\* These figures represent associated travel cost of the NA + RA. They are made up of Project Staff travel costs (flights, boat travel and visas/departure tax) within NA and RA activities.

### C. Statement of Expenditure by Country (EUR)

1 July 2016 - 29 February 2020 (Implementation Period), plus completion period commitments (1 March - 31 August 2020)

Country	Total expenditure	% total expenditure
National-level Implementation		
Cook Islands	574,348	3%
Federated States of Micronesia (FSM)	1,403,128	7%
Fiji	1,544,757	8%
Kiribati	605,629	3%
Nauru	199,101	1%
Niue	926,780	5%
Palau	659,259	3%
Papua New Gunewa (PNG)	1,031,396	5%
Republic of Marshall Islands (RMI)	559,844	3%
Samoa	1,385,132	7%
Solomon Islands	840,508	4%
Timor Leste	1,184,962	6%
Tonga	1,119,260	6%
Tuvalu	587,876	3%
Vanuatu	1,438,825	8%
	14,060,805	74%
Regional-level implementation		
	1,141,416	6%
Communications & Visibility		
	283,887	1%
Total implementation expenditure	15,486,108	81%
Total PMU	2,336,074	12%
Total direct expenditures	17,822,182	94%
Indirect costs - 7% of EU funded expenses only	1,233,588	6%
TOTAL EXPENDITURE	19,055,771	100%

### D. Budget notes

- 1. The financial report represents the financial operations of the Project, "ACP EU Building Safety and Resilience in the Pacific" for the period 1 October 2018 to 29 February 2020. The accounting records of the Project have been kept in accordance with the SPC financial policies and procedures. The financial report has been prepared on the modified cash basis of accounting and in compliance with the European Union Contribution Agreement Contract No. FED/2013/327-152 signed on 6 September 2013, the Addendum No. 1 to the European Union Contribution Agreement signed on 7 February 2017, the Addendum No. 2 to the European Union Contribution Agreement signed on 3 December 2018 and the Addendum No. 3 to the European Union Contribution Agreement signed on 5 May 2020.
- 2. Commitments for the closure period (1 March to 31 August 2020) are subject to FOREX variances, and therefore the final tranche payment to be claimed from the EU may vary slightly from what is indicated.
- 3. Income is recognised at the time of receipt of funds. Expenditure is recognised when incurred.
- 4. The overall budget allocations presented are as per the revised budget approved by the EU in 2020.
- 5. The reporting currency for the Project is in Euro. The Project maintains a EUR bank account and a FJD bank account. Prior to 2017, funds received in the EUR bank account were recorded in FJD at the day's rate in SPC's books. The transactions were converted back to Euro at the end of the financial year at the weighted average rate at which funds had been received. Effective 1 January 2017, all records are directly translated into EUR using the rate on the transaction date.
- 6. The Pacific Community is exempt from income tax.
- 7. Indirect cost is set at an approved percentage of 7% of total direct cost incurred. 7% has been applied on direct expenditure relating to EU funds only. Direct expenditure incurred from GIZ funds have been excluded.
- 8. Tagging for EU budget codes was reviewed for the period prior to September 2018 during an additional "tagging by activity" exercise. Inconsistent/incorrect tagging was identified and has been rectified. This resulted in some shifts within budget codes/lines from previously audited periods.

## ANNEX 2 ACTIVITIES IMPLEMENTED BY COUNTRY

I II II

### Introduction

Throughout the project, activity re-prioritisation occurred in response to country requests, often following a natural disaster or other similar event.

Of the nearly 400 activities identified throughout the life of the project, 334 were implemented. For readability and analysis purposes, these have been consolidated below into 249 activity lines taking into account where activities were able to share costs for efficiency purposes, combining small activities of a similar nature and those that formed defined steps towards a larger deliverable.

This list has been organised by country. However, where activities were delivered regionally or sub-regionally, these have divided into two categories: regional activities for primarily regional-level benefit, and multi-country activities that deliver primarily national-level benefit.

	Regional														
Theme	Activity	Short Activity Description	BSRP Funding (plus SPC TA)	Partners/ Key contractors	Country	KRA	Status	2013	2014	2015	2016	2017	2018	2019	2020
planning	Framework for Resilient Development in the Pacific (FDRP)	Working with other agencies to support the development of a Framework that integrates climate change adaptation (CCA) and disaster risk management (DRM)	163,327	SPC Geosciences Divi- sion (GSD), Pacific Island Forum Secretariat (PIFS), University of the South Pacific (USP), Secretariat of the Pacific Regional Environmental Programme (SPREP), United Nations Office for DRR (UNISDR), United Nations Develop- ment Programme (UNDP)	Regional	2,5	Complete								
and	Pacific Island Emergency Management Alliance (PIEMA) Strategic Agenda 2020	Development, printing and implementation of the PIEMA Strategic Agenda 2020	144,300	Botson Pty Ltd	Regional	1, 2, 5	Complete								
Strategy	Regional Steering Committee (RSC) meetings	Delivery of annual RSC meetings	249,200		Regional	2, 3, 5	Complete								
51	Monitoring, evaluation and transition activities	Monitoring and targeted evaluation of BSRP activities, including action research to inform transition to European Development Fund (EDF) 11	293,629	EU, Finnish Consulting Group New Zealand (FCG ANZDEC), katpatNZ Ltd	Regional	2, 4, 5	Complete								

	Pacific Resilience Week	Support for annual regional Pacific Resilience Week activities	16,017	SPREP, Pacific Humnitar- ian Team (PHT), UNISDR, United Natios Office of Humanitarian Affairs (UNOCHA), Australian De- partment of Foreign Affairs and Trade (DFAT), PIFS	Regional	3	Complete				
	Competency Framework potential assessment	Map out a process to develop tools that support the implementation of the competency frame- work. Map out a process (and possibly begin) to assess the existing SPC training against relevant competencies in Australia and New Zealand.	6,173	Botson Pty Ltd	Regional	2, 3	Partially complete				
)	Compendium of climate change and DRM	Research, compile and publish a compendium of CCA and DRM case studies.	1,301	SPC GSD, PIFS, USP, SPREP, UNISDR, UNDP	Regional	3	Complete				
	BSRP website and videos	Project website and videos that not only give visibility to the project, but provide DRM/CCA information/education	51,538	SPC Pacific Way, First Fight- er Films, R.Vulawalu	Regional	3	Complete				
	PMU staff training	Incident management Training delivered to SPC staff involved in the delivery of BSRP - Introduc- tion to Australasian Inter-Service Incident Man- agement System (AIIMS) 4, First Aid training	3,911	AFAC	Regional	3	Complete				

	Multi-country														
Theme	Activity	Short Activity Description	BSRP Funding (plus SPC TA)	Partners/Key contractors	Country	KRA	Status	2013	2014	2015	2016	2017	2018	2019	2020
PIEMA	PIEMA - Twinning partnerships	Facilitate the establishment of twinning partnerships between Pacific Island Countries (PICs) and NZ/Australian agencies	30,067	Australasian Fire and Emergency Service Authorities Council (AFAC), Pacific Islands Fire and Emergency Services Association (PIFESA)	All PICs on 1-on-1 basis	1, 3, 5	Complete								
	PIEMA - Transportation of ambulance equipment	Facilitate donation and fund transport of ambulance equipment by PIEMA	4,925	Queensland Ambulance Service, National Disaster Management Offices (NDMOs), Ministry of Health/Fire as appropriate	Fiji, Kiribati, Samoa, Niue, Nauru, Vanuatu	1	Complete								
	Technical and procurement advice to and capacity building within NDMOs	Technical DRM/CCA and procurement advice and capacity building within NDMOs. Includes support to finalise country implementation plans	1,142,833		All PICs on 1-on-1 basis	2, 5	Complete								
S	National/regional communications/ visibility support	Work with each country to develop communications and visibility plans. Provide support and communications/visibility assistance to NDMOs and the project as a whole	227,645	SPC Pacific Way, SignzPlus, Star Printery, R.Vulawalu, S.Menzies, V.Matanimeke, J.Prasad	All PICs	2, 3	Complete								
Building awareness and skills	Regional and international disaster-related meetings, workshops and trainings	Support for participation in regional & international disaster-related meetings and trainings, including PICs participating in meetings, training or tours related to climate change (e.g. Conference of the Parties (COP) to the United Nations Framework Convention on Climate Change (UNFCCC), DRR/DRM (e.g. Sendai), Small Island Developing States (SIDS) conference, tsunami modelling, Emergency Operations Programme (EMOPS), emergency management, community-based DRM (CBDRM), urban search and rescue (USAR), firefighting, Geographic Information Systems (GIS) (where prioritised for their country and available)	636,067	Asia Disaster Preparedness Centre (ADPC), Western Pacific Island Association of Fire Chiefs (WPIAFC)	All PICs	3, 5	Complete								
	Emergency Shelter Cluster and Evacuation Center Management training	Multi-country trainings on Emergency Shelter Cluster and Evacuation Center Management	10,434	NDMOs, International Federation of Red Cross/ Red Crescent (IFRC)	Samoa, Fiji, Solomon Islands	3	Complete								
	Emergency Operations Centre (EOC) management training (Northern Pacific)	Support multiple EOC management training to be delivered in FSM and Palau, also involving Nauru	104,495	NDMOs	FSM, Palau, Nauru	3	Complete								
	Working in an EOC Training of trainers training - Regionwide	Sub-regional train-the-trainer training in working in an EOC	209,239	PIEMA	All PICs	3	Complete								

Introduction to Disaster Management trainin- Northern Pacific	Provision of IDM training in Palau for northern Pacific countries	63,162	Palau NEMO, WPIAFC	Palau, RMI, FSM	3	Complete				
Introduction to DRM Training of trainers training (IDRM) - Regionwide	Sub-regional training to introduce participants to the rational for Disaster Risk Reduction (DRR) and Disaster Management	281,784	PIEMA	All PICs	3, 5	Complete				
CBDRM Training-the-Trainer (Northern Pacific)	Sub-regional training of trainers in CBDRM prior to national roll out	44,692	Palau NEMO, APDC	Palau, RMI, FSM	3	Complete				
Regional Tsunami Evacuation Mapping, Plans and Procedures (TEMPP) Training	Training in TEMPP focused on inundation modelling and mapping training	42,167	Intergovernmental Oceanographic Commission of the United Nations Educational Scientific and Cultural Organisation (UNESCO-IOC), International Tsunami Information Centre (ITC)	Fiji, PNG, Solomon Islands, Tonga, Tuvalu, Vanuatu	3	Complete				
Training of Instructors training (TFI)	To train individuals to develop, present and manage effective training programmes	84,764	PIEMA	All PICs	3	Complete				
Journalist and communications professionals - sustainable and resilient development training	Training to give journalists and communications professionals across the region a better understanding of the regional dimensions to sustainable and resilient development and equip them with tools to improve their coverage of these issues	10,360	PIFS, UNDP, Global Environmental Facility (GEF), SPREP	All PICs	3	Complete				
Private Sector Disaster- Ready Toolkit and workshops	Development and testing of Private Sector Disaster-Ready Toolkit (Generic version - English), followed by translations/adaptations in adopting countries	35,683	Pacific Island Private Sector Organisation (PIPSO), Fiji Business Disaster and Resilience Council, New Zealand Ministry of Foreign Affairs and Trade (MFAT), UNDP, Greenhouse Studio	Fiji, Cook Islands, Vanuatu, RMI	3	Partially complete				
Complex drilling training	Provide additional drilling training for use of borehole driller in complex terrains to aid in water security	129,820	TDW Consultants	Vanuatu, Samoa, Fiji, Solomon Islands	3, 4	Complete

## ANNEX 3 REPORTING AGAINST LOGFRAME

### LOGIC FRAMEWORK (As at 29 February 2020)

KRA	Indicator	Baseline	Target	Cumulative Results to 29 February 2020
Overall objective	To reduce the vulnerability as well as the s ocial, economic and environmental costs of disasters caused by natural hazards, thereby achieving regional and national sustainable development and national sustainable development and poverty reduction goals in ACP PICs	2013 WRI Vulnerability scores: - Average 7 countries - Available: 0.537	Overall lower consolidated vulnerability score for the 15 PICs at the end of the project	Across all reported PICs, vulnerability scores only slightly changed. Small increases were reported in PNG, Solomon Islands, Tonga and Vanuatu – all of which experienced significant hazardous events during the implementation period. Refer to the discussion in Volume 1, Section 2A for a more detailed discussion and graphs.
KRA 1: Effective preparedness for response and recovery	1.1 No. of PICs EWS and emergency communications systems (ECS) strengthened through upgraded equipment.	EWS/ECS equipment and maintenance required to ensure system has high resilience and coverage (including to outer islands and across emergency services) - Cook Islands, FSM, Kiribati, Niue, Palau, PNG, Samoa, Tonga, Tuvalu.	1.1.1 At least 3 PICs have EWS/ECS strengthened or expanded (Fiji, Tonga, PNG). Upgrades include, but are not limited to: improved power sources, VHF repeaters, and increased number of handsets for emergency responders.	1.1.1 <b>Target exceeded</b> - emergency communications improved in <b>10 PICs</b> (Cook Islands, FSM, Kiribati, Niue, Palau, PNG, Samoa, Solomon Islands, Tuvalu, Tonga).
		Extensive investment in new EWS systems required in Fiji and Timor Leste.	1.1.2 <b>At least 1 PIC has a new system</b> design and installed (Timor Leste).	1.1.2 <b>Target exceeded</b> - <b>2 PICs</b> (Timor Leste and Fiji) have new systems installed in their capitals Dili and Suva.
	1.2 No. of PICs that have fit-for- purpose DRM facilities	Many PICs do not have a purpose-built fit-for- purpose EOC – 11 have only meeting rooms and some EOCs are in a state of disrepair (e.g. Solomon Islands). EOCs in PICTs such as Palau lacked proper equipment. These factors negatively impacts the effectiveness and speed of responses. Equipped and flexible coordination facilities are required closer to the sites of disaster events. For example, in Fiji and Vanuatu, there is a need for new/refurbished EOCs	1.2.1 <b>At least 4 PICs have fit-for-purpose</b> <b>EOCs</b> through support for design, retrofit and/or construction (Fiji, PNG, Vanuatu, Samoa)	1.2.1 <b>Target exceeded</b> - work to construct/retrofit EOCs in <b>12</b> <b>PICs</b> ; designed in 2 PICs; and land identified in 1 PIC: Cook Islands (designed NEOC; retrofit 3 EOCs); Fiji (10 EOC refurbishments); FSM (3 refurbishments); Kiribati (NEOC/fire truck shelter constructed); RMI (NEOC ICT upgraded); Nauru (NEOC designed); Niue (designed/constructed); Palau (NEOC refurbished); PNG (NEOC land secured); Solomon Islands (temporary NEOC refurbished, new NEOC designed); Timor Leste (NEOC refurbished); Tonga (MEIDECC/NEOC designed); Tuvalu (NEOC fitout complete); Vanuatu (3 provincial EOCs designed/ constructed).
		at district/provincial level. For other PICTs, coordination can be improved through Mobile EOCs. For PICs such as Timor Leste, remote and vulnerable communities have no access to suitable evacuation centres. In	1.2.2 <b>Two (2) Evacuation Centres</b> renovated or constructed for cyclone (Timor Leste)	1.2.2 <b>Target exceeded</b> - <b>Two (2) evacuation centres</b> constructed for Timor-Leste, <b>3 village/district level emergency shelters</b> retrofitted in Cook Islands, and <b>1 village hall/evacuation centre</b> upgraded in Tuvalu.
		the Cook Islands, many schools, etc. used for evacuations not considered safe and fit for safety shelters; and use of schools delays	1.2.3 At least 2 PICs benefit from improvements to meteorological offices (Tonga, Kiribati)	1.2.3 <b>Target exceeded</b> - MET Offices built/upgraded in <b>3 PICs</b> (Kiribati, Tonga, Tuvalu).
		them reopening.	Gender and the needs of vulnerable groups to be considered in all designs.	<ul> <li>Gender and the needs of vulnerable groups to be considered in all designs In addition:</li> <li>1 Fijian community relocated due to severe disaster risk with rebuilding of community including evacuation centre.</li> <li>1 SAR building designed/constructed (Samoa).</li> <li>3 Pre-positioned supply storage facilities constructed (Tuvalu).</li> </ul>

1.3 No. of hazard specific national response plans and strategies	Fiji, Marshalls and Vanuatu have Tsunami Plans.	1.3.1 At least 2 PICs develop response plans for hazards to which they are highly exposed (FSM, Palau).	<ul> <li>1.3.1 Target exceeded - 8 PICs have, or are in the process of finalising hazard-based plans. These include a: <ul> <li>Fire Reduction Strategy (Samoa)</li> <li>Tsunami plan (Fiji, FSM, Nauru, Palau, RMI, plus tsunami evacuation standard operating procedures for 85 schools in Tonga)</li> <li>Oil spill plan (Kiribati)</li> </ul> </li> <li>In addition: <ul> <li>Post-disaster lessons learned and plans have been developed at national level in 3 PICs (Fiji, Solomon Islands, Tuvalu), and for 8 outer-islands (Tuvalu)</li> <li>4 District Response Plans have been developed for outer islands in Tonga, and BSRP contributed to the integration of response planning into 126 community-level plans.</li> </ul> </li> </ul>
1.4 No. of PICs that have improved preparedness and response systems as a result of equipment support/ upgrades and required goods and services.	All PICs face logistical challenges in terms of providing support to people living in remote areas who are affected by hazards. Very few NDMOs and Emergency Services have access to appropriate resources to carry out preparedness and response throughout their areas of jurisdiction Health and Safety of first responders is not currently supported by access to appropriate equipment. For example, Kiribati and Tuvalu do not have firetrucks; and FSMs fuel terminals are exposed to the risk of storm surges and tsunamis that could disconnect the fuel supply.	<ul> <li>1.4.1 At least 3 PICS are supported to receive upgraded fire trucks and safety equipment (FSM, Timor Leste, Vanuatu).</li> <li>1.4.2 At least 10 vehicles (boats/trucks/ heavy load vehicles) procured to support preparedness, response and emergency operations.</li> <li>1.4.3 At least 3 national workshops and/or simulation exercises supported to improve response, coordination and conduct of post disaster needs assessment (Fiji, Solomon Islands, Vanuatu).</li> </ul>	<ul> <li>1.4.1 Target exceeded - Increased emergency response in 8 PICs (Fiji, FSM, Kiribati, Nauru, Niue, Samoa, Tuvalu, Vanuatu) with upgraded firetrucks and emergency management response equipment (combined with training).</li> <li>1.4.2 Target exceeded - 26 vehicles (boats/trucks/heavy load vehicles/Mobile EOCs) procured for 9 PICTs (Fiji, FSM, Kiribati, Samoa, Solomon Islands, Tonga, Tuvalu, Vanuatu, Nauru) plus 7 donated firetrucks to strengthen coordination and emergency response.</li> <li>1.4.3 Target exceeded - 242 workshops and/or simulation exercises held or supported across 15 countries at regional, national, sub-national and community levels to improve response, coordination and conduct post-disaster needs assessment (Cook Islands, Fiji, FSM, Kiribati, Nauru, Niue, Palau, PNG, RMI, Samoa, Solomon Islands, Timor Leste, Tonga, Tuvalu, Vanuatu). Involved well over 2,300* participants. This includes a number of tsunami simulation exercises.</li> </ul>
1.5 No. of PICs with mechanisms in place for coordination and inter-operability of emergency services.	Arrangements between PIC emergency response agencies and AFAC twinning partners are only formalised in 1 PIC (PNG). In-country emergency responders are not well coordinated across agencies and systems are not mutually compatible in most PICs.	<ul> <li>1.5.1 At least 10 PICs have a MoU signed with Australia and New Zealand Fire and Emergency Services on coordination, interoperability and provision of equipment and capacity building support.</li> <li>1.5.2 At least 3 PICs are supported to review in-country arrangements for emergency response agencies to work effectively together and develop plans/ systems to improve this capacity.</li> </ul>	<ul> <li>1.5.1 Target exceeded -11 Twinning Partnerships were finalised and activated (Cook Islands, Fiji, Kiribati, Niue, PNG, Samoa, Solomon Islands, Timor Leste, Tonga, Vanuatu) prior to PIEMA moving to be an independent project.</li> <li>1.5.2 Target met - 2 PICs (Niue, Cook Islands) have completed SREMs and Action Plans. 1 PIC (Kiribati) finalised its SREM and Action Plan in 2018, approved by Permanent Secretary but awaiting Cabinet endorsement</li> </ul>

\*This is an under-estimation as data on number of participants was not collected in some instances.

KRA	Indicator	Baseline	Target	Cumulative Results to 29 February 2020
KRA 1: Effective preparedness for response and recovery <i>contd</i>	1.6 National interventions to support access to safe drinking water in response to drought and during emergencies	Many households in drought prone areas do not have rainwater catchments making them particularly susceptible during periods of low rainfall such as those triggered by El Niño events. Four countries in particular, identified access to safe and clean drinking water during emergencies as an issue (Fiji, Palau, RMI and Vanuatu).	1.6.1 <b>At least 400 water tanks</b> to be procured, delivered and installed to store water for households affected by droughts	<ul> <li>1.6.1 Target exceeded - 512 water tanks installed in households and schools (Fiji, Palau, RMI).</li> <li>In addition:</li> <li>- 68 boreholes drilled and completed in Vanuatu.</li> </ul>
KRA 2: Strengthened institutional arrangements for DRM / CCA	2.1 No. of PICs that have reviewed and updated National Acts and Plans to comprehensively manage risk.	Countries have DRM Acts and Plans however required urgent review to take on issues and developments realised in recent years relating to DRM/CCA integration. Only three countries have building codes that govern construction of new buildings.	2.1.1 At least 5 PIC's DRM Acts and Plans to be reviewed and updated.	<ul> <li>2.1.1 Target exceeded -12 PIC's DRM Acts and Plans reviewed. With contributions from BSRP:</li> <li>The DRM Act: in 1 PIC (Nauru) has been developed and passed into legislation; and in 2 PICs (Fiji, Kiribati) is under review.</li> <li>58 DRM or Joint Action Plan or Frameworks developed and endorsed at National, State or community level in 8 PICs (Cook Islands, FSM, Palau, RMI, Samoa, Solomon Islands, Tonga, Tuvalu).</li> <li>2 plans under development at National or subnational level in 2 PICs (Fiji, Tonga)</li> <li>In addition: <ul> <li>Health Quarantine Act reviewed in 1 PIC (Kiribati)</li> <li>Fire and Emergency Services Bill developed in 1 PIC (Vanuatu)</li> <li>A SREM Action Plan has been developed and endorsed in 3 PIC (Niue, Cook Islands).</li> <li>A National Fire Reduction Strategy has been developed and endorsed in 1 PIC (Samoa)</li> <li>A Fire and Emergency Services Policy has been initiated in 1 PIC (Cook Islands)</li> </ul> </li> <li>2.1.2 Target exceeded - 2 PICs (Cook Islands, Niue) have developed minimum building standards.</li> </ul>
	2.2 No. of PICs that have reviewed and updated their planning tools and governance structures at national and/or sub-national levels	All PICs have identified through Hyogo Framework For Action (HFA) reviews and support for FRDP, the need to integrate DRM/ CCA efforts and mainstream this integrated approach across sectors and require support to do this. All PICs recognise the need to increase sub-national and community level DRM capacity.	2.2.1 <b>At least 5 PICs supported to</b> <b>develop planning tools</b> that enable multi- sector, integrated DRR/CCA initiatives (JNAP, sector mainstreaming, updated plans/policies of 'other sectors' to include DRR/CCA).	2.2.1 <b>Target exceeded</b> - <b>6 PICs supported to develop planning</b> <b>tools</b> (Cook Islands - Disability Toolkit, Fiji- DRM course review, Kiribati - Island Disaster Committee Toolkit, Palau - CBDRR Toolkit, Samoa- Risk Mainstreaming Guidelines for 14 sectors; Solomon Islands - Disaster Impact Assement Guide)

	2.3 No. of PICs supported with human resources for DRR	All PICs are burdened by limited human resources to oversee and implement at a large number of DRR/CCA activities	<ul> <li>2.3.1 Sub-national (community/island/ provincial/district) institutions with key roles in managing risk are strengthened in at least 3 PICs through creation of dialogue and capacity building at these levels.</li> <li>2.3.2 At least 2 PICs supported to developed CBDRM frameworks</li> <li>2.3.3 At least 10 positions and salaries paid to support NDMO to implement the BSRP project at national and community levels and/or perform critical roles that will support more effective risk management</li> </ul>	<ul> <li>2.3.1 Target exceeded - Sub-national institutions have been strengthened in 2 PICs (20 CBDRR committees in Solomon Islands; 21 outer-island DRM committees in Kiribati); CBDRM training and planning completed in 2 PICs (Tonga, Palau) will also strengthen sub-national institutions.</li> <li>2.3.2 Target exceeded - 3 PICs (Palau, Kiribati, Tonga) have been supported to developed CBDRM frameworks in different forms.</li> <li>2.3.3 Target exceeded - 21 in-country positions funded to support implementation, including EOC Directors/Managers, coordinators, engineers/construction supervisors, a Data and Information Manager and Geoportal Officer.</li> <li>57% held by women.</li> <li>Spanned 12 PICs (Cook Islands, Fiji, FSM, Kiribati, Nauru, PNG, RMI, Solomon Islands, Timor Leste, Tonga, Tuvalu, Vanuatu).</li> </ul>
KRA 3: Improved knowledge, information, public awareness, training and education	3.1 No. PICs supported to include DRM and CCA in formal, community and private sector education	5 PICs have integrated DRR in the national educational curriculum to date (Nauru, Palau, Samoa, Tonga, Vanuatu). Only 3 of these include DRR at a tertiary level. CBDRM is not reflective in the region.	<ul> <li>3.1.1 At least 1 additional PIC integrated DRM into school curriculum (Kiribati).</li> <li>3.1.2 At least 1 PIC developed a teacher's resource kit (Cook Islands).</li> </ul>	<ul> <li>3.1.1 Target met - 1 PICs (Cook Islands) has integrated DRM into their school curriculum, plus DRM curriculum resources printed/ distributed for 1 PIC (Kiribati)</li> <li>In addition: <ul> <li>BSRP funded workshops for integration of Provincial Education in Emergencies (EiE) policy into schools across PNG.</li> </ul> </li> <li>3.1.2 Target exceeded - 1 PIC developed a teacher's resource kit (Cook Islands) and will provided training on its use. 1 PIC (Samoa) developed and distributed a resource kit for the integration of DRM into early childhood education.</li> </ul>
			3.1.3 At least 1 additional PIC supported to deliver tertiary DRM courses (PNG). 3.1.4 At least 3 PICs supported with logistics, per diems, printing, equipment, to carry out CBDRR training activities (Cook Islands, Palau, Solomon Islands, Tuvalu)	<ul> <li>3.1.3 Target met - 1 PIC (PNG) has developed 2 tertiary courses (Comprehensive Hazard and Risk Management (CHARM), and DRM for delivery by the University of PNG from 2020.</li> <li>In addition: <ul> <li>a disaster-ready toolkit has been developed with the private sector and translated into six additional languages to increase resilience and leverage partnerships for businesses in the Pacific region.</li> </ul> </li> <li>3.1.4 Target exceeded - CBDRR/M-type training and activities are being supported in 10 PICS (Cook Islands, FSM, Kiribati, Palau, PNG, RMI, Solomon Islands, Timor Leste, Tonga, Tuvalu) targeting a range of stakeholders including new Mayors, District Officers, councils, schools, private sector, women, youth, and those with disabilities.</li> </ul>

KRA	Indicator	Baseline	Target	Cumulative Results to 29 February 2020
KRA 3: Improved knowledge, information, public awareness, training and education contd	3.2 No. of DRM professionals/ facilitators/instructors supported to pursue relevant qualifications and number of PIC, government, NGO, private sector and community reps introduced to DRM/CCA capacity building	No. NDMO staff, below Director Level, have formal DRM qualifications. Only 1-2 people in each of the 15 PICs trained on various aspects of DRM and very little understanding of risk in other government sectors	3.2.1 At least 2 PICs supported to sponsor NDMO staff to achieve formal DRM qualifications (Fiji, Solomon Islands).	<ul> <li>3.2.1 Target exceeded - NDMO staff from 3 PICs have been supported to achieve formal DRM qualifications (Fiji, Solomon Islands, Vanuatu). A total of 14 staff (100% male) were sponsored, 13 completed, 1 did not complete within the project timeframe.</li> <li>In addition: <ul> <li>2 NDMO staff (50% female) from 1 PIC (Cook Islands) received partial sponsorship to complete formal Project Management qualifications.</li> </ul> </li> </ul>
			3.2.2 At least 200 government officials, community members, and non- government representatives from a range of sectors and across the 15 PICs trained on a range of topics such as post-disaster-needs-assessment, training for instructors, disaster management, emergency response, emergency operations centre, incident command systems, and community disaster risk reduction	<ul> <li>3.2.2 Target exceeded - There have been 184 CCA/DRM-related training events (trainings or study tours) involving more than 2,800* government, community, private sector and non-government participants. In addition, there are 3 media trainings as per indicator 3.4.1.</li> <li>Refer to main report (KRA 3) for breakdown of training by discipline, and by the level of BSRP support for these events. Of those trainings where gender statistics are available (n= 101), 31% of participants were female. This, however, varied by discipline.</li> <li>In addition:</li> <li>BSRP found increased need for Finance and Procurement training following the change in implementation delivery modality. This informal training was provided during Regional Steering Committee meetings as well as direct coaching (in person/distance).</li> </ul>
	3.3 No. of knowledge products developed to increase awareness and public information risk	In 2013, 3 PICs had publicly available national disaster information systems. Awareness materials tend to be hazard focused and not tailored to the needs of different groups or easily available in remote parts of the countries	3.3.1 Supporting printing and logistics for DRR/CCA educational awareness materials and events to improve quality and reach of DRM information to specific groups and/or general public in at least 6 PICs through regional initiatives	3.3.1 <b>Target exceeded</b> - <b>15 PICs</b> have been supported with forms of education awareness materials, education campaigns and events such as Pacific Resilience Week or International Day for Disaster Reduction. This has included developing 2 behaviour change disaster awareness campaigns (Get Ready Disasters Happen and Disaster-Ready Toolkit)
	3.4 No. of PICTs supported to review and modify risk message content and provide training to media representatives	In 2013, 4 PICs provided preventative risk management public education campaigns for risk-prone communities (Fiji, Nauru, Samoa, Tonga)	3.4.1 Financial and technical support provided to at least 2 PICs through regional initiatives to train media representatives on improved messaging for DRM/CCA	3.4.1 Target exceeded - 64 participants (47% female) from 9 PICs have participated in 3 media trainings to increase disaster awareness and CCA resilience-based messaging supported through BSRP project.

\*This is an under-estimation as data on number of participants was not collected in some instances.

KRA 4: Improved understanding of natural hazards and the reduction of the underlying risks	4.1 No. of countries with expanded risk profiles and DRM applications through improved understanding of hazards and vulnerability	In 2013, 3 countries reported having a national multi-hazard risk assessment to inform planning and development decisions. Two of these included gender disaggregated data	4.1.1 Support at least 3 PICs to establish systems to enable a better understanding of locations of communities exposed to hazards and that can overlay socio-economic information to determine level of vulnerability to those living in communities (Fiji, FSM, Tonga).	4.1.1 <b>Target exceeded</b> - <b>7 PICs</b> have been supported to establish systems that enable better understanding of locations of communities exposed to hazards to support reduction of vulnerability (Cook Islands, Fiji, Kiribati, Palau, PNG, Tonga, Vanuatu). This has included establishing information, geospatial, vulnerability and disability databases/systems, and technical systems and equipment to monitor and collect data.
			4.1.2 <b>Supported 3 PICs to collect, collate</b> <b>and analyse hazard data</b> to inform planning and decision making for high risk areas (PNG, Samoa, Timor Leste)	4.1.2 <b>Target exceeded</b> - <b>8 PICs</b> have been or are being supported to collect, collate and analyse hazard data to inform planning and decision making for high risk areas (Cook Islands, Fiji, Palau, PNG, RMI, Samoa, Timor Leste, Tonga). This has include both data from both scientific and traditional sources in relation to landslides, volcanoes, tsunamis, utilities and vulnerable communities In addition, FSM has been supported to establish a Spatial data policy framework to guide the collection and sharing of spatial data nationally.
	4.2 No. of activities that support community resilience	All countries recognise the importance of building resilience at community level	4.2.1 Support government departments in at least 4 PICs to develop and implement multi-sector actions to reduce risk in vulnerable communities	<ul> <li>4.2.1 Target met - 4 PICs have benefited from multi-sector actions to reduce risk to vulnerable communities.</li> <li>5 storage facilities for pre-positioned supplies/emergency fuel provided (FSM, Palau, Tuvalu)</li> <li>1 seawall constructed (FSM – Awak School)</li> <li>1 village (110 people) relocated due to disaster risk (Fiji – Tukuraki village)</li> </ul>
	4.3 No. of PICs supported to have improved food and water security	All PICs recognise the importance of strengthening food and water security in terms of taking an integrated approach to risk reduction. In the Pacific, household or community level food and water supplies are more threatened than national ones by climate change and hazards.	4.3.1 At least 3 PICTs supported to build local level capacity to improve food and/ or water security (Vanuatu, Kiribati, FSM)	4.3.1 <b>Target exceeded</b> - 5 PICTs have been/are being supported to build local level capacity to improve food and/or water security (FSM, Kiribati, RMI, Tonga and Vanuatu). This has included installing water tanks and providing a borehole drilling rig to carry out water exploration in in communities prone to water scarcity; working with youth to establish nurseries; and providing the means to distribute plants.

KRA	Indicator	Baseline	Target	Cumulative Results to 29 February 2020
partnerships in DRM and Climate Change	5.1 No. of forums convened with participation of international and national agencies including civil society and private sector	A regional DRM platform has been convened since 2005 to enable DRM managers and stakeholders from throughout the region to share information, network, and collectively formulate strategic regional plans	5.1.1 2 Pacific Platforms for NDMOs and Climate Change experts convened.	<ul> <li>5.1.1 Target exceeded - 4 Pacific Platforms for DRM/CCA held with BSRP acting as lead organisers for these events with partners and CROP agencies since 2013.</li> <li>In addition: <ul> <li>Fiji, FSM, and the Cook Islands have all held national platforms (supported by BSRP) for NDMOs and climate change experts to look at local and sub-national integration.</li> </ul> </li> </ul>
			5.1.2 Support provided for the development of the FRDP	5.1.2 <b>Target met</b> - BSRP took a lead role in both funding and organising the 4 Pacific Platforms (Pacific Resilience Week) to bring together communities of practice and forge the development of the Framework for Resilient Development in the Pacific (FRDP).
	5.2 Integrated regional strategy for DRM and Climate Change developed and approved by Leaders	Regional Framework for Action for DRR ending in 2015. No regionally endorsed integrated framework	5.2.1 An integrated framework is regionally endorsed	5.2.1 <b>Target met</b> - FRDP completed and endorsed by Leaders in September 2016. The Pacific Resilience Partnership Governance Structure was then endorsed by Leaders in September 2017 and is now be the coordinating mechanism to implement the FRDP and integrate DRR/CCA at regional and country levels. In addition: - Compendium of case studies of DRM and climate change
	5.3 Strategic alliance between Pacific Islands Disaster, Fire and Emergency	All PICs dealing with emergency response operate in silos. No SREMs and no formal Emergency Management-endorsed alliance for the Pacific exist.	5.3.1 Logistical support provided to enable twinning partnerships between AFAC partners and PIC emergency services agencies to be activated.	5.3.1 <b>Target met</b> - Logistical support has enabled 11 Twinning Partnerships to be finalised and activated.
	Services with AFAC members established and twinning		5.3.2 Strategy 2020 developed and endorsed by BSRP RSC	5.3.2. <b>Target met</b> - PIEMA Strategic Agenda 2020 developed with countries, endorsed by NDMO directors in 2015.
	arrangements implemented		5.3.3 <b>Two (2) national SREMS</b> <b>developed</b> and approved by the National BSRP steering committees	5.3.3. Target exceeded - 2 SREMs completed and endorsed (Niue, Cook Islands) plus 1 SREM completed and endorsed to Permanent Secretary level in Kiribati during the BSRP implementation period. In Vanuatu, developed of SREM has also begun.

ANNEX 4 PROJECT GOVERNANCE AND MANAGEMENT STRUCTURES

ANNEX 5 ASSET REGISTER

### A. Fixed assets

A fixed asset for the purposes of this register is an item (whether tangible or intangible) with a life expectancy of more than one year; and a procurement value of EUR 2,500 or more. Intangible assets include computer software, licences and intellectual property with the exception of intellectual property in government plans, strategies developed, etc, which are not listed here but are contained within the consolidated workplan.

This register does not included donated equipment (e.g. fire engines, fire/ambulance equipment) that BSRP assisted in transporting to PICs.

Values provided are the costs incurred by the BSRP project, and do not take into account depreciation or contributions from other parties.

No.	Asset	Year purchased (Year acquitted to SPC)	Reference number(s)	Cost (EUR)	Location	Description	Custodian
CI - 1	Geoportal & disability database (website data and intellectual property)	2016-2018 (2016-2019)	Various	44,724	Cook Islands	Intellectual property assosciated with the website, database and data. Value based on development and data collection costs	EMCI
CI - 2	EMCI NEOC design (intellectual property)	2018 (2018)	GSD_ACQ18/126; GSD_ACQ18/059; GSD_ACQ18/144	16,919	Cook Islands	Design for the EMCI NEOC building	EMCI
CI - 3	EOC/Evacuation Centre Building refurbishments	2016-2018 (2017-2019)	Various	5,443	Cook Islands	Materials and services for building refurbishment, kitchens, bathrooms, airconditioning, electrics, signage, etc.	Tupapa, Pokoiono, Aitutaki, Titikaveka EOC/Evacuation Centres
CI - 4	Teachers resource kit documentary (intellectual property)	2018 (2019)	GSD_ACQ19/049	2,947	Cook Islands	Intellectual property for documentary for DRM teachers resource kit valued at production cost	EMCI
CI - 5	Disability documentary (intellectual property)	2018 (2019)	GSD_ACQ19/049	2,947	Cook Islands	Intellectual property for documentary for disability in DRM valued at production cost	EMCI
FJ-1	Tukuraki Village buildings	2016 -2018	Various	351,1507	Fiji	Fixed assets for Tukuraki village relocation - 11 x houses, 1 x evacuation centre, 1 x ablution block, 380m retaining wall, 10 x water tanks	Commissioner Western
FJ-2	EOCs refurbished x 9	2017 - 2019	Various	218,572	Fiji	Building materials and labour to refurbish 9 EOC buildings	Commissioners responsible for Nadi EOC, Divisional EOC Lautoka, District Office (DO) Lautoka EOC, DO Tavua EOC, DO Korovou EOC, DO Vunidawa EOC, DIvisional EOC Nausori EOC, Nabouwalu EOC, plus NDMO (NEOC)

No.	Asset	Year purchased (Year acquitted to SPC)	Reference number(s)	Cost (EUR)	Location	Description	Custodian
FJ-3	Water Tanks and pumps	2015 -2016	Various	158,211	Fiji	25 x 2, 000 litre water tanks: Northern Division; 10 x 10,200 litre water tanks: Northern Division; 25 x 5,300 litre Water Tanks: Northern Division; 10 x 10,200 litre Water Tank: Western Division	Commissioner Western and Northern
FJ-4	Early warning sirens x 4	2018	14129, 2531, 2747, 3048, 3051, 3050	122,962	Fiji	Tsunami early warning mass notification system - 4 mounted sirens with local and remote controls, built to withstand cyclones (Suva)	Suva City Council
FJ-5	Integrated Vulnerability Assessment tool and database (intellectual property)	2015-2017	Various	32,861	Fiji	Electronic data collection tool connected with online database with cloud storage solution (value not including data collected).	Fiji Climate Change Division, Ministry of Foreign Affairs
FJ-6	Report: Assessment of Tsunami Warning Mass Notification System in Fiji (Intellectual Property)	2017	146, 177	32,774	Fiji	Technical report on mass notification system in Fiji prepared by Tonkin & Taylor	NDMO
FJ-7	Mobile EOC	2018 - 2019	B04055, A532598B, 10898, 55644, 1410919	31,375	Fiji	Nissan NP300 with bullbar, canopy, roofrack, towbar, rear protection bar and suspension upgrade	NDMO
FJ-8	Boats (x 2)	2019	0064, S49643, S49642, 12241,12227, 1410919, 12241	22,649	Fiji	2 x 23 (D) Foot boat- Sokas and Captain Seat, E75BMHD-Yahama Enduro 75HP 2stroke otbrd Man strt, safety kit and stickers. Provide logistical support during disasters and peace time in Kadavu/Lomaiviti	NDMO
FJ-9	Generator	2016	58619	4,984	Fiji	5KVV Tower Light Generator (Tukuraki village)	Commissioner Western
FM-1	Seawall	2015-2016 (2016-2017)	JVMV16/06015, 2016/FM002, USD17/02.010	98,318	FSM	130 foot gabion basket seawall (Awak School)	Awak School and community
FM-2	HF Radio, solar panels and battery	2014-2016 (2015-2016)	JVMV16/01004, JVMV16/06015	34,673	FSM	3 x HF radio with broadband antenna, 40 feet mast with antenna cable; 10 sets of 2 solar panels for radio with solar charger controller, mounting feet and cables; 36 x Deep Cycle Batteries with cables and housing (Chuuk, Kosrai, Yap, Pohnpei)	Department of Trans- port, Communication and Infrastructure
FM-3	Stairwell	2018-2019	002-18, 003-18, 004-19	23,941	FSM	Concrete roof with roof and side protection between the EOC and the Governors office	Kosrae EOC
FM-4	EOC refurbished (x 2)	2016-2017 (2016-2017)	JVMV16/06015, FJD16/07.045, 00063, GSD_ ACQ17/129, GSD_ ACQ17/131	32,467	FSM	EOC building refurbishment in Yap and Pohnpei	Yap and Pohnpei EOCs
FM-5	Generator	2016 (2016)	USD16/09.001, 19441	20,831	FSM	Yingli Generator 20Kw with Perkins engine, 120/240V, 1 Phase, silent housing, transfer switch, install and freight (Pohnpei EOC)	Pohnpei EOC
FM-6	Mobile EOC (x 4)	2016-2017	FJD16/07.056; FJD16/09.082; GSD_ ACQ17/131;	96,835	FSM	1 x Nissan Frontier truck, 1 x Nissan Frontier 4x4 pick up, 1 x Toyota Tacoma Crew Cab 4x4 short bed, 1 x Toyota Tacoma 4x4 Double Cab Pickup Truck (each with bullbar with winch, tow bar, rear canopy).	Yap, Pohnpei, Chuuk EOCs, NEOC

No.	Asset	Year purchased (Year acquitted to SPC)	Reference number(s)	Cost (EUR)	Location	Description	Custodian
FM-7	Water infrastructure	2015-2017	FJD16/07.055, FJD16/07.055	18,596	FSM	Dam and reservoir at existing reservoir site at Pehleng, Pohnpei	State Administration (Pohnpei)
FM-8	Nurseries	2015 (2016- 2017)	Various	3,735	FSM	Nursery in Nirpal community, Yap State	Nirpal community
KI-1	Kiritimati Meteorology Station building	2016-2018 (2016-2019)	Various	80,971	Kiribati	Materials, labour and shipping for weather monitoring station at Cassidy Airport, Kiritimati	Meteorology Department
KI-2	EOC building	2018-2019	Various	37,518	Kiribati	EOC building with fire engine carport in Bairiki (valued at development cost)	OB
KI-3	Mobile EOC	2016-2018 (2016-2018)	FJD16/06.032, GSD_ACQ17/064, GSD_ACQ17/090, 10363, 11188, 12227	35,524	Kiribati	Ford Ranger high ride 4x4 D-Cab 2.2L Diesel with emergency lights, CB radio, reinforced bumper and grill, orange beacon with mounting frame, reflective signage	NDMO (OB)
KI-4	HF Transreceivers	2016	FJD16/06.062	11,803	Kiribati	3 x HF Transreceiver NGT SRx Base station package, 1 x NSP Software CD Package, Cable, NGT Programming handset -D9F, Adaptor USB to DB-9, Serial, TCVR, 3020 C/W packaging, Handset NGT SRx, Spkr, Extension, 4m Lead, Cable, control 2012/2210 6m, Cable, Coax Assy (RG58 UHF) 30m	Ministry of Health (Abiang)
KI-5	Office furniture	2016-2019 (2017-2019)	GSD_ACQ17/064, GEM_DCRP19/034, EX190570/1	10,885	Kiribati	1 x filing cabinet, water dispenser, office chair, boardroom table, 1 x cubic table/workstation, 8 x executive chairs, Apex writing table dark grey (EOC/NDMO)	OB
KI-6	Biosecurity minilab building	2018-2019 (2018-2019)	Various	8,549	Kiribati	Biosecurity Mini-laboratory building for sampling and analysis at Betio port, Tarawa	Ministry of Agriculture
KI-7	Seawall assessment equipment	2018	GSD_ACQ18/115	8,486	Kiribati	2 x DCP Kit, 1X DCP Helmet, 1 X DCP Allen key Long series, 4 X DCP Shear Pin single, 1X DCP Hammer/ Anvil Assembly, 4 X DCP Extension rod, 1X DCP Cone, 2 X DCP Grub screws, 1 pair DCP Spanner, 16 x DCP Shear pin, 2 x DCP Extractor, 2 x DCP Carrier, 2 x Compaction Hammer, 2 x Auger T Handle coarse thread, 4 x Auger Extension rod 1m, 2 x Tommy Bar for Auger (Pair), 2 x Auger Head, Jarret 50mmx 200mm coarse, 2 x Auger Jarret 75mm X 250mm Coarse (Head only), 2 x Carry bag 1m, 5 x Bosch GOL 26D Optical level, 5 x Tripod for Bosch GOL, 1 x Staff for Bosch GOL	Ministry of Infrastructure and Sustainable Energy
KI-8	Agriculture nursery and Compost house	2016-2018 (2017-2018)	GSD_ACQ17/060; GSD_ACQ18/167; GEM_DCRP19/034	6,743	Kiribati	Static Hydroponic farming facilities at the Agriculture Nursery in Tanaea; compost house constructed at Tabiteuea South	Ministry of Agriculture
NU-1	Nauru NEOC Design (intellectual property)	2016-2018 (2016-2018)	AA1602979, GSD_ ACQ17/131, 5787	52,591	Nauru	Design of NEOC (valued at designer costs only)	Emergency Management
NI-1	National Emergency Centre building	2016-2019 (2016-2019)	Various	761,603	Niue	Design, land preparation, build and build supervision of the Joint NEC.	NDMO, Police
PL-2	Boat upgrade	2016	JVMV16/06015, JVMV16/01004, 9286	56,331		Refurbished boat (incl. flooring frame, flooring, boat console, windshield, hatch covers, front box, seats, rubrail, boat tent, ladder, painting), 2 x Mercury 150hp 4 stroke marine outboard engines and rigging accessories, reflective signage and trailer	NEMO

No.	Asset	Year purchased (Year acquitted to SPC)	Reference number(s)	Cost (EUR)	Location	Description	Custodian
PL-3	CBDRR Framework / Toolkit (intellectual property)	2016-2018	Various	49,055	Palau	CBDRR Framework / Toolkit intellectual property (based on development value)	NEMO
PL-4	NEMO Building storage room	2016	156676	33,668	Palau	Storage Room using 2 x converted 20ft containers (NEMO Building)	NEMO
PL-5	HF and VHF antenna	2016	JVMV16/06015, 16/07.054	11,817	Palau	$8\ x$ VHF Antenna, $4\ x$ UHF Antenna for repeater link , $1x$ Channel 7 repeater installed on Department of Justice tower	NEMO
PL-6	Water Tanks (x13)	2015	148183	5,638	Palau	13 x 18 US Gallon water tanks for schools and Ministry of Eduction building	Ministry of Education
PL-7	Server (PALARIS)	2016 (2017)	GSD_ACQ17/131	5,458	Palau	5 x NAS servers 4 bay with total capacity of 8TB	PALARIS
PG-1	Volcanic Seismic Sensors, accelerometers and data loggers	2016	FJD16/02.009, FJD16/03.105	134,143	PNG	6 x Seismometers – short period 3 component or broadband sensors for rapid deployment; 6 x Cable connection (seismometer to data logger); 6 x Accelerometers- triaxial, low noise, MEM sensors for rapid deployment; 6 x Cable connection (accelerometer to data logger); 6 x Data loggers (6 channels); 1 x GPS receiver/clock and associated firmware; 6 x solar panel 80W side pole mount; 6 x 3rd generation 6 channel recorder, 1 x cable (GPS to DAS), 3 x cable (DAS to battery; 12 x Flash card memory; 1 x Memory card reader; 6 x Network cables for serial/Ethernet connections; 1 x Appropriate acquisition/analysis software; 1 x Appropriate software interface for data loggers for field setup and control. (Raboul Volcanic Observatory)	Department of Mineral Policy and Geohazard Management
PG-2	Observatory equipment	2016-2019	Various	107,932	PNG	1 x T506 Plus Station 5" with reflectorless R500 (power) EDM, full numeric keyboard with b/w display, RS-232 interface, communication sidecover, laser plummet, quick guide and container with protective cover, lens hood and cleaning cloth; 1 x GD111-1 Tribrach without optical plummet; 2 x Lithium ion battery; 1 x single bay charger; industrial grade USB stick 1GB; 1x DNA03 0.3mm precision digital level magnetically dampened compensator with Leica Geooffice Tools software, manual and container; 1 x compact flashcard 32GB; 2 x Camcorder battery; 1 x charger basic; 2 x dual face levelling staff; 1 x barcode levelling staff; 2 x tripod telescopic; 2 x CTR4-3S Centaur Digital Recorder, 24-bit, 3 std channels, 8 GB Expandable Storage; 2 x 3m cable; 2 x 5m cable; 2 x media card industrial 32GB; 5 x LE-3DLite Mkill ultracompact 3 component active seisometre; 5 x seisometre cable 5m; (incl freight/packaging/customs); Canon IRC-ADV C3520i MFD printer with inks; 4 x copykit 100k; 35 x copykit 20k; 3 x POM Office AutoMation Services; 2 x TerraSync Professional software; 7 x HP 430 Core 17-7500 with MS Office 2016, Norton Internet Security; 2 x Adata 2Tb USB.HDD; 1 x Canon SX720HSBK Digital Camera with case (Raboul Volcanic Observatory)	Department of Mineral Policy and Geohazard Management

No.	Asset	Year purchased (Year acquitted to SPC)	Reference number(s)	Cost (EUR)	Location	Description	Custodian
PG-3	Laptops and accessories (x 22)	2016-2019 (2017-2019)	GSD_ACQ17/118; GSD_ACQ17/088; GSD_ACQ17/164; 1203718/1171051B; GEM_DCRP19/029;	36,373	PNG	11 x HP 250 G5 i5-6200U 4GB 500GB HDD 15.6" laptop (with laptop backpacks, MS Office, Eset Smart Security), 11 x HP Deskjet 3720 All-in-one printers with ink; 11 x HP 250 G5 i5-6200U 4GB 500G11 x Dell Latitude i5-8250U 1.6Ghz 15.6" 8GB 1TB, WIN10P (with Bell Guard Internet Security) (value including installation)	Provincial Disaster Centres
PG-4	Disaster management database (intellectual property)	2018 (2019)	GEM_DCRP19/029	16,519	PNG	Database to capture and analyse DRM data (valued at development cost)	NDC
PG-5	Disability database (intellectual property)	2019	Various	14,947	PNG	Database to capture and analyse disability data to inform disaster response (valued at development cost)	Department of Community Development
PG-6	Computer and accessories	2017 (2018)	GSD_ACQ18/032	3,753	PNG	1 x HP 450 computer, 1 x Lenovo S150 i5 6400 laptop, 1 x Lenovo 22" Monitor, 1 x HP M377DW Colour multifunctional printer	University of PNG

#### B. Small value items

Small value items are goods that either have a value between EUR 500 and EUR 2499 and a life expectancy of more than one year, or have a value less than EUR 500, and a life expectancy of more than one year, and are particularly at risk or vulnerable to loss or theft. Intangible assets include computer software, licences and intellectual property with the exception of intellectual property in government plans, strategies developed, etc, which are not listed here but are contained within the consolidated workplan.

This register does not included donated equipment (e.g. fire engines, fire/ambulance equipment) that BSRP assisted in transporting to PICs.

Values provided are the costs incurred by the BSRP project, and do not take into account depreciation or contributions from other parties.

# ANNEX 6 CONTRACTS LISTING

#### Introduction

The following lists of contracts comprises Letters of Agreement (LOAs), Memorandums of Agreement (MOAs), Grant Agreements (GAs), Consultancy Contracts (CCs), Contracts for Professional Services (CPSs), Contracts for Services (CS), Contracts for Works (CW) and Memorandums of Understanding (MOU) entered into by SPC for the purposes of implementing the BSRP project. The wide range of contract type reflects changes in the SPC Procurement Policy over the life of the project.

This contracts listing does not include purchase orders (POs) not requiring a contract under policy, nor does it include sub-contracts that SPC was not party to (for example, contracts entered into by sub-recipients).

While this listing includes the original maximum value of the contract, not all contracts were fully expended prior to expiry.

Country/ Region	Туре	Number	Name of Contractor/ Subrecipient	Locality of Contract/ Subrecipient	Title	Description	Years	Status	Currency	Original value (Contract currency)	No. Amend- ments
Cook Islands	LOA	14/318	Cook Islands Government, EMCI, Office of the Prime Minister	Rarotonga, Cook Islands	BSRP and JNAP (Joint National Action Plan for DRM and CC) Coordinator	Recruitment of a JNAP Coordinator to assist in the coordination of the implementation of the EDF IO BSRP Cook Islands project as well as support the implemented of JNAP and EMCI Projects.	2014-17	Concluded	NZD	30,000	2
