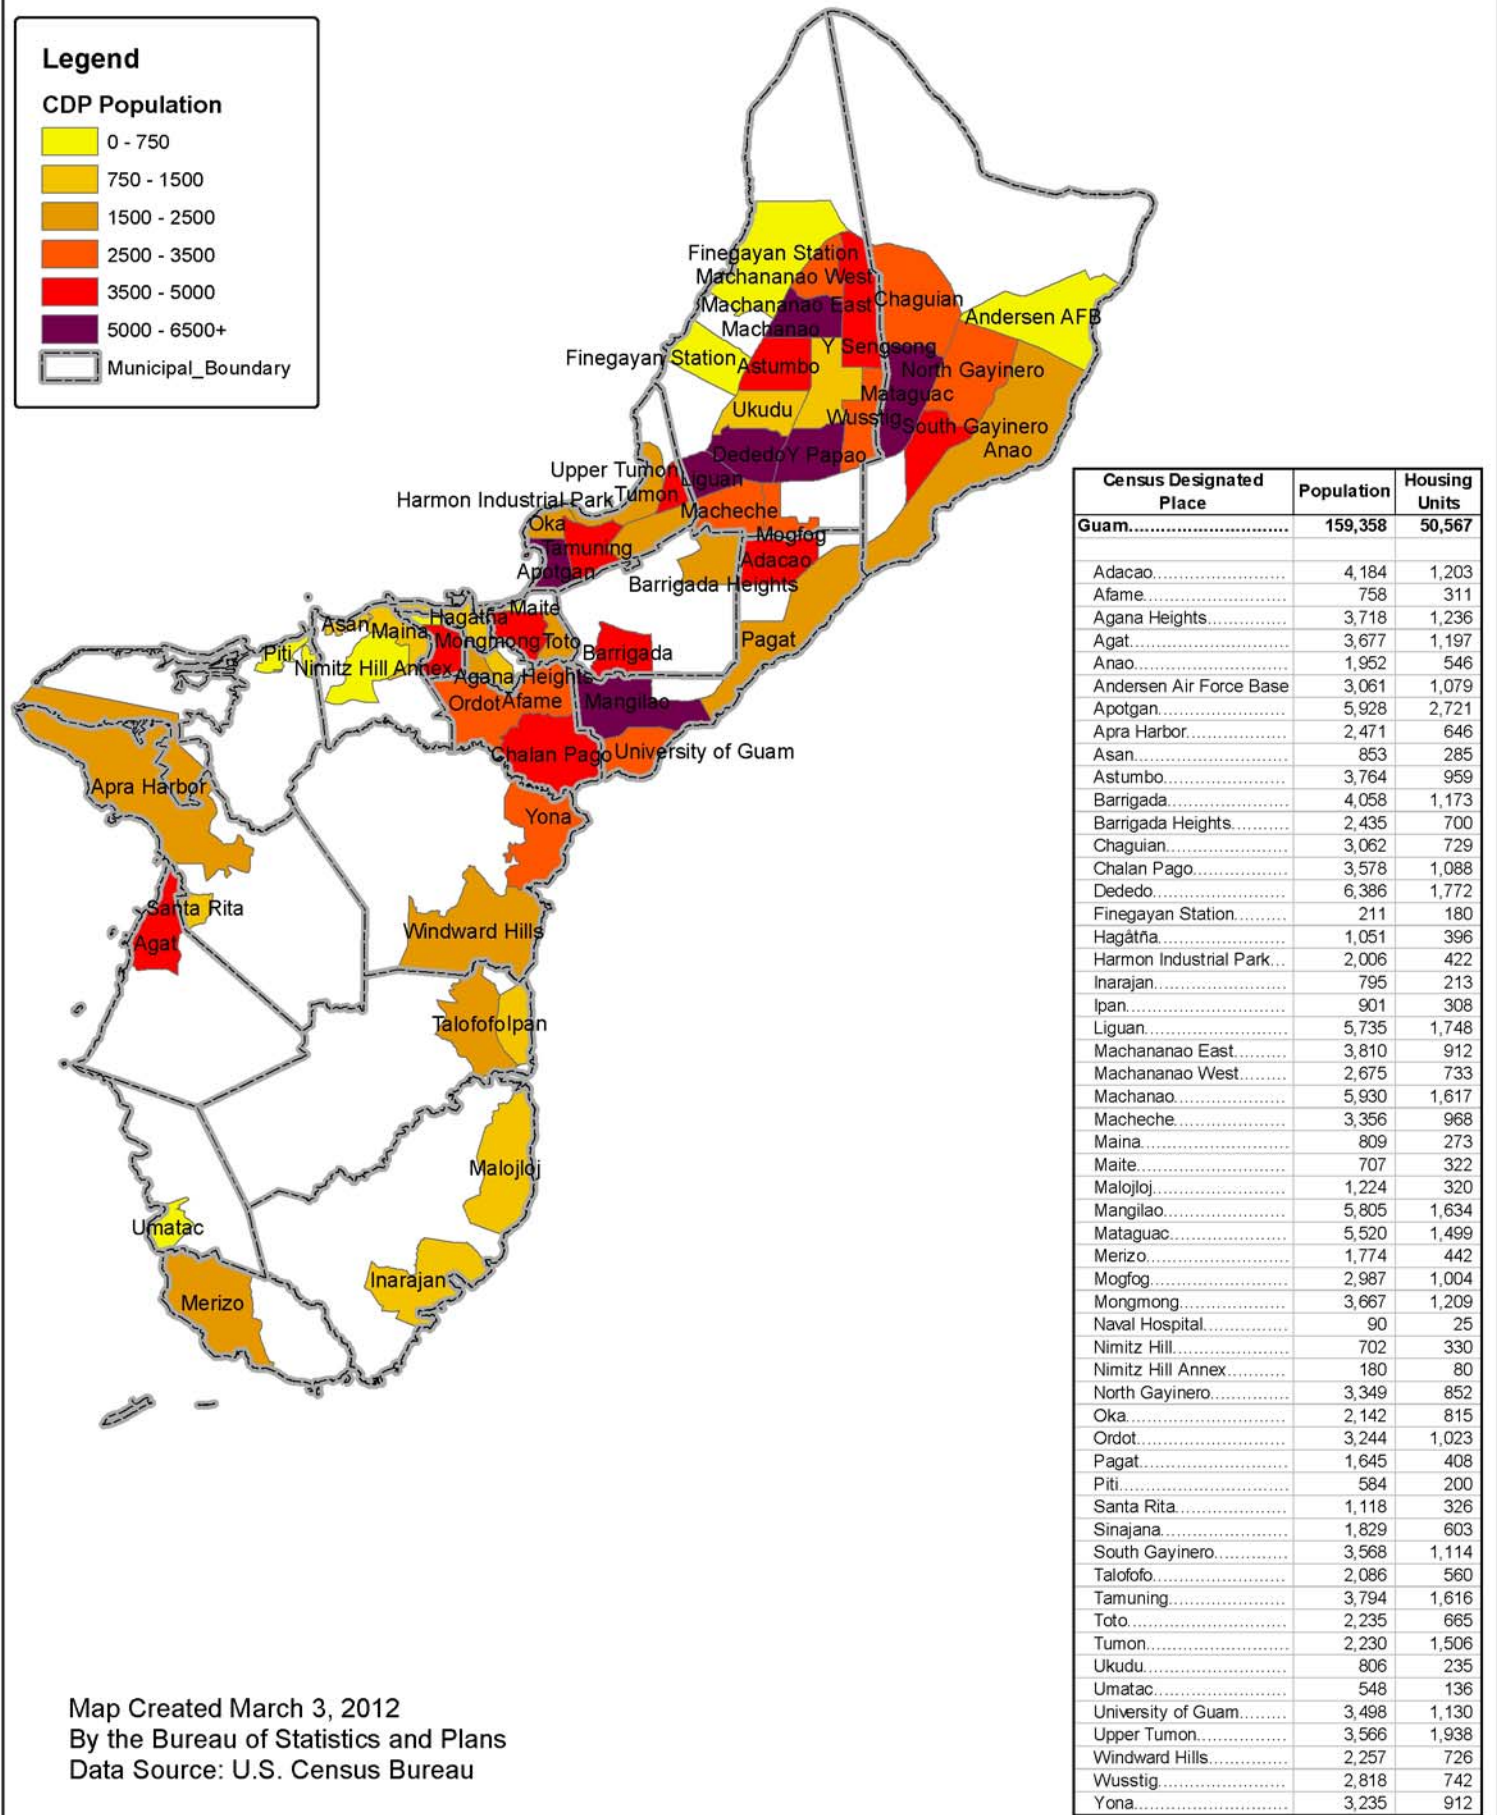

GUAM - 2010 Census Results

Percent Change in Population by Municipality: 2000 to 2010

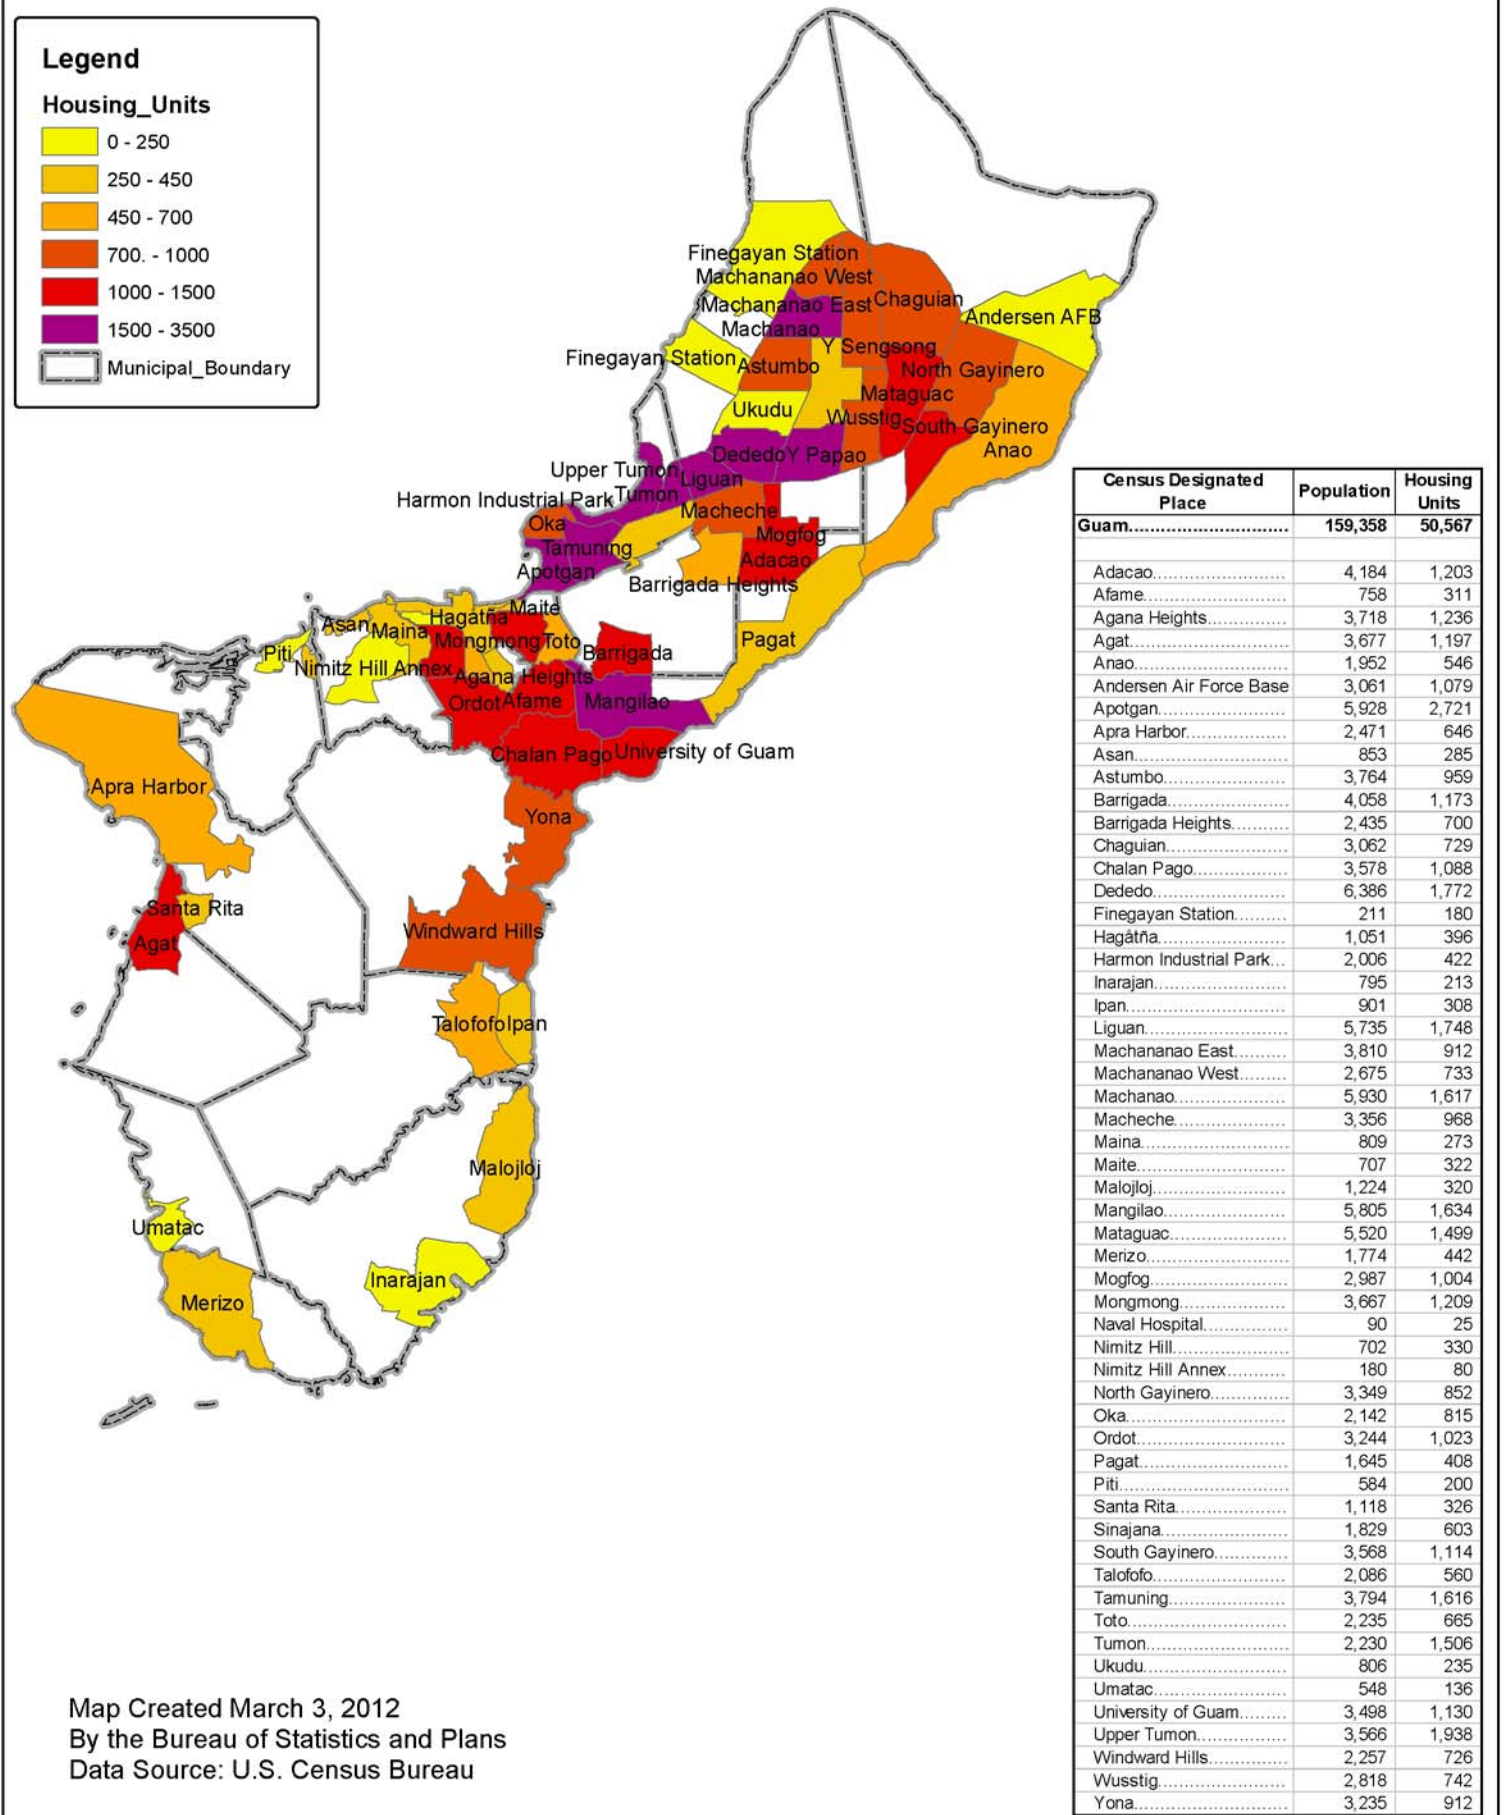

2010 Census of Population and Housing:Guam
Population by Census Designated Place (CDP)

2010 Census of Population and Housing:Guam

Housing Units by Census Designated Place (CDP)

Chapter Titles

GUAM ECONOMIC OUTLOOK

GUAM ECONOMIC OUTLOOK

Summary

The Guam economy is anticipated to be characterized by continuing stability for FY 2013 without major expansion or contraction. Continuation of the recovery in the Japan visitor sector from the March 11, 2011 Japan natural disaster in the latter half of 2011 combined with expansion from other Asian markets resulted in a first quarter Fiscal Year 2012 General Fund revenue increase of 4.8 percent over the first quarter of Fiscal Year 2011. This followed a strong Fiscal Year 2011 closing which showed total revenues up by \$44.2 million or 7.7 percent from Fiscal Year 2010. Revenues, however, remained below budget due to the Japan downturn and delay in defense buildup projects related to relocation of Marines from Okinawa to Guam.

In FY 2013, continued recovery in the Japan tourist sector and expansion in other markets may off-set some of the reductions in federal operational expenditures and defense contracting appropriations anticipated due to budgetary constraints, increasing deficits and political considerations. The amount of such reductions for Guam remains to be seen. The President's FY 2013 federal budget should provide substantial insight when it is introduced early this year but the actual amounts and Guam's share of the sacrifice won't be settled until the Defense Appropriation and other operational budgets are passed later in the year.

In FY 2013 construction activity is expected to remain relatively stable near the levels of the last several years with the annual dollar value of construction in the \$500 million range and industry employment about 6,000. While a number of Department of Defense projects, federal, local and private, with multi-year construction schedules have already been contracted to ensure continued relatively stable industry activity in FY 2013. Well over a billion dollars in appropriations from

the United States and Japan combined are currently available for various buildup related projects and infrastructure. This provides some upside potential for the construction industry and the economy as a whole should issues regarding buildup in Japan and the United States is resolved permitting at least some of the planned but stalled projects to precede.

Tourism

The collection of tourism related industries comprise a major share of Guam's economy. These include air and ground transportation, hotels, eating and drinking establishments, retail and services as well as other industries and sectors including wholesale trade and government services. As tourism is sensitive to a number of economic and other factors and the economy of Guam is heavily reliant on tourism, the industry volatility can have significant impact on the future outlook.

For the first quarter of FY 2012, Japan visitor arrivals had recovered to pre-tsunami levels, although for the calendar comparison from 2010 to 2011 Japan arrivals were down 7.8 percent. If at least the 2010 level of arrivals is maintained, the annual arrival numbers for Japan visitors for 2012 and 2013 would rise by 7.8 percent from the depressed CY 2011 levels. Guam Visitors Bureau projects the number of visitors to be up by 10.6 percent from FY 2011 to FY 2012, rising to 1.2 million visitors annually. Further expansion beyond the 2010 levels may be possible since 2010 arrivals were weak due to the global financial and economic situation and there has been growth in other markets.

While other tourist markets are relatively small in comparison to Japan, they have shown significant increases. On an annual basis from CY 2010 to CY 2011, in percentage terms, visitors from Korea have increased 10.7, Taiwan 48.0, Australia 23.9 and Hong Kong 29.0 percent.

For FY 2011 the weighted hotel occupancy rate was 70 percent indicating that the industry has the ability to expand measurably in the future with the current hotel capacity in place. Available room capacity increased with the reopening of the Guam Aurora Resort and Spa in December 2011 and is expected to increase further when the Outrigger Bayview Hotel tower, under construction, is completed. The Tumon Bay Shopping Center construction which was well underway may be again proceeding as the Guam Land Use Commission reinstated the project's permits November 10, 2011. The Versace Towers condominium project at Oka Point remains stalled. The industry, which recorded 1,149,978 arrivals in CY 2011, continues to operate well below the 1.4 million visitors accommodated in FY 1997.

Two very recent developments hold promise for the industry; one, the recent approval of admission of Russian visitors with parole authority and two, the President's tourism initiative.

Until January 2011, Russian visitors had to obtain a visa to enter Guam. Despite years of lobbying to include China and Russia in the Guam visa waiver program, the request has not been granted. A visa waiver would reduce the administrative delay and process necessary to book a visit to Guam and subsequently facilitate an increase in the number of visitors. In November 2011, the Department of Homeland Security did grant Guam's request for parole authority for Russian visitors to enter the island visa free. The number of Russian visitors to Guam in CY 2011 was 632. Natalia Bepalova, general manager of Guam Voyage, a Russian tour agency was quoted in a Pacific Daily News story saying she expects the number to at least triple in the first year. To assess the short term future potential of the Russian market in Guam, a look at the Commonwealth of the Northern Marianas Islands provides some perspective; after decades of promoting the Russian market, Russian tourists account for only one percent of the total arrivals whereas Chinese nationals account for ten percent of the market.

To promote a strategy to increase tourists coming to the United States, President Obama directed the State Department in January 2012 to accelerate its ability to process visas by 40 percent in China and Brazil this year. It is estimated that there are 50 million outbound travelers from Mainland China every year. In a special briefing by the U.S. Department State, it was indicated that the United States issued more than one million U.S. visas for Chinese applicants during Fiscal Year 2011 which represents a 34 percent increase over last year. The goal is to expand capacity to the adjudicate more than 2.2 million visas by 2013; over the next year 50 more processing staff positions will be added in China. Visas are issued to nearly 90 percent of all Chinese applicants. The number of Guam arrivals from Mainland China in CY 2011 was 7,068 without a visa waiver in effect. The numbers could increase further with expedited visa approvals and marketing to the over one million Chinese nationals with existing U.S. travel visas which are good for one year. The Mainland China market would grow even faster if parole authority for visa free entrance or a visa waiver program were implemented. Parole authority to provide visa-free entry is a step in promoting this market. However, it is a discretionary authority which could be revoked, so it may be less conducive to long term investment and development than inclusion in a visa waiver program.

Construction

Two of the best available indicators of future construction activity on Guam are the funds appropriated or planned for such projects and the building permits or construction contracts for them.

Federal funds appropriated for military construction on Guam as well as Japan Funds appropriated for U.S. based projects related to the relocation of U.S. Marines from Okinawa to Guam are shown in chart 1 below.

Chart 1 APPROPRIATIONS						
	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>
Fiscal Year (FY):						
U.S. DOD Military Construction	192,246	345,000	180,000	737,654	176,030	83,600
Japan - Fiscal Year (JFY)			<u>336,000</u>	<u>500,000</u>	<u>582,000</u>	<u>93,000</u>
Combined:	192,246	345,000	516,000	1,237,654	758,030	176,600

The peak year for appropriations for defense construction projects was 2010 and has subsequently declined in both 2011 and 2012. A number of military buildup projects planned for appropriations in the FY 2012 budget were deleted from the final defense authorization law. The new law does not affect previous military construction appropriations from prior which remain available.

Since a great deal of the funds appropriated have not yet been contracted, the declining appropriation levels are not yet reflected in declining construction level but could be in years beyond 2013. Construction activity more closely follows construction contracts and for civilian construction, building permits. The values of these indicators are shown in the chart below.

Chart 2 BUILDING PERMITS & CONSTRUCTION CONTRACTS					
	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>
Calendar Year					
Building Permits	305,853	210,295	299,057	184,837	211,097
U.S. Military Construction Contracts	136,747	346,589	148,823	370,413	334,597
Japan Funded Military Contracts					<u>89,720¹</u>
TOTAL:	442,600	556,884	447,880	555,250	635,414

Note: ¹ Budgeted amount. The full amount of MACC indefinite contracts is not recorded in the above figures, only task order for specific projects.

Based on the dollar value of the combination of projects expected to proceed as indicated by Building Permits and Construction Contracts, construction would be expected to remain relatively steady in FY 2012 and FY 2013. Of course, if issues delaying the projects for which funds have already been appropriated are resolved, construction could increase but probably not tremendously in the FY 2013 timeframe due to the long lead times involved in such major projects getting underway. Also, should a number of the contracted and permitted projects encounter further setbacks, total construction could begin to decline. Timing of the commencement of new projects is also critical consideration. To maintain current construction level, projects will need to be well underway soon to replace major projects recently completed including the new sanitary landfill and the new JFK high school.

The Guam Regional Medical City began clearing property for the new Hospital construction project in Dededo this January 2012. Construction is scheduled to begin in April and the construction cost alone is expected to be \$150 million with project completion in April 2014. This is believed to be the largest single private sector construction project on Guam since the construction of the Leo Palace Resort in Manenggon Hills, Yona more than a decade ago.

In preparation for the military buildup associated with relocation of Marines from Okinawa to Guam, on March 11, 2010 the Navy awarded six companies each an indefinite delivery, indefinite-quantity, multiple award construction (MACC) contracts for construction, renovation and maintenance of shore-based facilities on Guam. The combined value for all six contracts is \$100 million. The contract contains four option periods, which if exercised, would increase the cumulative contract value to \$500 million. Request for proposals for MACC contracts for Japan funded or Mamizu projects initially due December 1, 2010, in the amount of \$3 billion dollars have been delayed a number of times. According to amendment 20 to the solicitation by Naval Facilities Engineering Command Pacific, effective September 23, 2011, “the evaluation of offers is temporarily placed on hold and the government will request updated proposals within 180 days or by March 20, 2012.” Following the receipt of proposals there will be an evaluation period so the MACC award seems unlikely to be issued until late FY 2012 at the earliest.

A new Defense spending blueprint presented by U.S. Defense Secretary Leon Panetta January 05, 2012 outlines how the Pentagon will adjust its strategy and budgets for the next five years to achieve the first \$260 billion in savings towards meeting the goals of the August debt ceiling. It is not yet clear how Guam will be affected by the spending reduction and shifting of resources, however, the Statement on Defense Strategic Guidance states that “we are also rebalancing our global posture and presence, emphasizing the Pacific and the Middle East.”

Tax Refund/COLA Bond Disbursement

The revenue impact of the December 2011 release of approximately \$198 million for prior years' tax refunds and 16.8 million dollars for cost-of living-allowance payments for Government of Guam retirees has not yet been recognized, for the most part, in the government accounting statements through December 31, 2011 since the additional business activity as the result of these disbursements would be reported on the Business Privilege Tax reports due January 20 for the month of December. Also as a result of this disbursement, a federal reimbursement for tax credits refunded is expected in February 2012 in an amount to exceed \$20 million. These extra ordinary receipts should not be factored into the starting point for economic projections for FY 2013 activity. However, an additional bond authorization of \$100 million for 2011 tax year refunds could be issued in late FY 2012 or FY 2013 and that could provide an additional revenue source for FY 2013. Legislation requires that the Series B part of the bond requires approval by a local deficit reduction commission which has not occurred to date.

Federal Expenditures

Federal Expenditures and obligations for FY 2010 reached an all-time record high of just over \$2 billion divided nearly equally between Defense and Non-Defense categories. This occurred primarily due to the combination of record level defense construction contracts related to the relocation of Marines and the construction of a new Naval Hospital, the largest single project in the FY 2010 defense construction appropriations act for Guam. Non-Defense spending was also unusually high due to economic stimulus grants. It is nearly certain that the federal funding appropriation and expenditure levels for Guam will decline, from the latest comprehensive figures for FY 2010, in both Defense and Non-Defense categories in FY 2011, FY 2012 and FY 2013. Information from appropriation level reductions particularly for defense construction in FY 2011 and FY 2012 indicate that the magnitude of overall reductions in future federal appropriations or expenditures on Guam will be considerable for these years. The full effect of the cuts may not be felt immediately as some of FY 2010's record high obligations may carry over and become expenditures in subsequent years. Expenditure categories such as retirement benefits and employee wages and benefits are generally subject to less variability than grant and procurement contract categories. During the latest six month period between June 30, 2011 and December 31, 2011, \$89.0 million of the \$236.8 million in federal economic stimulus funds awarded to the Government of Guam under the American Recovery and Reinvestment Act (ARRA) were obligated or expended. Grant funds recently obligated will initiate economic activity including construction and payments for them in the near future.

Marine Corps Relocation to Guam & Deficit Reduction

An array of projects to support U.S. military plans to prepare to move about 8,000 marines to Guam represent the major source of potential new federal expenditures on Guam. Critical issues in both the U.S. and Japan have relocation projects on hold although other defense construction projects are proceeding. Japan must determine how to proceed with a Marine Corps Air Station Futenma replacement facility over strong public objection. Concerns by U.S. Senators are causing the Department of Defense to review and revise its realignment plans for U.S. forces in the Pacific. Senator McCain commented that “The conference report directs the Secretary of Defense to pause further spending on Guam in support of the relocation of 8,500 United States Marines from Okinawa until Congress has had an ability to examine.” He also indicated that “The final agreed-upon provision requires a study to offer views and suggestions from a range of regional experts on current and emerging U.S. national security interests in the Pacific and options for the alignment of realignment of U.S. military forces in the region.”

The Joint Select Committee on Deficit Reduction, referred to as the Supercommittee, created by the Budget Control Act of 2011, came to the conclusion that it was not possible for them to make any bipartisan agreement on cutting the federal deficit, thus triggering the law's requirement for automatic federal budget cuts in FY 2013. The deficit reduction measures will be split between the national security and domestic arenas. President Obama stated that he will veto any attempt by Congress to cancel the automatic sequester.

Source: Guam Fisherman's Co-op

Notes:

11 Inclusions covers the dispositions of quantities of the nominal catches or landings of all aquatic animals (except whales and aquatic plants made annually by both commercial and subsistence fishermen operating in freshwater and marine areas. Includes the disposition of quantities produced through aquaculture and the dispositions of (nominal catches) processed on-board fish factory-ships and other fishing craft belonging to Guam.

12 Treatment of direct landings in foreign ports includes the disposition of catches landed in foreign ports by the craft. If the catches are unknown as to how they are utilized they are included under the "Marketing fresh" disposition channel.

2.1 All quantities are expressed on a live weight basis.

2.2 Indicates the unit of measurement in which the quantity figures are expressed.

3.1 For the purposes of standardization and of international comparisons statistics on disposition of catch are based on the following seven main categories ("dispositions channels"):

Type of Commodity Produced

a) For marketing fresh

Fresh Products: live, fresh, chilled or iced, round or dressed fish, fillets, cutlets, etc.

b) For freezing

Frozen Products: frozen, round or dressed fish, fillets, cutlets, etc.

c) For curing

Cured Products: dried, salted (wet-salted, brine-packed, etc.), smoked, spiced, seasoned, marinated, vinegar- or sugar-cured, fermented products (sauces, juices, pastes) etc.

d) For canning

Canned Products: packed in airtight containers.

e) For reduction

(i) oils: edible and inedible body oils, liver oils containing vitamins, etc.

(ii) meals and fertilizers: including various kinds of meals and solubles (see 3.2 below)

f) For miscellaneous purposes

Miscellaneous Products: bait, pearl essence, glues, etc.

g) Offal for reduction (see 3.2 below)

3.2 Only whole fish destined for the manufacture of oils and meals is included in the "Reduction" channel; raw material for reduction derived from fish primarily destined for marketing fresh, freezing, curing and canning, is classified separately as "offal for reduction". The figures in this latter disposition category are on a net weight basis (i.e. the actual weight of the "waste" available for reduction) and are shown in parenthesis in the tables as such quantities are also included in the live in the tables as such quantities are also included in the live weight of the fish from which they are derived.

Note: Data covers the number of all commercial and subsistence fishers (i.e. all seagoing personnel on fishing craft) operating in freshwater, brackishwater and marine areas for catching and landing all aquatic animals and plants (except whales). Fishers operating in a domestic fishing craft landing in foreign ports, in fish-farming and shellfish-culture, are included. The statistics also covers fishers employed on fish factory ships, motherships to fishing expeditions and on auxiliary vessels such as fish carriers and fish transport craft.

Statistics on the numbers of fishers are based on the following three main categories:

(i) Full-time: fishers receiving at least 90% of their livelihood from fishing or spending at least 90% of their working time in that occupation.

(ii) Part-time: fishers receiving at least 30% but less than 90% of their livelihood from fishing or spending at least 30% of their livelihood from fishing or spending under 30% of their working time in that occupation.

(iii) Occasional: fishers receiving under 30% of their livelihood from fishing or spending under 30% of their working time in that occupation.

COMPACT IMPACT

Table 4-01.1 . Compact Impact Assistance Grant Projects (P.L. 108-188), Guam: FY2008 to FY2011

Grant Year	Agency	Project	Total Grant
FY2011	DPW	Governor's Municipal Leasing Plan (Schools)	6,100,000
	DPW	School Leasing Plan - Collateral Equipment	1,000,000
	UOG	A/E School of Engineering and Student Center	1,400,000
	GMHA	Medical Equipment	2,500,000
	DPHSS	Medical and Pharmaceutical Supplies	750,000
	DOC	Electronic Cell Locking System Upgrade	300,000
	DYA	Facilities Improvement	250,000
	Judiciary	Case Management System	3,777,026
	DOC	Emergency Generators	500,000
	DISID	Permanent Injunction Projects	250,000
Subtotal			\$16,827,026
FY2010	DPW	Governor's Municipal Leasing Plan (Schools)	6,100,000
	DPW	School Leasing Plan - Collateral Equipment	1,000,000
	GMHA	CIP and Equipment Procurement	3,500,000
	GMHA	Pharmaceutical Supplies and Equipment	1,000,000
	DPR/GHURA	Northern Sports Recreation Complex	2,700,000
	GFD	Equipment Procurement (Fire Pumper Trucks)	750,000
	GPD	Equipment Procurement (Patrol Vehicles)	527,026
	DPHSS	Pharmaceutical Supplies	500,000
	DMHSA	Permanent Injunction Projects	500,000
	DYA	Building Renovations / Equipment	250,000
Subtotal			\$16,827,026
FY2009	DPW	Governor's Municipal Leasing Plan (Schools)	6,100,000
	DPW	School Leasing Plan - Collateral Equipment	1,000,000
	GMHA	Pharmaceutical Supplies and Equipment	3,142,322
	DPHSS	Pharmaceutical Supplies and Equipment	500,000
	DISID	Permanent Injunction Projects	500,000
	DMHSA	Building Construction Projects	500,000
	DPW	Heavy Equipment (Packer Trucks)	500,000
	GFD	Fire Trucks (including repair) / Rescue Boad	1,000,000
	GPD	Forensic Lab Equipment	1,000,000
	GMHA	Operational and Feasibility Studies [1]	286,657
Subtotal			\$14,528,979
FY2008	DPW	Governor's Municipal Leasing Plan (Schools)	6,100,000
	GMHA	Pharmaceutical Supplies and Equipment	5,000,000
	GMHA	Pharmaceutical Supplies and Equipment	1,992,303
	DPHSS	Pharmaceutical Supplies and Equipment	500,000
	DISID	Permanent Injunction	500,000

Source: Catholic Education Office; Department of Defense Education Activity (DoDEA); Other Private Schools and Guam Public School System

1/ Pacific Christian Academy closed SY2010-SY2011.

2/ Total does not include one school in Other Private Schools due to failure to report. [SY2009-2010]

3/ Providence International Christian Academy opened SY2008-SY2009.

4/ Catholic Schools includes Dominican Child Development School, Infant of Prague Nursery & Kindergarten, Maria Artero, Mercy Heights, Bishop Baumgartner, Dominican Catholic School, Our Lady of Mount Carmel, Saint Anthony, Santa Barbara, Saint Francis, San Vicente, Academy of Our Lady, Father Duenas; Notre Dame, and Saint Thomas Aquinas.

5/ Department of Defense Education Activity

6/ Other Private Schools includes Asmuyao Community School, Evangelical Christian Academy, Guam Adventist Academy, Guam International Christian Academy, Harvest Christian Academy, Pacific Christian Academy, Saint Paul Christian School, Southern Christian Academy, St. John's School, Tamuning Christian Academy, Temple Baptist Christian School, and Trinity Christian School.

7/ Per pupil cost is calculated by dividing the total amount of expenditures per year by the average daily membership. The figures does *not* include cost for transportation from Department of Public Works.

8/ Cohort Graduation Rate: Based on the capability of tracking the high school experience of each member of the ninth grade cohort. After four years of high school, each member of the ninth grade cohort is identified as either a) a graduate; b) still in school; c) a transfer; d) a dropout; or e) a withdrawal due to illness or death. A four year cohort graduation rate may then be calculated by dividing the number of cohort graduates after four years of high school by the total 9th grade cohort less the number of transfers and the number of students that withdrew during the four years due to illness or death.

9/ Private School Graduates includes Catholic Schools, DoDEA, and Other Private Schools Graduates.

Retirees	22	39	51	10	6	0

Source: Great West Retirement Services

DC = Defined Contribution Plan

[1] Participants with a Balance include terminated employees who left balances, limited term employees waiting to be rehired, or retired individuals who choose not to take a distribution.

[2] Active Participants are participants receiving employer contributions. Employer contribution are an indicator of a participant actively working in the government.

R = Revised

2010 CMHS Uniform Reporting System (URS)

Client counts for Guam and the Territories are unduplicated, whereas the United States has 43 states with unduplicated client counts.

All denominators use US Census data from 2009.

Regional groupings are based on SAMHSA's Block Grant Regions.

Colorectal	12	25	67	8
Lung	18	17	55	28
Prostate	16	81	0	19

Percentages are based on rounded totals.
 Early = localized; Late = regional and distant. Localized, regional and distant are invasive. In situ cases (non-invasive) are not included.
 *Fewer than 5 cases in the five-year time period.
 Breast includes female cases only.
 Colorectal includes cancer of the colon, rectum, anus, and rectosigmoid.
 Lung includes cancer of the lung and bronchus.

The Uniform Crime Report Program counts one offense for each female victim of a forcible rape, attempted forcible rape, or assault with intent to rape, regardless of age.

Forcible Rape: The carnal knowledge of a female forcibly and against her will. Assaults and attempts to commit rape by force or threat of force are also included. However statutory rape (without force) are excluded.

Program classifies as Part II offenses all other crimes of sexual nature and, as such, collects only arrest statistics concerning them.

1/ Days away from work include those that result in days away from work with or without job transfer or restriction.

Excludes farms with fewer than 11 employees.

Dashes indicate data not available.

2/ Median days away from work is the measure used to summarize the varying lengths of absences from work among the cases with days away from work. Half the cases involved more days and half involved less days than a specified median. Median days away from work are represented in actual values.

Note: Because of rounding, components may not add to totals. Dashes indicate data not available.

Table 16-25 . Gross Business Receipts, Wholesale and Retail, Guam: 2000 to 2010

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of for those occupations where there is not an hourly mean wage published, the annual wage has been directly reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours;

for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours;

for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$80.00 per hour or \$166,400 per year.

8/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$80.00 per hour or \$166,400 per year.

8/ Estimates not released.

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$80.00 per hour or \$166,400 per year.

8/ Estimates not released.

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

8/ Estimates not released.

Table 16-45.4 . State Occupational Employment and Wage Estimates, Guam: May 2008 -- (continued)

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to or greater than \$70.00 per hour or \$145,600 per year.

8/ Estimates not released.

Table 16-46.2 . State Occupational Employment and Wage Estimates, Guam: May 2007 -- (continued)

Occupation Code	Occupation Title	Employment Number 1/	Median Hourly (\$) 1/	Mean Hourly (\$) 1/	Mean Annual (\$) 2/	Mean RSE (%) 3/
Community and Social Services Occupations						
21-0000	Community and social services occupations	710	\$14.04	\$15.30	\$31,820	1.5
21-1012	Educational, vocational, and school counselors	70	\$20.87	\$20.42	\$42,470	2.3
21-1093	Social and human service assistants	80	\$11.93	\$11.93	\$24,810	2.1

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours;

for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to or greater than \$70.00 per hour or \$145,600 per year.

8/ Estimates not released.

GLOSSARY

A

Age_Sex Structure	The age-sex structure is the composition of a population as determined by the number or proportion of males and females in each age category. The age_sex structure of a population is the cumulative result of past trends in fertility, mortality, and migration. Information on age_sex composition is essential for the description and analysis of many other types of demographic data. See also <i>Population Pyramid</i> .
Average	The average is the amount obtained by dividing the aggregate or total of a particular variable in the statistical universe by the number of units in that universe.

B

Bankruptcy	A legal procedure for dealing with debt problems of individuals and businesses. These procedures are covered under Title 11 of the United States Code (Bankruptcy Code). Bankruptcy laws help people who can no longer pay their creditors get a fresh start by liquidating their assets to pay their debts, or be creating a repayment plan. Bankruptcy laws also protect troubled businesses and provide for orderly distributions to business creditors through reorganization or liquidation.
Birth	A birth (live birth) is the complete expulsion or extraction from is mother of a product of human conception, irrespective of the duration of the pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of the voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.

Birth Rate	The birth rate is the number of live births per 1,000 population in a given year. It should not be confused with the growth rate. See also <i>Growth Rate</i> .
------------	---

C

Census	A census is the canvassing of a given area, resulting in an enumeration of the entire population and often the compilation of other demographic, social, and economic information pertaining to that population at a specific time. See also <i>Survey</i> .
Census Designated Place	Census designated places (CDP) are delineated for each decennial census to provide census data for concentrations of population, housing, and commercial structures that are identifiable by name but are not within an incorporated place. CDP boundaries usually are defined in cooperation with state, local, and tribal officials. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary. All places in Guam are CDPs.

Child Abuse and Neglect	Child abuse and neglect is at a minimum any recent act or failure on the part of a parent or caretaker which results in death, serious physical or emotional harm, sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.
Childbearing Years	Childbearing years is the reproductive age span of women, assumed for statistical purposes to be 15_44 or 15_49 years of age.
Civilian	A civilian is a person who is not in the armed forces, including dependent members of the armed forces.
Civilian Labor Force	The civilian labor force is all persons 16 years and older employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Cohort	A group of people sharing a common temporal demographic experience who are observed through time. For example, the birth cohort of 1900 is the people born in that year.
Consumer Price Index	The Consumer Price Index (CPI) measures the rate at which the prices of consumer goods and services are changing over time. In practice, most CPIs are calculated as weighted averages of the percentage price changes for a specified set, or “basket”, of consumer products, the weights reflecting their relative importance in household consumption in some period. A monthly or quarterly price index compiled and published by an official statistical agency that measures changes in the prices of consumption goods and services acquired or used by households.
Crude Birth Rate	See <i>Birth Rate</i> .
Crude Death Rate	See <i>Death Rate</i> .
Crude Divorce Rate	See <i>Divorce Rate</i> .

_ D _

Death	Death is the permanent loss of all evidence of life after a live birth has occurred.
Death Rate	The death rate is the number of deaths per 1,000 population in a given year.
Defined Benefit Plan	The Defined Benefit Plan provides for retirement, disability, and survivor benefits to members of the plan prior to October 1, 1995 (all government employees are required to participate in the Defined Contribution Plan after October 1, 1995). Under the Defined Benefit Plan, retirement benefits are based on age and/or years of credited service and an average of the three (3) highest annual salaries received by a member during the years of credited service, or six thousand (\$6,000), whichever is greater.

Defined Contribution Plan	Created by Public Law 23-42:3, this plan provides an individual account retirement system for any person who is employed by the Government of Guam. This plan is a single-employer pension and is the only plan for all new employees whose employment commences on or after October 1, 1995.
Density	Population density and housing unit density are computed by dividing the total population or number of housing units within a geographic entity by the land area of that entity measured in square kilometers or square miles. Density is expressed as both “people (or housing units) per square kilometer” and “people (or housing units) per square mile” of land area.
Dependency Ratio	The ratio of the economically dependent part of the population to the productive part; arbitrarily defined as the ratio of the elderly (ages 65 and older) plus the young (under age 15) to the population in the working ages (ages 15_64).
Disability Status	<p>Disability status was derived from answers to two Census questionnaire items. The first asked about the existence of the following long-lasting conditions: (a) blindness, deafness, or a severe vision or hearing impairment (sensory disability) and (b) a condition that substantially limits one or more basic physical activities, such as walking, climbing stairs, reaching, lifting, or carrying (physical disability) for the population 5 years old and over.</p> <p>Disability status was also determined by asking if the individual had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to perform activities in four categories: (a) learning, remembering, or concentrating (mental disability); (b) dressing, bathing, or getting around inside the home (self_care disability); (c) going outside the home alone to shop or visit a doctor’s office (going outside the home disability); and (d) working at a job or business (employment disability). Individuals were classified as having a disability if any of the following three conditions were true: (1) they were 5 years old and over and had a response of “yes” to a sensory, physical, mental or self_care disability; (2) they were 16 years old and over and had a response of “yes” to going outside the home disability; or (3) they were 16 to 64 years old and had a response of “yes” to employment disability.</p>
Divorce	A divorce is the legal termination of a marriage.
Divorce Rate	The divorce rate is the number of divorces per 1,000 population in a given year.

_ E _

Educational Attainment	The classification of people according to the level of education attained (the highest level of school completed or the highest degree received).
Election District	An election district is the official term for what is commonly called a “village”; there are the nineteen (19) election districts or villages on Guam.
Emotional Abuse	Patterns of behavior that attacks a person’s emotional development and sense of self worth (name calling, blaming, belittling, terrorizing, isolation, humiliation, and rejection).
Emotional Neglect	Purposely not providing for a person’s emotional needs (marked inattention to the person’s need for affection, refusal or failure to provide needed psychological care)
Employed	All civilians 16 years old and over were classified as employed if they were “at work” or “with a job but not at work” during the reference week, including temporarily absent. See also <i>Unemployed</i> and <i>Not in Labor Force</i> .
Ethnic Origin	Ethnic origin refers to an individual’s origin or descent, “roots,” heritage, or place where the individual or his/her parents or ancestors were born. Respondents reported their ethnic group regardless of the number of generations removed from their place or origin. Responses to the ethnic origin or race question reflected the groups with which respondents identified and not necessarily the degree of attachment or association the individual had with the particular group(s). See also <i>Race</i> .
Ethnicity	The cultural practices, language, cuisine, and traditions — not biological or physical differences — used to distinguish groups of people.

_ F _

Family	A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder’s family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.
--------	---

Family Income	In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.
Fertility	The data on fertility (also referred to as “children ever born”) were derived from the answers to the Census question which asked women 15 years old and over—regardless of their marital status—how many babies they have ever had. Stillbirths, stepchildren, and adopted children were excluded from the number of children ever born. Data are most frequently presented in terms of the aggregate number of children ever born to women in specified population groups and in terms of the rate per 1,000 women.
Fetal Death	A fetal death is a death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy; the death is indicated the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.
Freely Associated States	The Freely Associated States (FAS) consists of the Federated States of Micronesia (FSM), Republic of the Marshall Islands (RMI), and the Republic of Palau. Formerly a part of the Trust Territory of the Pacific Islands (TTPI), they became independent nations in free association with the United States.

_ G _

General Fertility Rate	The general fertility rate (GFR) is the number of live births per 1,000 women ages 15_44 or 15_49 years in a given year.
Gross Domestic Product	The gross domestic product (GDP) is the total market value of all the goods and services produced within a country in a given period of time.
Gross Reproduction Rate	The gross reproductive rate (GRR) is the average number of daughters that would be born alive to a woman (or group of women) during her lifetime if she passed through her childbearing years conforming to the age_specific fertility rates of a given year. See also <i>Net Reproduction Rate</i> and <i>Total Fertility Rate</i> .
Group Quarters	<p>Group quarters is used to describe places in which people reside that are not considered “housing units,” such as prisons, long-term care hospitals, military barracks, and dormitories. The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized:</p> <ol style="list-style-type: none"> (1) the institutionalized population which includes people under formally authorized, supervised care or custody in institutions at the time of enumeration. Such people are classified as “patients or inmates” of an institution regardless of the availability of nursing or medical care, the length of stay, or the number of

people in the institution. Generally, the institutionalized population is restricted to the institutional buildings and grounds (or must have passes or escorts to leave) and thus have limited interaction with the surrounding community. Also, they are generally under the care of trained staff who have responsibility for their safekeeping and supervision, and

- (2) the noninstitutionalized population which includes people who live in group quarters other than institutions. It also includes staff residing in military and nonmilitary group quarters on institutional grounds who provide formally authorized, supervised care or custody for the institutionalized population.

Growth Rate The growth rate is a general expression of the number of people added to (or subtracted from) a population in a year due to natural increase and net migration expressed as a percentage of the population at the beginning of the time period.

_ H _

Homeless According to the Stewart B. McKinney Act, 42 U.S.C. § 11301, et seq. (1994), a person is considered homeless who "lacks a fixed, regular, and adequate night_time residence and; and... has a primary night time residency that is: (A) a supervised publicly or privately operated shelter designed to provide temporary living accommodations... (B) an institution that provides a temporary residence for individuals intended to be institutionalized, or (C) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings." 42 U.S.C. § 11302(a) The term "'homeless individual' does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a state law." 42 U.S.C. § 11302(c).

Household A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) Separate living quarters are those in which the occupants live separately from any other people in the building and that have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Household Income Household income is the sum of all incomes of all members 15 years old and over of a household which are treated as a single amount.

Housing Unit A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. See also *Tenure*.

HTSUSA Acronym for *Harmonized Tariff Schedule for the United States Annotated*. The HTSUSA provides the applicable tariff rates and statistical categories for all merchandise imported into the United States.

It is based on the international Harmonized System, the global system of nomenclature that is used to describe most world trade in goods.

_ I _

Income	Income is the wages or revenue accruing from labor, business enterprise, or investments. See also <i>Household Income</i> , <i>Family Income</i> , <i>Individual Income</i> , <i>Mean Income</i> , <i>Median Income</i> , and <i>Per Capital Income</i> .
Individual Income	Income for individuals is obtained by summing the total income for each person.
Immigration	Immigration is the process of entering one country from another to take up permanent or semi-permanent residence.
Industry	Industry relates to the kind of business conducted by a person's employing organization described by its economic product or activity.
Infant Death	An infant death is a death occurring to an individual of less than one year of age
Infant Mortality Rate	The infant mortality rate is the number of deaths of infants under one year of age per 1,000 live births in a given year.

_ L _

Labor Force	The labor force is all persons employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Life Expectancy	Life expectancy is the average number of additional years a person could expect to live if current mortality trends were to continue for the rest of that person's life. It is most commonly cited as life expectancy at birth.

_ M _

Marriage	A marriage is a social institution involving legal or religious sanction whereby a man and a woman are joined together for the purpose of founding a family unit (traditional).
Maternal Death	A maternal death is a death wherein the physician has designated a maternal condition as the underlying cause of death.
Mean	This measure represents an arithmetic average of a set of values. It is derived by dividing the sum (or aggregate) of a group of numerical items by the total number of items in that group.
Mean Age	The mathematical average age of all the members of a population.

Mean Income	Mean income is the amount obtained by dividing the aggregate income of a particular statistical universe by the number of units in that universe. Thus, mean household income is obtained by dividing total household income by the total number of households.
Median	The median divides a distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. This measure represents the middle value (if n is odd) or the average of the two middle values (if n is even) in an ordered list of n data values. The median divides the total frequency distribution into two equal parts: one_half of the cases falling below the median and one_half above the median.
Median Age	The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.
Median Income	The median divides the income distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. For households and families, the median income is based on the distribution of the total number of households and families including those with no income.
Migration	The movement of people across a specified boundary for the purpose of establishing a new or semi-permanent residence. Divided into international migration (migration between countries) and internal migration (migration within a country).
Minor Civil Division	Minor Civil Divisions (MCD) are the primary governmental or administrative divisions of a first_order subdivision. On Guam, they are Guam's election districts (villages). The MCDs in Guam are geographic subdivisions of the first_order subdivision(s) and are not governmental units.
Mortality	Mortality is a general term for deaths as a component of population change.
_ N _	
Natality	Natality is a general term for births as a component of population change.
Natural Increase (Decrease)	The surplus (or deficit) of births over deaths in a population in a given time period.
Neonatal Death	A neonatal death is death occurring to an individual of less than 28 days of age.
Neonatal Mortality Rate	The neonatal mortality rate is the number of deaths of infants under 28 days of age in a given year per 1,000 live births in that year.

Net Migration	The net effect of immigration and emigration on an area's population in a given time period, expressed as an increase or decrease.
Net Migration Rate	The net effect of immigration and emigration on an area's population, expressed as an increase or decrease per 1,000 population of the area in a given year.
Net Reproduction Rate	The net reproduction rate (NRR) is the average number of daughters that would be born to a woman (or a group of women) if she passed through her lifetime conforming to the age-specific fertility and mortality rates of a given year. This rate is similar to the gross reproduction rate but takes into account that some women will die before completing their childbearing years. An NRR of one means that each generation of mothers is having exactly enough daughters to replace itself in the population. See also <i>Total Fertility Rate</i> .
Not in Labor Force	All people 16 years old and over who are not classified as members of the labor force. This category consists mainly of students, individuals taking care of home or family, retired workers, seasonal workers enumerated in an off_season who were not looking for work, institutionalized people (all institutionalized people are placed in this category regardless of any work activities they may have done in the reference week), and people doing only incidental unpaid family work (fewer than 15 hours during the reference week). See also <i>Employed</i> and <i>Unemployed</i> .
Nuptiality	Nuptiality is the general term for the frequency, characteristics, and dissolution of marriages in a population.
_ O _	
Occupation	Occupation describes the kind of work a person does on the job or a position in the labor force..
_ P _	
Part I Offense	<p>Part I Offenses is the first of two main groupings of Uniform Crime Reporting Program (UCR) crime classifications consisting of eight offenses reported whether or not they involve arrests:</p> <ol style="list-style-type: none"> 1. Criminal Homicide, 2. Forcible Rape 3. Robbery 4. Aggravated Assault 5. Burglary 6. Larceny_theft (except motor vehicle theft) 7. Motor Vehicle Theft 8. Arson <p>See also <i>Part II Offenses</i> and <i>Uniform Crime Report</i>.</p>

Part II Offense

Part II Offenses is the second of the two main Uniform Crime Reporting Program (UCR) groupings of crime classifications not already designated in Part I. Agencies are limited to reporting arrest information only for Part I offenses with the exception of simple assault.

Law enforcement agencies report to the FBI only arrest data involving the Part II crimes:

9. Other Assaults
10. Forgery and Counterfeiting
11. Fraud
12. Embezzlement
13. Stolen Property: Buying, Receiving, Possessing
14. Vandalism
15. Weapons: Carrying, Possessing, etc.
16. Prostitution and Commercialized Vice
17. Sex Offenses
18. Drug Abuse Violations
19. Gambling
20. Offenses Against the Family and Children
21. Driving Under the Influence
22. Liquor Laws
23. Drunkenness
24. Disorderly Conduct
25. Vagrancy
26. All Other Offenses
27. Suspicion
28. Curfew and Loitering Laws—(Persons under 18)
29. Runaways—(Persons under 18)

See also *Part II Offenses and Uniform Crime Report*.

Per Capita Income

The per capita income is the amount obtained by dividing the aggregate income of all individuals, including those without incomes, by the total number of individuals.

Percentage

This measure is calculated by taking the number of items in a group possessing a characteristic of interest and dividing by the total number of items in that group, and then multiplying by 100.

Permanent Resident

A permanent resident is any person not a citizen of the United States who is residing in the U.S. under legally recognized and lawfully recorded permanent residence as an immigrant (also known as "Permanent Resident Alien", "Lawful Permanent Resident," "Resident Alien Permit Holder," and "Green Card Holder"). See also *Temporary Resident*.

Physical Abuse

Non-accidental injury of a person (punching, beating, kicking, biting, burning, shaking, otherwise harming a person).

Physical Neglect	Purposely failure to act on behalf or to provide adequately for the person (refusal of or delay in seeking health care, abandonment, expulsion from home).
Place	Places, for the reporting of decennial census data for the Pacific Island Areas, include census designated places (CDP) and incorporated places.
Population	The total population of a country may comprise either all usual residents of the country (de jure population) or all persons present in the country (de facto population) at the time of the census. For purposes of international comparisons, the de facto definition is recommended.
Population Estimate	Population estimates are approximations of current or past population of an area at a given time, or its distribution or composition in absence of complete enumeration.
Population Density	The population density is the population per unit of land area; for example, people per square mile or people per square kilometer of arable land.
Population Projection	Population projections are the computations of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality, and migration. Demographers often issue low, medium, and high projections of the same population, based on different assumptions of how these rates will change in the future.
Population Pyramid	A bar chart, arranged vertically, that shows the distribution of a population by age and sex. By convention, the younger ages are at the bottom, with males on the left and females on the right.
Poverty	<p>Poverty is an economic and social condition for an individual, family, or household whose level of living in terms of food, housing, clothing, medical needs, and so on are determined to be below the community standard.</p> <p>Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14 (1978), the Census Bureau uses a set of money income thresholds designed in the 1960s that vary by family size and composition to determine who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor. The poverty thresholds do not vary geographically, but they are updated annually for inflation using the Consumer Price Index (CPI_U). The official poverty definition counts money income before taxes and does not include capital gains and noncash benefits (such as public housing, medicaid, and food stamps). Poverty is not defined for people in military barracks or institutional group quarters or for unrelated individuals under age 15 (such as foster children). They are excluded from the poverty universe — that is, they are considered neither as “poor” nor as “nonpoor.”</p>

Poverty Status

For the 2000 Census, the poverty status of families and unrelated individuals in 1999 was determined using 48 thresholds (income cutoffs) arranged in a two dimensional matrix. The matrix consists of family size (from 1 person to 9 or more people) cross_classified by presence and number of family members under 18 years old (from no children present to 8 or more children present). Unrelated individuals and 2_person families were further differentiated by the age of the reference person (RP) (under 65 years old and 65 years old and over).

To determine a person's poverty status, one compares the person's total family income with the poverty threshold appropriate for that person's family size and composition. If the total income of that person's family is less than the threshold appropriate for that family, then the person is considered poor, together with every member of his or her family. If a person is not living with anyone related by birth, marriage, or adoption, then the person's own income is compared with his or her poverty threshold.

_ Q _

Quartile

Quartile is a measure that divides a distribution into four equal parts. The first quartile (or lower quartile) is the value that defines the upper limit of the lowest one_quarter of the cases. The second quartile is the median. The third quartile (or upper quartile) is defined as the upper limit of the lowest three quarters of cases in the distribution. Quartiles are presented for certain financial characteristics, such as housing value and contract rent. The distribution used to compute quartiles is the same as that used to compute medians for that variable.

Quintile

Quintile is a measure that divides a distribution into five equal parts on the basis of the ranked total incomes. Hence, the lowest quintile is the bottom 20 percent of the population or households; the highest quintile is the highest 20 percent on the same basis.

_ R _

Race

The racial classification used by the Census Bureau adheres to the October 30, 1997, Federal Register Notice entitled "Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity" issued by the Office of Management and Budget (OMB). These standards govern the categorization of race in census data products. The OMB identified five minimum race categories (White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander). In addition to the five race groups, the OMB also states that respondents should be offered the option of selecting one or more races. See also *Ethnic Origin*.

Rate

A rate is a measure of occurrences in a given period of time divided by the possible number of occurrences during that period. Rates are sometimes presented as percentages.

Rate of Natural Increase (or Decrease)	The rate of natural increase (or decrease) measures the population increase (or decrease) in a given year due to a surplus (or deficit) of births over deaths, expressed as a percentage of the base population.
Ratio	A ratio is a measure of the relative size of one number to a second number expressed as the quotient of the first number divided by the second. For example, the sex ratio is calculated by dividing the total number of males by the total number of females, and then multiplying by 100.
Rural	See <i>Urban and Rural</i> .
_ S _	
Sex Ratio	The sex ratio is a measure derived by dividing the total number of males by the total number of females, and then multiplying by 100.
Survey	A survey is a canvass of selected persons or households in a population usually used to infer demographic characteristics or trends for a larger segment or all of the population. See also <i>Census</i> .
_ T _	
Temporary Resident	A temporary resident is a nonimmigrant alien who seeks temporary entry to the United States for a specific purpose. The alien must have a permanent residence abroad (for most classes of admission) and qualify for the nonimmigrant classification sought. The nonimmigrant classifications include: foreign government officials, visitors for business and for pleasure, aliens in transit through the United States, treaty traders and investors, students, international representatives, temporary workers and trainees, representatives of foreign information media, exchange visitors, fiancé(e)s of U.S. citizens, intracompany transferees, NATO officials, religious workers, and some others. Most nonimmigrants can be accompanied or joined by spouses and unmarried minor (or dependent) children. See also <i>Permanent Resident</i> .
Tenure	Tenure represents the condition or nature by which occupancy of a housing unit is held. All occupied housing units are classified as either owner occupied or renter occupied. A housing unit is owner occupied if the owner or co_owner lives in the unit even if it is mortgaged or not fully paid for. All occupied housing units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter occupied.
Total Fertility Rate (TFR)	The total fertility rate is the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age_specific fertility rates of a given year. This rate is sometimes stated

as the number of children women are having today. See also *Gross Reproduction Rate* and *Net Reproduction Rate*.

_ U _

Unemployed

All civilians 16 years old and over were classified as unemployed if they were neither “at work” nor “with a job but not at work” during the reference week, were looking for work during the last 4 weeks, and were available to start a job. Also included as unemployed were civilians 16 years old and over who: did not work at all during the reference week, were on temporary layoff from a job, had been informed that they would be recalled to work within the next 6 months or had been given a date to return to work, and were available to return to work during the reference week, except for temporary illness. See also *Employed* and *Not in Labor Force*.

Uniform Crime Report (UCR)

Uniform crime reporting is a collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime. Agencies throughout the country participating in the Uniform Crime Reporting (UCR) Program provide summarized reports on eight Part I offenses known to law enforcement and reports on persons arrested. They also provide information about law enforcement officers killed and assaulted and on hate crime.

The UCR Program divides offenses into two groups—Part I and Part II. The Program collects data on all Part I offenses that become known to law enforcement whether or not they involve arrests. These crime totals are essential to measuring the level and scope of crimes occurring across the country. Part II offenses are all crime classifications other than those defined as Part I. The UCR Program collects arrest data for both Part I and Part II offenses. See also *Part I Offenses* and *Part II Offenses*.

Urban and Rural

The U.S. Census Bureau classifies as urban all territory, population, and housing units located within urbanized areas (UAs) and urban clusters (UCs). It delineates UA and UC boundaries to encompass densely settled territory, which generally consists of:

- A cluster of one or more block groups or census blocks each of which has a population density of at least 1,000 people per square mile at the time, and
- Surrounding block groups and census blocks each of which has a population density of at least 500 people per square mile at the time, and
- Less densely settled blocks that form enclaves or indentations, or are used to connect discontinuous areas with qualifying densities.

Rural consists of all territory, population, and housing units located outside of UAs and UCs. Geographic entities such as first_order subdivisions, minor civil divisions, and places often contain both urban and rural territory, population, and housing units.

The urban and rural classification applies to the 50 states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands of the United States.

There are UCs in all the Pacific Island Areas, but only the Northern Mariana Islands has a UA (Saipan).

Urban Cluster (UC) An urban cluster (UC) consists of densely settled territory that has at least 2,500 people but fewer than 50,000 people, except in Guam. By agreement with the Government of Guam, the U.S. Census Bureau recognizes Hagåtña as a UC rather than an urbanized area.

Urbanized Area (UA) An urbanized area (UA) consists of densely settled territory that contains 50,000 or more people, except in Guam (see below). The U.S. Census Bureau delineates UAs to provide a better separation of urban and rural territory, population, and housing in the vicinity of large places.

– V –

Veterans Status For Census data products, a civilian veteran is a person 18 years old and over who, at the time of the enumeration, had served on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard in the past (even for a short time), but was not then on active duty, or who had served in the Merchant Marine during World War II. People who had served in the National Guard or Military Reserves were classified as veterans only if they had ever been called or ordered to active duty, not counting the 4 to 6 months for initial training or yearly summer camps. All other civilians 18 years old and over were classified as nonveterans.

Vital Statistics Vital statistics is the collection of Demographic data on births, deaths, fetal deaths, marriages, divorces, and related events usually compiled through a registration system or other administrative record system.

**2012 STATE OF THE
ISLAND ADDRESS**

Madam Speaker, Mr. Lieutenant Governor, Mr. Acting Chief Justice, Madam Congresswoman, Madam President of the Mayors Council, Madam Chief Judge of the District Court, distinguished Ladies & Gentlemen of the Thirty-first Legislature, the Judiciary, the Mayors Council, the Consular Corps and the Armed Forces, Madam Public Auditor, honored guests, and most importantly,

My Fellow Guamanians,

It's been 20 long years since the government started robbing its citizens of their tax refunds. I am thrilled to report that for the first time in 20 years, tax refunds are on time.

The payment of tax refunds shapes the state of our island, not just because it sparked the economy, but because we began to renew people's faith in leadership... that leaders will keep the promises that they make.

But by no stretch of the imagination should this be considered some monumental achievement. Paying the people their money simply was a duty we fulfilled. Nothing any of us could say could rival the relief and joy of Guamanians during Christmas.

It's the same relief that we hope they can get again this year. If the people's trust is what we want to build back into the leaders they elect, I hope the legislature will support Series B of the tax refunds bond. As I explained last year, we needed to finance \$343 million to pay tax refunds for this year and all the prior years that weren't paid. You only allowed \$198 million to be paid in December, leaving a balance, and another \$100 million owed for this year's refunds. Senators, let's work together swiftly to give the people the balance of their money.

This enormous debt to the people of Guam is the result of a government diseased by delusions of financial grandeur for decades.

Rather than making the tough decisions that cost votes, the leaders of Guam have been content to simply rob Guamanians of their tax refunds. They've disguised this debt by calling it a deficit, never telling taxpayers that it is almost entirely made up of their money. The disguise fed the delusions: 'Hire this supporter.' ... 'Keep this contractor.' ... 'Pay this rent.' ... 'Increase the revenue projections so we can budget more for this agency closer to the election.' These are the politics of the past that ate every day into the money that was supposed to be set aside for tax refunds.

Leadership in dire times is about the ability to prioritize, to act with justice, and to serve all. Do government employees deserve the Hay raises? Of course they do. Was there money for it? No.

It was an empty promise from politicians in an election year. And what about the size of the government? Is there enough money for payroll, or will we continue raiding tax refunds, vendor payments, utility bills and capital improvements so we can pay personnel costs?

Senators, of the 12,000 government employees, I have control over only 2,973. The rest are employees of the Department of Education, autonomous agencies, the legislature and the judiciary.

You handle your own budget. So does the judiciary. And since the legislature took DOE away from the control of the Governor, I can only affect financial change in less than 50 percent of the General Fund workforce. And I have.

By attrition and by termination, we reduced the line agency workforce by 101 employees between the last pay period in 2010 and the last pay period in 2011. This does not include the positions currently going through the lengthy lay off process.

We increased the number of health professionals at Public Health, tax enforcement staff at Rev & Tax, and doctors at the hospital.

In exchange for these investments, we reduced the staff

- at the Governor's Office by 24 percent,
- at the consolidated land agency by 11 percent,
- at the consolidated Chamorro Affairs department by 8 percent,
- at Public Works by 11 percent,
- at Parks and Recreation by 14 percent,
- and the list goes on.

Where did all these savings go? Well, to help pay for the three years of continuous deficits. The cash that wasn't spent on personnel went to pay overdue bills from tax refunds, to vendors, power bills, court orders and mounting interest.

Senators, I know you share my understanding that the taxpayers of Guam do not have an endless pot of money for government to spend. It is one thing to tell us to pay for all personnel AND all tax refunds AND all the mandates set by law. It is quite another thing to look at the bank account and pay it out. Imagine if every household had the ability to spend the money the way the legislative finance committee wants the government to do. Every Guamanian could then forget that his bills exist, and every Guamanian would be able to buy a beach in Tumon.

But this is not the way people live their lives. They budget their paychecks, and if the money doesn't come in, they cut their spending. What gives government the license to live above the law when it requires its citizens to play by the rules? To quote Senator Tony Ada: I thought the government was supposed to serve the people and not the other way around. The government's runaway spending must stop!

We've been doing whatever we can to save money. Lt. Governor Tenorio and I voluntarily took a 10 percent pay cut, along with our senior staff. We said we would suffer along with the taxpayers who were due their refunds. Well, the refunds were paid, and we still haven't restored our

pay. When you compare it to the government's revenues, it's not a lot of money. But, we felt that leading by example means a lot more to the employees who have been sacrificing as well.

We made millions in cuts that would take the next 12 hours to outline. It would take another 12 hours to explain the service improvements we made as well.

Despite the cuts, we sought to improve services by implementing common sense solutions. We embarked upon the first major reorganization of GovGuam in its 62-year history.

We began consolidating agencies. We started identifying programs to outsource. Ambulance billing now is outsourced. DOE has the authority to implement a performance management contract for its ailing maintenance division. I applaud Sen. Yamashita for her forward thinking and I encourage DOE to take advantage of this right away.

We are also on our way to outsourcing billings and collections at the hospital. This follows the decision to stop competing with hemodialysis providers. In the budget I submitted to you today I also propose to reorder the reorganization of animal control and outsource those functions to the mayors. We did the same with the village learning centers. Our next outsourcing project is the DMV. As a rule, government should never compete with the private sector. We are looking for services that can best be provided by businesses that are more efficient and will hire people and pay taxes.

We found redundant positions and eliminated spending where it wasn't needed, offering assistance to displaced workers along the way. We're not done, either. Reorganization and spending cuts will continue until the government is providing excellent service again and living within our means.

It is this concentration on improving services that led to a demand for excellence from all GovGuam employees. You are paying for these services with your taxes and fees, so in essence you are the customer. And from where I come from, the customer is always number one.

So, I ordered a new customer service initiative. We released customer service guidelines to all agencies, and began monitoring the Cabinet to see that all agencies are performing. We're still a ways from improving customer service to the level I expect, but the work is happening. We even established a Customer Service Hotline at Adelup to receive your complaints and suggestions.

The demand for excellence is a precursor to a total change in how agencies will be funded in the future. My fiscal team is working to transition the government into performance-based budgeting. Right now, agencies are funded according to funding requests. In the future, agencies will be funded based on their performance. Did the agency use its dollars wisely? Did the agency meet its expected service levels? Were customers satisfied? Did service improve? We will be able to hold every agency director, manager and supervisor accountable by changing to this system of budgeting. Taxpayers will literally be able to see, online, where their dollar went and what got better or worse because of that investment.

One of the areas where you will see a marked improvement in the near future is online services. Senators, we hope to invest some of the savings we've made into the development of online applications and help centers. We want to take any service, where you now have to walk into

a GovGuam office to apply, and put those forms online. It's a lot easier said than done, though. The very small IT staff we have will be looking through the hundreds of services the line agencies provide. One by one, they will develop protocols to move applications online. This should reduce traffic, but more importantly, make it so much more convenient for you to get service from GovGuam.

We are also looking into service kiosks at agencies like Rev & Tax. Rather than standing in a long line, you can simply walk up to a machine to make your transaction.

Doing more with less is a mantra of a GovGuam workforce that is racing toward excellence. I'd like to recognize two ambassadors of the new government of Guam: Teresa Blas and Artemio Aguero, Jr. were the two winners of the Merit Cup of Excellence MagPro Awards last year. Teresa and Artemio, please stand. It's my great honor to introduce you to the people of Guam tonight and recognize you for your excellence.

We're one year into our administration. We are demanding excellence and changing government so that it serves the people. If I were a politician, I'd chalk up everything I just told you to a series of achievements. But are they really? Or are they just a series of decisions and duties fulfilled that should be done by a governor anyway? To me, these are simply basic duties that a governor and lieutenant governor must fulfill.

These are a few of the basic improvements you expected from government :

- At the start of 2011, your tax refunds were 2-5 years late. Today, if you pass my bond, they will be on time.
- DOE was in jeopardy of losing \$60 million in ARRA funds when we came in. Today, DOE is preparing to improve public school facilities using these monies we saved for them.
- On the day we came into office, there were only two working ambulances. Today, there are seven working ambulances and more are coming. And they come with maintenance, too.
- Transparency was a word normally used in political punchlines when we came to office. Today it means a governor and lieutenant governor who hit the streets to answer the people's questions directly. It means agencies without gag orders. It means weekly addresses, newspaper columns, interviews on talk shows, Facebook interaction, and the expectation that my Cabinet is answering your phone calls and being responsive to your needs.

Things are better, but let's not kid ourselves. We are far from where we need to be. The benchmark isn't whether we did better from one year to the next. It is whether services are improving at the expectation of the customer.

It is not achievement until the people feel it and say it is. The state of the government is better, but the state of our island still is vulnerable. We're here not so much to hear about the improvements of the government as to report on how government is affecting the state of the island... an island of people who are dealing with a culture that very rapidly changed since the 1980s.

Not too long ago, poverty was a term used to describe people in Africa, or on the streets of New York. Anywhere but Guam. Something about our society changed, and poverty became endemic; worse, a cruel cycle.

Today the condition of our people has so eroded from the central values of the Chamorro that built Guam, that 30 percent of our people have no choice but to accept public assistance. Yes, senators, in 2011, there were 50,000 Guamanians on Medicaid or MIP, and 40,000 on food stamps.

And, the saddest statistic of them all - 67 percent of public school children come from families struggling so much in life that these children have to take reduced or free lunch assistance. At three schools alone, 90 percent of students are part of the free lunch program. Senators, the very soul of this island is not in the ideas that can be conjured on this floor. It's not found in the confines of our air-conditioned offices, or the comfort of our titles.

The soul of Guam is in the poor boy I met at Sagan Linahyan. He did not have a shirt or slippers as he walked in his grandmother's mud-soaked yard. The boy and his family were outside because they have no power. There was also a hose running from the neighbor's house into one of the windows. They didn't have running water, either. It seemed such an irony that right across the street was a beautiful school. That's because its test scores, like that of most public schools, gives little hope that the poor boy will be prepared to leave poverty when he graduates, if he graduates.

The soul of Guam is also in the teenage girl, so beaten by life that she replaced the dream she once had as a little girl to become the President of the United States... with a compromise to instead quit school and work at the nearby store to support her family.

It is also in the single mother of four children, who are hoping the best for her. You see, they're scared because she's lost a lot of weight, she doesn't have any more hair, and she's always weak, so she lost her job. They had to go on public assistance to survive. Her children don't know how the thought that the cancer will make them orphans keeps her awake at night more than the chemotherapy does.

For all these people, and tens of thousands of others with similar stories, Guam is not the paradise we once knew. It is a place of suffering. An island without opportunity or hope. A society led by a government that doesn't care about their poverty.

It has been our mission since taking office to address poverty head on, and to send the message to the suffering that we do care.

We opened up the lines for public housing and we started building affordable homes. We have a goal to build 3,000 homes that you can afford by 2017. I'm very proud that our housing team, with the support of Sen. Muna-Barnes, set the stage for more than 600 affordable homes already.

We also saw movement this month to add properties and abandoned homes to the affordable housing inventory. We're working with private partners to build even more. As of today, 611 affordable homes are either ready to break ground or are in the planning stage. Another 1,562 are in the conceptual development stage. Then there's the potential for another 1,690 after that.

Imagine it. If you're someone who's gone to the bank only to have your dreams crushed by a mortgage rejection, the next few years will be so exciting for you. You will finally have your chance with the construction and renovation of these homes for low rent or low mortgage.

Alicia Pinaula had this chance. She is a Chamorro Land Trust recipient, who waited for years for the government to approve her grant. Well, we approved it and her home is now under construction. This affordable housing initiative is real, and Alicia Pinaula joins us tonight as one of my guests. Alicia, please stand so the people can see that dreams do come true.

The long-term goal is for the economic vibrancy that naturally allows Guamanians to buy homes with their income. Unfortunately, we've been facing an uphill battle against poverty since the 1990s. An entire generation has been living without opportunity. Our affordable housing initiative builds a bridge for the present generation to achieve the Guamanian Dream of homeownership in this decade. Yes, for all of you scraping by to pay the rent, we are working tirelessly to build homes you can afford for your family. The dream you have is a dream we share with you. You keep working hard, and so will we. That home may soon be yours.

Guamanians also are looking for work. It is no wonder children are living in third world conditions when their parents have to deal with thirteen percent unemployment. To address this for the adults who've been failed by government's failure in education, we've maximized workforce training programs. Guamanians who want to work can visit AHRD right here in Hagatna at the GCIC building. On the first floor is an office of GovGuam professionals eager to help you. They have a program that can assess your skills and then see if you're ready to go looking for a job, or if you need some training. If you need training, they'll help you with that, too.

I'd also like to recognize the diligent efforts of Sen. Sam Mabini. No one has called me more about career technical education and the need to address workforce development in the classrooms than she has. She truly cares about your children's future.

By far, though, the greatest contributors to workforce development on this island are the Guam Community College and University of Guam. I'm smiling right now because Christine and I are the proud parents of two UOG and GCC alumni. It makes me so proud as a governor to know that in the middle of the western Pacific, on a tiny island so often forgotten by the rest of the nation, are the two best institutions of higher learning any citizen could ask for. Indeed, Dr. Underwood and Dr. Okada, it is the natural choice for any person wanting to compete against anyone in the global economy.

My fellow Guamanians... have you been to your community college recently? Mary Okada, her staff and her faculty turned that once-barren campus into the breeding ground for the nurses that care for you, the IT professionals who are bringing Guam into the Twenty-first century, the public safety officers who keep us safe, and the skilled workers who make this island go 'round.

Cross the George Washington campus and you'll find a new community that is giving rise to Guam's place as the regional leader in economic development.

Our University is preparing future professionals to create positive outcomes in the community.

Your University has seen continued increases in enrollment and a record \$35 million in federal grants and contracts. UOG is an engaged institution committed to academic quality, research, and outreach projects that benefit the community. It provides information and solutions in

response to community needs for everything from cancer research, invasive species control, and developmental disabilities research and service.

UOG plans to break ground this year on the Student Services Center followed by the Engineering School. These facilities will enable us to meet future challenges as an educated, engaged society. UOG has come so far in their 60 year history. I am committed to maintaining an affordable and accessible pathway to higher education so our people can prosper.

Dr. Okada and Dr. Underwood, you have my unwavering support for the zoning of the Mangilao Education and Economic Zone and for the development of the research and development parks in your backyard. Keep graduating those students so that more Guamanians have higher prospects for well-paying careers.

To support you, I have included a provision in the budget I submitted that unties your hands on scholarship funding – so that more young Guamanians can afford tuition now.

We also turned to the staple of our economy, tourism. I want to see every qualified person who filled out an application at a hotel or restaurant get a job. The only way that will happen is if we get more tourists spending more money.

That's why it was critical to succeed with Russian visa waiver parole authority. It's not China, but it is a market we've been trying for years to enter. We want those Russian Rubles flowing into our economy, creating new jobs and new business opportunity. I want that boy from Sagan Linahyan to know that if he works hard in school, despite his poverty, he can have a future.

But we don't just want Rubles from Russia. We want more Japanese Yen, Chinese Yuan, Philippine Pesos, Taiwan Dollars and Korean Won. We went on trade missions last year and met with hundreds of businessmen who want to bring their money to Guam. What does that money mean? More capital for the jobs you're waiting for. More services for our people. More competition to drive down prices. Short-term economic development is a critical issue, and I am so grateful to Senator Chris Duenas for all of his support and his ideas.

But what about the rest of us? It will take some time for our young economic initiatives to produce the hundreds and thousands of career opportunities for Guamanians. In the meantime, there are thousands of Guamanians who, right now, need a job. We need even more opportunity for Guamanians who've been marginalized by a government in recession from their real needs... a government out of touch with the people it is supposed to serve. A government that was supposed to do something meaningful when 6,226 young Guamanians walked out of public high school without a diploma over the past five years. Yes, 42.7 percent of the 14,533 students who entered the ninth grade between 2002 and 2006 have hardly any hope of getting a meaningful job that will pay the bills. And of the 8,327 who did graduate, only 2 percent of them have the math skills to succeed in a career, and no more than 14 percent in reading. These former students are now the 18 to 22 year-old Guamanians of today. That means the majority of the youngest parenting generation of Guamanians do not have the education and skills to compete in the evolving job market.

Senators, we can implement change now, but the positive results will be for the children of this generation, not for the young parents who are struggling today. The reason we need an affordable housing program is because this generation needs help. The reason we need to infuse the

economy with training and entry-level work is that the current generation was failed by a government that didn't prioritize their education. I will discuss my long-term plan in a few minutes, but we cannot forget the generation today.

We also need the military buildup. It is clear as day to me that the buildup brings with it the greatest hope for the current jobless, and those looking to increase their wages and income. In the fight against poverty, my dear people, there is no greater short-term solution than the buildup. No other industry offers to pump billions of dollars into our economy in such a short time. No other economic stimulus proffers the chance for a regular citizen to open a small business like the buildup does. Imagine the potential of young entrepreneurs who can sell their farmed produce, or open a catering business, or profit from hand-crafted retail, open an advertising company, or work on the IT needs of the Marines. The possibilities go on and on.

The island's leadership has been so embroiled in speculation and mistrust, that it has missed what really matters to the Guamanian people. Senators, I ask you, what are we preserving when thousands of families are drowning in debt and unhappiness? When families are forced to house three generations under one roof? When drug addiction and violence are on the rise? When cancer patients can't get the care they need?

The last time I checked, the Chamorro culture was one of innovation and imagination. It held at its core the happiness and prosperity of the people... people who help each other and welcome guests into their homes. It is precisely why, when the Marines say they want to come back to the island they liberated in 1944, I say, "Welcome, and hafa adai!"

Unfortunately, despite the signing of the Programmatic Agreement, the governor's voice wasn't the only one that went to Washington. No. The Marines have received some mixed signals from the very people in this room. The result? We now have a buildup that's been stalled by a federal budget predator who preyed on the perceived division within the government of Guam.

Senators, how do you expect the Defense Department to react when some alluded to Marines as rapists? Or when another told the descendants of our liberators to take their buildup somewhere else? You wanted me to empanel the Guam First Commission so this island could speak with one voice, yet fringe elements of this very body are the ones sending mixed signals to Washington. The rest of us are setting politics aside to welcome the Marines here. Senator Guthertz, Congresswoman Bordallo, and members of the Chamber of Commerce, I want to thank you for advocating for the building.

A few days ago, Senator Guthertz offered a compromise to the inorganic Guam First Commission law. Senator, after much thought, I will be issuing an executive order impaneling the Guam First Commission advisory body so that all communications with Washington are made with one voice.

Secretary Panetta and President Obama: We absolutely and without pause want the buildup and we welcome America's heroes to our shores. We will care for them in a Chamorro culture of respect and hospitality. And in keeping with our culture of reciprocity, I fully expect that the investments and promises made to Guam will yield the end of poverty for thousands of Guamanians looking for opportunity today.

But let's look deeper at how entwined this island is in the cycle of poverty. Many Guamanians who once looked for opportunity instead turned to a way out. The economic troubles of some mothers and fathers who lost so much is evident in the drug problem we have on this island. Let's not pretend it doesn't exist. There are Guamanians at this very hour who are intoxicated by the vapors of a drug that offers them a quick relief from their problems.

Whether it's ice, ecstasy, cocaine, spice or violent alcohol abuse, the soul of this island is being wasted in pipes and bottles that drive us deeper into poverty. And who gets hurt? Beaten spouses. Neglected children. Victims of assault, theft, burglary, car crashes, and murder.

As we work to provide opportunity for all, we are doing our part to help addicted Guamanians know that opportunity is for them, too... that their financial or spiritual poverty is not so great that they should allow the drug addiction to control their destiny. So, we got to work right away. Lt. Governor Tenorio ordered Customs to ratchet up their searches, and the Police Department to increase their investigations. The result, thanks also to our partnership with the U.S. Attorney and our federal partners, is a:

- 170 percent increase in ice confiscations,
- 48,800 percent increase in ecstasy confiscations,
- And an overall 500 percent increase in drugs kept from entering the island.

Customs kept 1,151 grams of ice off the streets and away from families and children. Imagine if that million dollars in crystal evil was injected into our neighborhoods. This island would have seen even greater poverty and crime.

We've also dealt with the effects of drugs and alcohol abuse. Guam police officers took 824 drunk and drugged drivers off our streets. They arrested 711 spouse beaters and child abusers and threw them in jail. Together with the Attorney General's Office, they apprehended 128 rapists and molesters, and they threw the book at them. Rightfully so.

I want to make special mention here of the island's public safety officers. First, to the man who has been the chief advocate for our heroes in uniform, Lt. Governor Ray Tenorio. The Lieutenant Governor is in my office almost every morning, and charging down the doors of the fiscal team every day, trying to improve the conditions for the men and women of GPD, Guam Fire, DOC, Customs and DYA. Many of you don't know what these men and women endure each day for all of us. True, we have a sense of gratitude that they leave their families each day never knowing if duty will summon them to their last stand. But what many of you don't know is that even after risking their lives, police officers have to personally buy tires for their police cars and change the tires themselves. They've been volunteering their time to provide those extra neighborhood patrols you've been seeing. The DUI and seatbelt checks? That wasn't overtime. That was a labor of love.

Over at Customs, those men and women didn't get to hire more people. Yet, they increased their productivity to record levels. The officers there don't complain when the supplies get low. They get creative and innovative.

At the fire department, the problem used to be that there weren't enough ambulances. Now that we have more, the problem is that there aren't enough medics. The situation is the same at the Department of Corrections and DYA. We just don't have enough public safety officers, and they

certainly don't have the equipment and supplies they need to do their jobs. The ones we do have, though, they've exhibited what it truly means to do more with less. That is the Calvo Tenorio way.

It is also the Adolpho Palacios way. I'd like to recognize my good friend and colleague here for everything he does to improve public safety. Senator, I ask you to work closely with Lt. Governor Tenorio on the public safety master plan he is putting together. The Lieutenant Governor, along with the chiefs of the safety agencies, are identifying cost-cutting measures, where the savings can be reinvested into a larger, more-prepared, and more-equipped force.

Where we have nearly no effect on crime prevention is in the immigration of adults who choose crime over opportunity. Let's not talk in circles about this problem. 26 percent of our prison is filled with inmates and detainees from the freely associated states. This is a major problem because FAS nationals account for only 11 percent of our population. What is driving this section of that population to criminal activity?

This is where I turn to the federal government for some long-awaited answers. In 2011, it cost the taxpayers of Guam \$6 million just to feed the FAS inmates and detainees at the Department of Corrections. In case you're wondering, that's the amount of Compact Impact funding used to finance the construction of the four new schools.

If I could, I would take up U.S. Senator Rick Santorum's offer. I will wholeheartedly welcome the judges of the Ninth Circuit Court of Appeals if he will take all our foreign criminals to the Pennsylvania Department of Corrections. Even if we bought all those judges a half-a-million-dollar home at Pago Bay, it would still cost less than feeding the criminals. That's a deal.

But the effects of the Compact on poverty in Guam does not stop with our justice system. Ladies and gentlemen, your senators and I prioritized \$8 million to the Guam Memorial Hospital last year, thanks to the advocacy of Sen. Dennis Rodriguez. We also prioritized \$13 million of your tax dollars to the Medically Indigent Program, and another \$731,000 to fund the community health centers at Public Health. Beyond the cash investments at the hospital, we brought the facility up to life safety code standards, we struggled with accreditation, we brought in more doctors, and we set the stage for hospital expansion. We even cut expenses at GMH as we made those extra improvements. I will tell you, that for every step forward we take with GMH, the federal compacts take us back a step and a half.

Earlier this month, my son had a serious health emergency. He could hardly move and his condition worsened by the minute. I took him to the emergency room. We got there around 11 p.m. He wasn't seen until 1 a.m. and he wasn't released until 5:30. It took that long to treat him because the emergency room was packed. He was treated on a gurney in the hallway. And that was a slow night, according to the nurse.

Before going any further, I want to personally thank the doctors and nurses who helped my son. They made a worried father feel better after caring for his sick son. God bless you and all the men and women of GMH for doing what you can to help the sick.

I've ordered the hospital to quickly move forward with severe cost reductions at GMH that are not critical to the core mission of the hospital. I've been assured the austerity plan will be implemented by the end of this quarter so GMH can hire the nurses and doctors they need.

I've directed GMH, the Fire Department, and Public Health to develop a tiered urgent to emergent medical care system. This will allow Public Health facilities in Dededo, Mangilao and Inarajan to establish Urgent Care Centers and receive non-emergency patients transported by ambulance. When an ambulance responds, our EMTs can determine the level of care needed and transport to a closer facility that can provide that care. This may result in a greater number of patients being taken to public health centers for treatment, potentially decreasing the case load of the Emergency Room at GMH. I've also instructed the Director of Public Health to start working toward extending the hours at the community health centers. These are small steps toward more accessible health care. But as we all know, it's the little things that really make the big difference.

As for mental healthcare and serving people living with disabilities, I could not be more disappointed with the federal government.

Many Guamanians struggle through emotional disturbances, psychological issues, physical disability and addiction. But the most interesting part of this story is that, unlike the problems at the hospital or public health, mental health has a lot of money. Yes, over the past two years, as people with disabilities have been struggling to get by, you taxpayers have given \$9 million to help solve the problems. Where has that money gone?

While the FMT is failing, students with learning disorders like ADHD are not getting the attention they deserve. Adults with disabilities are still fighting for civil rights and accessibility. And Guam's sons and daughters are coming back from war to face Post-traumatic Stress Disorder on their own. Some, sadly, took their lives, unable to cope.

Yet, it is the people of Guam who have done their part to pay for the improvements needed to help others in need. We were forced to pay this by a federal government that was upset with us for not meeting their mandates. The same federal government that loaded Mental Health and DISID with immigrant clients. The same federal government that sent Guam's sons and daughters to Iraq and Afghanistan, only to come home to a mental healthcare system in distress... pushed to the limit by the federal government's own actions. Perhaps Senator McCain can explain why Guam doesn't need a mental healthcare facility to help treat the very veterans whom Senator McCain sent to war over the last decade.

But the irony doesn't end there. The federal government has been burdening us for years, then taking us to court to fix the messes they started.

The federal compacts led to an unnatural demand on our services. We didn't have the funding to keep up with the demand. The U.S. government wasn't remitting its obligations to Guam so we could keep up with the population increase they caused. Instead, our services and infrastructure began stretching, and our capacity was breached. One by one, our systems began breaking under the weight of the compacts. School crowding in the north. Prison funding and conditions. Wastewater treatment. Capacity at the Ordot Dump. MIP funding that was no longer enough.

Then the consent decrees, the stipulated orders, the permanent injunctions, and the fines began. The federal government maxed our water and wastewater capacity through their compact, then sued us to make nearly \$500 million in improvements to accommodate their failures. The feds

maxed our dumping capacity at an Ordot Dump that they built, then sued us to close the place down and pay for a new site. They filled our prisons to the rim, then they told us to pay for the improvements.

Enough is enough.

How is it right that we are made to pay for more than three-quarters of a billion dollars in federal mandates when the federal government still owes us nearly the same amount in reimbursements for its obligation to us?

I have been anxious to announce that my team is exploring more aggressive avenues to hold the federal government accountable for the money it owes to Guam, based on the federal government's own written obligations. I look forward to working with Sen. Frank Blas, Congresswoman Bordallo, and the Attorney General on this agenda, which I will reveal in the months ahead. The poor of this island can no longer shoulder the burden of a federal system that seems not to care about the conditions they've left for Guamanians.

The extra irony in our dependent relationship is that we wouldn't need any of this assistance if the federal government stopped throwing its bureaucracy and mandates at us. I'm not just talking about the unfunded compacts. Our economy is so severely restricted at this moment by federal regulations that hinder growth.

Imagine how many more jobs Guamanians could have in tourism if airlines from Asia could stop on Guam before going to Los Angeles or New York. The Jones Act restricts this cabotage. Almost everything we buy, including gas, would be worlds cheaper if shipping lines weren't restricted either.

Imagine how much more income each of you would have if the federal government finally granted our visa waiver program with China.

It is insane for the federal government to levy the most liberal immigration policy in U.S. history on Guam... then throw peanuts to offset its impact... then strangle us with penalties and takeovers when our capacity is breached by the population increase... and in the very same breath prohibit us from building jobs and growing our economy with onerous regulations.

My message to the federal government has less to do with the financial assistance Guam has requested in the past. Rather, it is this: we can be more self-sufficient if the U.S. government allows us to grow.

My dear people, our Micronesia brothers and sisters did not cause poverty. For most of them, poverty was already upon them. And in their darkness, they saw a shining light to the west. As Guamanians, it is within us, despite our own poverty and struggles, to share our warmth, no matter what the federal government does to Guam.

You see, the Guamanian Dream is powerful. It is no wonder we are an island of immigrants. People from across the globe saw from their borders the bright and shining promise that is the Guamanian Dream. In Guam, you can work hard and earn a living. You can own a home. You can

be your own boss. You can compete against the best, and win. We, Guamanians from all walks of life, go about our business trying to make ends meet and build something great for our families.

And so the answer to poverty on Guam, beyond any other solution we proffered on affordable housing or job creation, beyond the redress of our grievances to a federal government that has acted without justice toward our people, is still within us. It is, my fellow Guamanians, within your children. They are the answer to our future. And they will find their destiny in the classrooms we provide them.

There is a glimmer of hope that two decades of stagnation in public education is now at a turning point. The board of education and DOE management have taken up our call to ramp up maintenance of the disrepaired schools. We forged a partnership that moved JFK out of the temporary campus in Tiyan and moved Untalan Middle in. I have asked for an updated capital improvements plan so the administration can begin developing creative finance strategies to build schools that parents can be proud to send their kids to. We've also asked for a district-wide assessment of student desks and other equipment and supplies the kids need to work and learn.

To this end I am announcing the creation of an executive-level task force that brings together the Governor's Office, GEDA and DOE to explore how we can finance the renovation and rebuilding of existing schools, and the construction of new ones. My chief education advisor will lead the group, soliciting from DOE their long-term capital improvement and equipment needs. I'd like this task force to work in concert with the board of education on every issue that affects the facilities and equipment needs of public schools. This is everything from the types of buildings and sports facilities... to the replacement of textbooks with laptops or iPads... even to the possibility of opening school campuses to the community after school hours and on the weekends. One of the financial solutions we will be pursuing is the EB5 visa program, which I will explain further down. I don't want public schools to simply be dumping grounds for children who will either learn or fall by the wayside. They must be centers of excellence, places of community engagement, and the foundations for a new economy.

To achieve excellence, it's also critical that Guam join the country's push to regain the competitive edge over students of other countries. In 2010, the Organization for Economic Co-operation and Development ranked U.S. students 14 out of 34 in reading skills, 17th in science, and 25th in math. Some of the nation's top experts, teachers and administrators designed a set of education standards for student achievement. States and territories began adopting these standards as uniform benchmarks of success so that we could all share best practices and know that students were being competitive to their global counterparts. This is not a federalized curriculum, but an international race to the top. The propensity for higher student achievement is so great, the top superintendents and school boards and the National Governors Association are encouraging every American community to join in this Common Core State Standards. I encourage the board of education to join suit, adopt the Common Core, and enter Guamanian students into the race to the head of the class.

The most basic principle I carry with me about public education is this: that every child can learn. That every child can succeed. If we do not believe this, then we may as well discard the future of our community to greater poverty and lawlessness.

I've seen this belief in the hard work, determination and passion of board members, DOE management, the principals, the teachers, and the parent-teacher organizations. They have tried desperately to change public education... to move and prioritize and maximize resources... to remove bad teachers from the classroom, and keep bad principals from governing a school... to really give students the education they deserve.

I want to recognize my remaining guests in tonight's report to you. I've invited the principals of your children's public schools to hear the education solutions I am providing. I'd like to ask them to stand and be recognized, for these men and women lead the schools that have been searching for answers from the government for decades.

They, my fellow Guamanians, like you and me, have in their hearts the foremost consideration for students. When they look at the \$209 million you've invested and budgeted for public schools, they look at every way that money can be used for your child. They even personally buy paper, chalk, notebooks and coloring pencils so that your child can learn and have a chance in this tough world.

My fellow Guamanians, fortunately, the people who care most about your children are the people who spend time with them from Monday to Friday every week in the classroom. Unfortunately, the people who care the most are not the ones in charge of public education decisions.

Senators, we have toyed with the governance of DOE for years. First the governor was supposedly in charge of it. Then the school board. Then the governor. Then back to the school board. Nothing's changed about who is really in charge of education, though. And it's not the school board or the superintendent, either. All the major decisions governing the budget, staffing and even the curriculum of public schools is vested in the union by virtue of the contract the government entered with the GFT five years ago.

Teachers, I have a real financial solution to increase your pay. The union has been talking about increasing your pay for years, but they want to do that by increasing the taxes you pay. Money out and money in. That is not a solution for your struggling families.

The solution I offer is real, but can only occur without the constraints of the union contract, which thankfully has expired. Because of that contract, DOE is paying millions of dollars a year for cleaning and supervision services. Why? Because the union forbids you from performing common-sense work that teachers across the country perform. Think about this. Over \$200 million in local funds go to DOE. There are 2,000 locally-funded teachers. If even 75 percent of that money went to pay teachers... and you do the math, that means the average teacher would be paid about \$75,000 a year. But they're not. The average teacher only gets \$46,000. The rest of that money is going to pay for union contract mandates. It is the union itself that has sapped millions from the budget that should have gone to your pay increases.

Now that the contract is out of the way, I'd like to make a deal directly with principals and teachers. If you take on the duties of cleaning your own classrooms with your students... supervise children in the hallways on a rotational basis... and make sure kids are safe in the cafeteria, the playground and on their arrival and departure from school... in return, your pay will increase

collectively by the amount saved within your budget. It will be funded by the reduction of expenses for janitorial and supervisory services that will no longer be needed.

But there's more to these solutions. We can put more teachers in the classrooms by eliminating unnecessary preparation periods for non-teacher duties, like being a department chair. This currently requires additional teacher hiring to fill the periods of a teacher who is given time off for non-teacher duties. The board of education should do away with this practice and, in exchange, pay teachers more to perform those duties. This will result in a net savings and reduce teacher recruitment needs.

Our students are smart and we have great faculty and administrators. However, we cannot ignore the fact that our overall achievement scores are low and unacceptable. How can we expect students, who are significantly behind the rest of the nation, to catch up if we're doing the same thing over and over each year? It is time we seriously consider increasing the hours of instruction in a school day, and the number of instructional days in the year. I will support the board in their efforts to challenge the low rankings at the core of the learning problem. We need only look at our Asian neighbors to know that their students, who score higher than U.S. students, are in school longer hours in the day, and more days in the week.

My fellow Guamanians, none of these are new ideas. Parents, teachers, principals and senators have been espousing these solutions for years. Dust off any of DOE's community-driven planning documents. You'll see how the people who care most about students were the ones most ready to change the system. But I go back to my original point: the people who care the most are the ones with the least power. The GFT contract left parents, teachers, principals, the superintendent and the board powerless.

I don't understand why teachers are forbidden from cleaning their own classrooms. Or why teachers can't keep an eye out on their students in the hallways. Or why a union tells the taxpayers of Guam how big a classroom should be.

I want to share with you, my dear people, a little secret that was conveniently kept from you by the union. The board of education took a lot of heat for the closure of F.Q. Sanchez. Sen. Rodriguez and I even publicly advocated for the school to remain open. What wasn't told to the public was that the ultimate decision to close the school hinged on the union. You see, F.Q. Sanchez, a school of 54 students, had a nurse making \$90,000, and four teachers who made a total of \$300,000 a year. The board said that if that high-paid nurse could be moved to an overcrowded school, and the teachers were switched out, then the school could remain open. The union never agreed, so it couldn't happen. Imagine that. The real decision makers on the closure of a public school were not the people you elected to public office, but a handful of power brokers.

Members of the board of education, it is my understanding that you are already being proactive and looking to implement a better contract. Change it and I will support you 100 percent of the way. Make it a contract that gives teachers the benefits they earned, and students the education they deserve. Make the cuts necessary and reinvest the savings into higher pay for public school teachers and more school supplies for students. We can stay within the \$200 million funding level and improve education by moving the funding into the classrooms. We can make a real difference by finally having a teacher evaluation policy that is tied to new standards adopted by the board and linked to student performance. Get rid of the current contract that only vests power in a

select few union bosses who care little to nothing for the future of Guam's children. Give the power over education back to those who care most about the students: the parents, the teachers, the principals, and the Department of Education.

Education is the single-greatest weapon against poverty. If we empower educators and parents once again, we can fix the soul of this island at its very depths. We can look at that boy at Sagan Linahan with hope for his future, rather than despair for his life. We can turn to the teenage girl who lost her dream years ago and tell her there is no dream too big for her.

Indeed, repairing the confidence in her dreams is a lesson for all Guamanians to ponder. At the very heart of these crossroads from which we must chart our course is a decision to walk meekly into the abyss, or to charge forward boldly and with confidence.

Beyond the improvement of services and the fight against poverty is a vision we must imagine together. It is a look through the dark corners, the empty buildings, the ramshackle homes, and the destitution of our present condition... and into the bright lights of bustling streets, the teeming parade of busy Guamanians, and into the prosperity of a people who triumphed over poverty.

What is your vision of the future? What kind of Guam will your children and grandchildren be living in? What does Guam look like in your heart, the Guam you've always dreamed about?

Don't limit yourself, either. Worry not about the improvement of government services that are already on the horizon. Think beyond the present condition and the poverty... even beyond the military buildup and the federal government.

As I looked through the plans for the development of Hagatna, our capital, I began to wonder 'what happened to our pride in Guam?' What happened to the greatness we all felt in our hearts for the home of the greatest people on the earth?

We are a great people, yet our capital is no reflection of your greatness. The library is just a concrete box. The streets are dark. The river is dingy and hardly any water runs through it. There is no reason for people to come to our capital, except to go to work and do a little shopping or dining. Hagatna offers no present-day reason for Guamanians to feel proud of their capital. All that is left is nostalgia and a memory of what once was.

The Hagatna of our past was the center of commerce, culture, and the proud seat of government. Naval officers, bishops and governors walked streets lined with homes and businesses. The Chamorro people traded with each other. Historic documents were received at Apra Harbor and taken straight to the Palacio. The night was teeming with dance and song, art and the humanities. The Cathedral was illuminated by candle light deepening our faith. This was once a proud city.

I am happy to report tonight that work has begun to make it a proud city once more... a citadel of providence, built in tribute to our heritage and for the fortune of Guamanians not yet born.

Senators, as I promised you last year, the restoration of the historic legislative hall is scheduled to begin very shortly. An RFP was just yesterday issued to begin the rebuilding of the

Plaza de Espana. And with your permission, it is my plan to raze the Department of Administration building and the Hagatna lockup facility across the street, close that road, and rebuild the Palacio.

The plans are more extensive than just that. According to the Hagatna Master Plan, we will be seeking a new land use zoning. This will reconfigure the capital to be a real city that flows from north to south, east to west with Spanish-style architecture... roads, walkways, trails and bikepaths that encourage exercise and the appreciation for scenic vistas... fountains and gardens for students to study, lawyers to work, government officials to meet, visitors to lavish... a library and museum we can be proud of, and a river walk that takes Guamanians through the most historic sites of our island.

The Plaza de Espana will be returned to its former glory, and the Governor's Office will move back to its centuries-old home, now 68 years since it was destroyed. Skinner Plaza will be lined by cafes and shops, with lofts above for Guamanians who want to live in Hagatna. Vice Speaker Cruz, I very much like your idea of moving the museum to the heart of Hagatna, where it belongs. I have ordered the program managers to reconfigure the plans. Thank you for your partnership in rebuilding Hagatna.

Monuments to our culture will stand where your children and grandchildren will sing, dance, and listen to our culture... and where they will read and write about the arts and humanities. The suffering sounds of our lives today will be but a whisper drowned by the excitement of a new Guam, built by the hands of proud Guamanians.

I also want to thank Sen. Mana Silva Taijeron for pushing this development and for her strong commitment to reviving the heritage of our island.

The next phase of this vision is for the rezoning of the city. After that, the major construction will start. We intend to build the capital, just as we intend to build new schools, using funding we can entice through the EB-5 visa program, among other finance strategies. The concept is simple and proven... and Guam is in the perfect position to use it.

Foreign nationals have incentives from the State Department to enter a U.S. city and invest their capital. My Council of Economic Advisors already is pursuing this avenue. We are the closest U.S. community to the one region of the world with capital to invest: Asia. Ladies and gentlemen, what once was a lofty dream is now an attainable reality.

But this is just one part of our vision. I've asked you to imagine Hagatna, now I ask you to imagine Guam.

Two years ago I proposed to the legislature a new concept for Guam. I had some help from an educator and a visionary who believes so deeply in the future of Guam – Senator Aline Yamashita. We called it, "Classrooms to Careers." Put simply, it is the building of a long-term economic development strategy that has, at its heart, an education system that produces the career workforce and entrepreneurs to build the economy. What we proposed to do was bring the community together to create a vision for Guam that would build a new economy, and prepare our children to build it. What they would build is an island we have never seen before... one we can only imagine.

Now, our government has existed for 62 years. In this time, we've been growing, maturing... building foundations and developing this community. What has been missing throughout this time was a strategy that envisioned the Guam of the future *and* implemented an education system to get us there.

As I thought about this, I remembered the days when my father had spirited debates with Governor Bordallo. The two visionary men sat across from each other to discuss a Guam they each imagined. Four decades ago, my father envisioned a community we are fighting to build today. He said, "The people in Washington have to be made to realize that they should either expect us to continue asking for handouts or allow us to do the things that will help make us self-sufficient." And two decades before the pullout at Subic, and nearly four decades before Washington and Japan announced the military buildup, like an oracle he said, "It's costing the U.S. \$500 million a year to maintain its bases in the Philippines. Why should the military be where it isn't wanted when it can be on U.S. soil in Guam for free?"

Four decades ago, who could have imagined the prospects of a military buildup? Or, through those spectacles, who saw the Guam that Governor Bordallo imagined? Beyond the roads, the schools and the affordable homes, who saw the vision of prosperous Guamanians the way Ricky Bordallo saw them?

The critics, of course, they scoffed. They said Carlos Camacho was out of his mind for thinking that Japanese tourists would vacation on Guam. They said Ricky Bordallo wanted to build all these roads that no one would drive on, and all these schools that we couldn't afford. And the critics said the military would never pull out of Subic, much less build up on Guam. Dreamers. The critics laughed at these men and called them dreamers. Thankfully, they kept dreaming and they went to work to see those dreams come true.

On this night, thousands of years after the ancient Chamorros built it, where does our proa sail? In the dark waters that connect continents in turmoil and pain, under the lunar light and the stars, what path do we give the flying proa?

It is not enough to repair what is broken. It is insufficient to improve services, or to simply win the fight against poverty and crime. We have to give our children and grandchildren much more than that.

For some reason, we have questioned our strength and our place in this world. We've looked to others to help us build a future they can make for us. We've lacked confidence in what we can do. So we set the proa to roam without any coordinates. We allowed it to chart the oceans for pirates and carpetbaggers to navigate.

From what I know of the Guamanian people, we are not drifters, nor are we afraid to shine. It is time for this government to see the spark beneath the hearts of every Guamanian. It is time for us to chart our own course with courage and confidence.

After decades of searching elsewhere for the answers, it is time we realize that the answers are within us. Tonight, the proa comes back home.

Last December I began a partnership with Dr. Robert Underwood, and we formed a small steering committee of my advisors, academic professionals, young entrepreneurs and senators. We gave them a charge. We took the Classrooms to Careers program and more appropriately named it, IMAGINE Guam.

It's all about planning. It's about knowing what we want in the future, and building it through homegrown talent... Guamanians, your children, who want to work and who want to own their jobs. This is about a future that they can build for themselves, but that can only happen if we set the vision now and give them the education to get there.

We will be bringing the most innovative thinkers from every corner of our economy and community together over the next few months. Joining us will be experts in government, business development and technology from the region and the world. Together, limited only by the steadfast values of our culture, we will build an economic and community forecast of Guam that takes us into the middle of this century. Our success in tourism and the certainty of Armed Forces buildup in Guam and the Pacific will give us a clearer picture of the possibilities. While these are anchoring components of our economy, I want us to think well beyond that. It is not enough for us to have tourism and the military buildup control our economy. We must be the ones guiding how this growth can simply provide forward momentum on a fly wheel we can steer together... because, my dear people, the possibilities are so much greater. Imagine it.

What do you see when you think of Guam 20, 40, 50 years from now? Is it the same place, or have we overcome our poverty? Will you be paying your power bill to GPA, or will your home harness electricity from the sun through solar panels on your roof? Will there be more cars on the road, or will we have mass transit freeways? Will we build more concrete boxes and invade more green space, or will we live and work in towers surrounded by parks and fountains? What industries will drive our economy, and who will drive these industries?

Each of you has an idea, something to contribute. Collectively, we can imagine Guam far into the future, and then start building our way toward that vision. That is exactly what I will be asking of you in the months ahead.

To start this process, in the coming days, I will be bringing together the program managers of every master plan currently in place in the government. It makes no sense that these plans move forward without any connection to the other. Every plan from the GPA and GWA master plans to Port Modernization to Transportation 2030 will be overlaid. From here, we can determine where certain projects stymie the progress of others, and where there are duplications. We can also see where there are gaps.

This activity will give us an illustration of what our island will look like once all these projects are done. We'll know where all the potential for infrastructure is. We'll be able to see the chokepoints and sense the investment opportunities.

Once that is done, we will have an honest assessment of the Guam we've envisioned already for the next 10 to 15 years. But that's just a physical assessment.

I want to know from you what you've always imagined Guam to be. The IMAGINE Guam project is premised upon the collective imagination of Guamanians. What are the values that we

hold dear? Entitlement is a new phenomenon in our society, but will we allow it to continue? What will tourism look like? What can we get out of this military buildup? How strong can our other industries be? What new industries can Guamanians build? What kind of health system will we have, and how do we keep crime low? What new infrastructure, beyond all the plans we have now, do we need to sustain the new economy?

As these questions are answered and the vision becomes more clear, the elected leadership will need to take a good look at all the laws on the books. Based on the community's vision, we will throw away old mandates and restructure government so that it works for this vision.

At the end of this first part of IMAGINE Guam will be the strategy for a Guam we have never seen before. The illustration will be inspiring. As I imagine it, Guam will be the commercial treasure between east and west. She will be the economic capital of this region. Her economy will be teeming with new industries, fueled by green energy and more technology made right here at home. Within her shores will be storefront and corporate signs that bare the names of your children. But, that's just what's in my imagination. It could be much stronger with yours as well.

The single most important question that will be answered by this process is this: How will we build the Guam of our collective imagination?

It is a simple answer that takes a very large investment. It is an investment I am willing to make, and that I am sure Guamanians are willing to make as well. The Japanese did it. So did the Koreans, the Singaporeans, and the Taiwanese.

They took their economic visions and poured their investments into the development of human capital. Our Asian neighbors mapped out their economy, then they invested into education systems that produced workers and entrepreneurs who would build these communities.

Education is the answer.

This is what we need at this very point in our development. Parents throughout this island need hope that there is a future for their children. They want doors to open for their kids... and on the other side of those doors, there has to be opportunity that they are prepared to seize. We need the children in today's classrooms to drive the economy and community of the future.

Through the IMAGINE Guam plan, we will develop a vision of Guam as a community, then develop and sustain an education system that will implement the vision. Education is the key to the success of this vision. Our entire focus should be on the output of classrooms. The goal for every child in both public and private schools must be that every child leaves high school prepared for college and prepared for work. Collectively, that is a strong workforce that will build the new industries and strengthen the existing ones. It is a bold concept, but one that has worked for the only region of the world that is growing at this moment. It will take a true investment in education, not the year-to-year increase in education budgets we have now... but, a real investment into classrooms and curricula that will make the difference for the next generation of Guamanians in classrooms right now.

Some of you may find it hard to believe that I am now, through all of our present troubles, challenging Guam to dream this big... to compete against the biggest economies and the smartest

children of the globe. I ask you, do you honestly believe the low test scores of today's Guamanian students is the result of their inability to achieve, or of our failure to guide them? Answer honestly. At the heart of that answer is your personal belief that either young Guamanians are stupid or that our generation has been failing them. I happen to believe that the children of Guam are smart, and they are yearning to burst into the world brighter and more prepared than anyone else to lead the future. From the poor boy at Sagan Linahyan to the teenager living with disabilities... from the daughter of impoverished farmers to the son of immigrants to the orphan who has not known love in years... every child on this island is destined to break free from what has been holding us back. What they need is our guiding hand and our confidence. They need our vision and our commitment to educate them into that future.

When I think about the future and I imagine what Guam will be, I am always tempted to think of the children I've met on my tours of schools like J.Q. San Miguel, Merizo Martyrs and Machanaonao Elementary. Twenty years from now, I see their faces at the head of board rooms at the top floor of scenic Hagatna towers they built. I see them competing with banks in Tokyo and with investors on Wall Street. Thirty years from now they are producing technology that the folks in Silicon Valley purchase. Fifty years from now, their children's names are on the patents of inventions millions of people around the world use. They will be healthy and safe. They will be immersed so deeply in the arts and humanities, so that in every corner of every village of Guam is the song of the great and prosperous Guamanian, ever so confident to charge into whatever future they can imagine.

It starts with us. It's about having that courage and confidence in ourselves again.

Last year I went to Beijing to bring money and job opportunities back to Guam. The National Governors Association had me stay at the Shangri-la, which is the tallest and most prestigious building in China's capital. In the hotel, a young man came up to me and introduced himself.

He was the *chef de cuisine*, the executive chef of the most prestigious hotel in all of China. And he said his name is Ryan Sablan Dadufalza, *familian Chode*, a proud Guamanian of Chamorro and Filipino ancestry.

I thought, 'wow,' of the billions of Chinese and the millions of Americans, here was a Guamanian in charge of the restaurant staff of the fanciest plaza in the largest country of the world. He didn't think he'd ever make it this far in life, but he tried. He had a dream, and the confidence to see that dream come true.

I also have a personal story about confidence and courage.

About 26 years ago, I walked into the record department at Town House, and I saw the most beautiful woman I've ever seen. I didn't think I stood a chance. Our eyes met and I wondered for the next two months whether she saw anything in me.

After those two months I was with my friend, Tony, at the Captain's Table... and there she was, singing in the band. I asked Tony, "Who's that beautiful girl with the thick black hair and the big brown eyes?" and he said he knew her. I said, "Dude, introduce me!"

I didn't think he'd actually do it. He brought me up to her after the set and I didn't know what to do. My palms started sweating, and I was shaking, and I really didn't want to be rejected.

At the final seconds of our encounter, I gathered up all my courage and confidence, and I asked her for a dance. She said yes, and 26 years later, we just welcomed our first grandchild into this world.

If I didn't muster up the courage, and have that confidence 26 years ago... then my great love would have slipped away... and I'd be a shadow of the man I am today.

All of us have our own personal stories of confidence when fate met love. All together, as Guamanians, our great love is Guam. We must all be confident and courageous... take her hand and build a future together. There will be some pitfalls along the way, but it will be a journey filled with strength and prosperity... pride and hard work to give our children something greater than we ever had. Have confidence and imagine the possibilities.

Why not? Who said we are so defined by our present troubles that we have no right to imagine the Guam we all see in our minds and in our hearts? Who among us is not filled with an unexplainable pride when we put our hands to our hearts to sing out loud, "Fanhogge Chamorro!" "Stand ye Guamanians!" Who among us does not capture in her mind the beauty of Guam we imagine for our children? Who among us does not ignite the light in his beating heart for an island that shines with possibilities we never had? Join me. Stand up with courage and confidence and fight for that future for all of our children! Let us be that generation that gave them everything from nothing! Join me to build the Guam, where every sunrise is more golden than the one before. If we allow that light to shine, then this island will glow brighter than any star in the sky, sparkling with the confidence of the great and proud Guamanian people.

Thank you, *Si Yu'us Ma'ase, Maraming Salamat Po*, and good night.
