

PACIFIC ISLAND APPLIED GEOSCIENCE COMMISSION

**SUSTAINABLE LAND MANAGEMENT WORKSHOP (FOR COUNTRIES
PARTICIPATING IN THE SPREP-EXECUTED SLM PORTFOLIO
PROJECT FOR LDCS/SIDS)
TANOA HOTEL, NADI, FIJI**

1-4 October 2007

Paula Holland, Netatua Pelesikoti and James Dalton
Oceans and Islands, Community Risk and Community Lifelines Programmes

SOPAC Trip Report 431

BACKGROUND

Land degradation undermines the integrity, stability and services of ecosystems. Countries that are party to the United Nations Convention to Combat Desertification have an obligation to prepare National Action Plans to implement the provisions of the Convention. In support of this, SPREP, in collaboration with UNDP, is about to execute a regional GEF-funded Sustainable Land Management Project (SLM Project). This meeting follows the completion and submission by PICs of the national-level proposals to the GEF for inclusion in the project. Broadly speaking the meeting was intended to begin to prepare PICs to execute their projects. (It was confirmed in the meeting that 12 of the 14 PICs had achieved GEF Secretariat approval to proceed whereas two only are needed to make minor revisions.) The following SOPAC staff attended the meeting:

Netatua Pelesikoti	attended to raise the awareness of the SLM workshop participants and resource people of the DRM national action plan development process and its linkages to national actions on UNCCD and SLM.
Paula Holland	attended as the SOPAC representative on the CROP Land Resources Working Group (LRWG). The LRWG met several times during the meeting to prepare for and coordinate backstopping requirements for the SLM Project.
James Dalton	attended to coordinate activities between the SLM country projects and the GEF Integrated Water Resource Management (IWRM) Project currently under design.

Objective and Workshop Outcomes

The stated objective in the workshop was to prepare countries for the implementation of the GEF-SLM medium-sized project. The expected outcomes were to:

- identify and prepare for the challenges that will be faced during the implementation of the project.
- identify ways to progress and complete the national action plans.

- raise awareness on how a Medium-Term Investment Plan and Resource Mobilisation Strategy could be developed.
- familiarise with the use of the Environmental Economics Tool Kit.
- identify an approach for developing a Sub-Regional Action Plan (SRAP) and potential themes.
- identify support roles for the members of the Land Resources Working Groups.

Details of participants at the meeting are given in Annex 1. The provisional timetable for the workshop is provided at Annex 2. Details of the SPREP-executed SLM Project are available on the SPREP website and the UNDP Global Support Unit (GSU) web site. A CD of presentations and documents presented at the meeting is available from the Secretariat on request.

Issues raised

There is considerable complementarity between some of the national work proposed under the SLM Project and various existing projects already underway within SOPAC, particularly:

- the IWRM project under design;
- the EU water project;
- the HYCOS Project;
- the Water Demand Management Project;
- Disaster Risk Reduction and Disaster Management national action plan development process; and
- the EDF 8 and 9 KRA 3 on implementing comprehensive hazard and risk management tools.

James Dalton gave a short presentation on the projects underway highlighting possible links with the SLM country projects. Netatua Pelesikoti gave a presentation on the DRM Regional Framework and the current process of developing DRM national action plans. Countries were invited to identify outcomes, outputs and activities that are common with their projects to ensure alignment of activities and to achieve more efficient use of resources.

There is also complementarity between work planned under the SPREP SLM Project and the expertise/services more generally available from SOPAC (eg., the use of GIS for land planning, planning to execute NAPs economic skills etc.). To identify backstopping needs and coordinate CROP agency responses, the CROP Land Resources Working Group met several times during the meeting. Separate minutes of those meetings are currently being finalised by SPC and will be distributed to LRWG members soon. Paula will distribute these to SOPAC staff then. However, key issues are that:

- The LRWG is to agree a strategy to determine how to allocate backstopping activities across CROP agencies in relation to comparative advantage and availability. Once a strategy is agreed, a document to describe this strategy is to be prepared and circulated for consideration.
- A matrix of support needs for countries participating in the SLM Project was prepared (eg., training in GIS, help with project reporting etc.). Each agency in the LRWG ticked where they had comparative advantage. A combined matrix will eventually be passed to the SLM countries in order to identify places to ask for help. Paula will distribute this to programme managers for their input. **(done)**
- Neta, shared with the LRWG the Partners' Capability matrix prepared by CRP on behalf of the Disaster Risk Management Partnership Network. A similar matrix could be prepared for the LRWG members in consultation with other CROP agencies on the services that CROP agencies can provide to PICs in doing work generally. The matrix, once finalised, would probably be useful for all countries and CROP agencies to use when preparing and coordinating activities.

- Neta will join Paula in representing SOPAC on the LRWG to ensure that all sustainability issues for SOPAC are covered.

A request was made during the meeting for training both in the use of economics to analyse and or address SLM problems and in the use of the project cycle to manage in-country activities. Discussions on conducting training in both of these areas has already been held in relation to the SOPAC IWRM project. It appears that UNDP provides project cycle and project management training so SOPAC may be able to tap into this for the IWRM Project. The IWRM Project could perhaps collaborate with the SLM Project in resource economics training, if suitable. However, with the proposed closure of the UNDP Global Support Unit (GSU) in March 2008, countries will have less regional support for project activities. One way to support them could be through links to the IWRM Project – especially where demonstration project sites and activities overlap. At the national level, the EU IWRM Planning Programme may be able to provide some assistance, from an IWRM perspective, in supporting the development of Sustainable Land Use practices as part of the wider IWRM planning processes. Follow-up links have been made with the SLM contact points, copied to the IWRM Project Focal Points. SLM Project representatives will be invited to the IWRM 3rd Steering Committee meeting to be held in Suva, 5-8th November.

Niue shared some experiences from the inception of its SLM project (e.g. challenges included the lack of continuity between staff designing projects and staff executing them etc.) that may be useful when considering the IWRM Project.

A highly technical presentation was given by the UNDP Global Support Unit (GSU) on the use of economics to support SLM. The presentation was not pitched at a level that was understandable or relevant to most countries. There was consequently a request from the floor for examples of where economic tools had relevance to PICs. Paula provided to SPREP a digital copy of last year's STAR paper on economic tools for natural resource management so that it can be included on the workshop CD.

Andrea Volentras (UNDP Samoa) gave a presentation on GEF funding issues of the future. The presentation was a bit confusing so we may have missed some of this. However, Andrea did encourage countries to build into their SLM projects activities in preparation for GEF5.

Hans Eschweiler stated that the GEF is apparently developing guidelines for investment plans for GEF projects (related to SLM) as well as guidelines for SLM generally. We should get a hold of these for future projects.

Sub-regional/Regional Action Programme

On the last day of the workshop, the opportunity to develop a sub-regional/regional action programme (SRAP) under the umbrella of the UNCCD was discussed. A representative of the UNCCD Asia Regional Coordination Unit presented on provisions of the Convention that call for the development of SRAP to support the implementation of the UNCCD and to support national implementation of the convention.

He pointed out that several SRAP had been developed for the Asia, Middle East and African continents. The objective for a sub-regional and or regional programme is to prepare and implement sub-regional or joint action programmes, as appropriate, in order to complement and increase effectiveness in the implementation of national action programmes.

The workshop participants recommended that the Land Resources Working Group in consultation with the UNCCD Secretariat and the Pacific countries is to consider appropriate approaches to develop a sub-regional or regional action programme.

ANNEX 1

List of participants

*Pacific Regional Workshop: UNDP- GEF's Sustainable Land Management Portfolio Project,
UNCCD – Land Degradation National Action Plans (NAPs)
Tanoa International Hotel, Nadi-Fiji
1st – 4th October, 2007*

COOK ISLANDS

Mr William J. Wigmore
Director of Research
Ministry of Agriculture,
PO Box 96
Rarotonga
Cook Islands
Tel: +682 25 403
Fax: +682 21 887
E-mail: research@oyster.net.ck

Ms. Heimata Louisa Karika
NCSA Project Coordinator/ Environment Officer
National Environment Service
PO Box 371
Rarotonga
Cook Islands
Ph: +682 21256
Fax: +682 22256
Email: louisa@environment.org.ck

Provisional Timetable

GSU/SPREP/SPC/UNDP/UNDP-GEF

Preliminary Workshop Programme – Pacific Regional Workshop: UNDP-GEF's Sustainable Land Management Portfolio Project, UNCCD – Land Degradation National Action Plans (NAPs)

1st-4th October 2007, Tanoa International Hotel, Nadi, Fiji

Day 1			
Monday, 01 October 07			
Time	Activity	Detail	Facilitator: SPREP/SPC Rapporteur: SPREP/SPC Presenters
	Registration, Welcome and Introductions		
8:00	Registration		
9:00	Welcoming address	SPREP/SPC	
9:10	Opening statement	UNDP Global Support Unit (GSU)	Hans Eschweiler
9:20	Opening Statement	SPREP/SPC	
9:30	Photo session	SPREP/SPC	SPREP/SPC photographer
9:30	Tea/Coffee Break		
10:00	Presentation of workshop objectives and expected outcomes Adoption of agenda	SPREP/SPC	Frank Wickham/Inoke Ratukalou
10:15		SPREP/SPC	Frank Wickham/Inoke Ratukalou
10:20	Overview of the GEF LD focal area and portfolio The SLM Portfolio Project for LDC/SIDS; update	UNDP/RCU	Andrea Volentras
		UNDP-GSU	Hans Eschweiler
10:45	SLM MSP: status, bottlenecks and implementation priority Issues – country presentations	Country representatives (PPT presentations - max. 5 min. per country)	Frank Wickham
	<i>Purpose of Session:</i> <ul style="list-style-type: none"> To gain an initial overview of prevailing issues that countries have in common To identify challenges in project inception and implementation To identify issues for discussion at a later stage during the workshop 		
12:30	Lunch		

13:30	LD Linkages with other Priority Environmental Issues, and Programmatic Linkages	Country reps.	Inoke Ratukalou
	<i>Purpose:</i> <ul style="list-style-type: none"> Mixed teams to discuss the presentation results; compare similarities of priority issues and formulate some initial ideas how to take these forward Presentation of group-work results Plenary discussion 		
15:00	Tea/Coffee Break		
15:15	Challenges and experiences with mainstreaming sustainable development principles into national planning and monitoring processes and opportunities in the SLM Project.	SPREP	Frank Wickham
16:30	Adaptation, Carbon Financing, NCSA and other related UNDP/GEF initiatives	UNDP/RCU	Andrea Volentras
17:00	Close		
18:00	Reception		
Day 2	Tuesday, 02 Oct 2007		
Time	Activity	Detail	Facilitator: From Countries Rapporteur: SPREP/SPC Presenter
	Environmental Economics		
8:00	Practical training in the application of the Environmental Economics Tool Kit	GSU Consultant	Lars Hein
10:30	Tea/Coffee Break		
10:45	Cont'd		
12:30	Lunch		
13:30	Use and role of indicators in SLM – challenges and opportunities.	LRWG	LRWG members
15:00	Tea/Coffee Break		
15:15	Experiences with Inception of the SLM workshop and lessons	Niue	Frank Wickham
16:00	Progress of NAPs in the Pacific	Country delegates SPREP	Yang Youlin
17:00	Close		

Day 3			
Wednesday, 03 Oct 2007			
Time	Activity	Detail	Facilitator: SPREP/SPC Rapporteur: SPREP/SPC Presenter
8:00	SLM Financing/Alternative Financing Mechanisms Guidelines for the development of Medium-Term-Investment Plans that follow-on to NAPs and address SLM	GSU Consultant	
10:30	Tea/Coffee Break		
10:45	Capacity Development for and Mainstreaming SLM	GSU consultants	
12:30	Lunch		
13:30	Country needs in terms of technical backstopping Conversion of project proposal to project document (pre-implementation: administrative and financial procedures)	Country delegates	Hans Eschweiller
15:00	Tea/Coffee Break		
15:30 16:00	Opportunities for support by the LRWG Members towards implementation of the SLM MSP by countries.	LRWG	Frank Wickham/Inoke Ratukalou
17:00	End of Day 3		
Day 4			
Thursday, 04 Oct 2007			
Time	Activity	Detail	Facilitator: SPREP/SPC Rapporteur: SPREP/SPC Presenter
8:30	Women, gender and land resources management	Elsie Huffer and team	Frank Wickham
10:30	Tea/Coffee Break		
11:00	Guidelines for the development of the SRAP	Yang Youlin	Inoke Ratukalou
12:00	Potential themes for the Pacific SRAP	Country delegates Group discussions and presentations	Yang Yaoulin/Inoke Ratukalou/Frank Wickham
12:30	Lunch		
1:30	Potential themes for the Pacific SRAP	Country delegates Group discussions and presentations	Yang Yaoulin/Inoke Ratukalou/Frank Wickham
2:30	Support by the LRWG for the development of the SRAP	LRWG	Frank Wickham/Inoke Ratukalou
15:30	Tea/Coffee Break		
14:00 16:30	Wrap up, way forward and, Official closure	SPREP/SPC	Frank Wickham/Inoke Ratukalou Hans Eschweiler,
17:00	End of Workshop
