STATISTICAL YEARBOOK 2009

Message from the Director

It is with great pleasure that I present the 2009 Statistical Yearbook for American Samoa. The 2009 Statistical Yearbook is the thirtieth annual publication of compendia detailing both historical and current economic and social characteristics of the Territory. The information contained in this yearbook provides a useful source of data for the local community as well as leaders in government, businesses and civic organizations.

I would like to commend the many government agencies (both local and federal), private businesses, and individuals who have contributed diligently in making this publication possible.

I hope the users of this book will find its content useful and informative. I also welcome any comments or suggestions for improving these statistical series. A suggestion and comment sheet is provided at the end of the book for this purpose.

Faleseu Eliu Paopao
Director
Department of Commerce

STATISTICAL YEARBOOK 2009

TABULAR PRESENTATION

Explanatory Notes: The following symbols used in the tables throughout this publication are explained in enclosed form in footnotes to the tables where they appear.

- Represents zero or rounds to less than half the unit of measurement shown
- .. Not available or not applicable
- (E) Estimates
- (P) Preliminary
- ® Revise
- (D) Data withheld to avoid disclosing data for individuals farm
Fa'alavelave – Samoan cultural events

***Calendar Year is used unless otherwise specified**

Head-notes immediately below table titles provide information for correct interpretation or evaluation of the tables as a whole or for a major segment of it.

Unit indicators (“In thousands”, “In millions of dollars”, etc.) are usually given as the first element of the head-notes. In tables where several units are used, the unit indicators are generally given in the stub in the column headings.

Footnotes below the bottom rule of tables give information relating to specific items, figures or symbols within the tables. Details may not add up due to rounding.

All annual statistics should be understood as referring to calendar years unless otherwise indicated.

Government Fiscal Year starts from October of previous year to September of current year.

Method of Order

Copies of this report may be obtained for \$20.00 each from the Department of Commerce at Utulei, Executive Office Building, second floor, or may be ordered from outside the Territory by sending a money order for \$30.00 per copy, (postpaid) to the Department of Commerce, American Samoa Government, Pago Pago, American Samoa 96799.

14	General Fund Revenue: FY2008 and FY2009	144
15	Employment by Sector: 2008	146
16	Annual Average Index: 2008 and 2009	171
17	Electricity Sold by Customer Class: FY1999 to FY2009	232

Section One

POPULATION

This section presents statistics on growth, geographic distribution and general characteristics of the local population.

In 2000, the population of American Samoa was 57,291 and annual growth rate was 2.0. When compared to the 1990 Census, the population was 46,773 and annual growth rate was 3.7. The 2000 annual growth rate was much lower than the annual growth rate in 1990.

Our population is very young. The median age remained at 21 years and the gender ratio was recorded at 104 males for every 100 females.

The population density (average number of persons per square kilometers) in 2000 was 286. This number could be a lot higher given the ruggedness and steep mountainous landscaping of the islands. People move to other places because of economic reasons, availability of land resources, and socio-political stability. The Manu'a Islands residents continued to relocate to the main island of Tutuila looking for better economic opportunities or attending schools. In Tutuila, the population shifted from the Eastern District to the Western District in the past decades. In 2000, there were 32,435 people living in the Western District while 23,441 people resided in the Eastern District.

The mid-year population estimate is calculated annually using the Balancing Equation Method. In 2009, the Territorial population is estimated at 70,100. While both births and deaths statistics are considered fairly complete, the migration component used in the mid-year estimate is an estimate based on the 1990-2000 intercensal residual migration and some indicators of net arrival and departure statistics from the Immigration Office.

While the proportion of the American Samoa born population remained above 50 percent, the trend of foreign-born increased from less than 20 percent in 1960 to over 40 percent in the recent census. The majority of the foreign-born were from neighboring Samoa with over 30 percent, followed by the US born population with 5 percent. The resident population remained ethnically Samoa with 90 percent. There were over 20,000 that were neither citizen nor national of the United States. A full set of detailed demographic, social, economic and housing data on the American Samoa Census 2000 down to the block level geography can be found on the US Census Bureau website: www.census.gov/americanfactfinder/dataset/AmericanSamoaCensus2000.

Section Two

VITAL AND HEALTH STATISTICS

This section presents data on births, deaths, life expectancy, marriages, diseases, patient visits and hospital discharges.

The LBJ Medical Authority reported 1,375 births and 324 deaths in 2009. The Crude Birth Rate (CBR) registered at 19.6 while the Crude Death Rate (CDR) increased to 4.6 from the previous year. Teen births increased again in 2009 with registered births at 133. The infant mortality rate increased to 11.6 per 1,000 live births in 2009. Neonatal and fetal deaths registered at 5.8 and 2.9 per live births. The leading cause of death in 2009 was a tie between heart disease and accidents. Malignant neoplasm was the second leading cause of death. Other causes were septicemia, diabetes, cerebrovascular disease, etc.

Population natural growth is defined as total births minus deaths. The natural growth of the population in 2009 was 1,051 and is slowly rising again. Natural growth prior to 2005 remained above 1,300 persons added to the local population each year.

The number of out-patient visits in 2009 was 116,142, an increase from the previous year. The reason for the major increase in out-patient visits was due to the inclusion of the Renal Dialysis Unit, Primary Care and Mental Health.

Marriage licenses processed at the Vital Statistics Office dropped again for the fourth year in a row. Only this time it is a huge drop. In 2009, there were only 151 marriage licenses recorded in the registry.

STATISTICAL YEARBOOK 2009

Section Three

EDUCATION

This section presents statistical information on the number of educational institutions, school enrollment, and educational achievement.

There were 112 educational institutions in 2007 and total enrollment was 21,326. For ASCC, total enrollment was 1,826 in 2008 and 2,188 in 2009. For school year August 2008 to June 2009, the average enrollment for public schools was 13,970. For private schools, the average enrollment in 2009 was 3,025.

Total enrollment for public and private schools in the beginning of school year 2009 was 19,420. Enrollment has been increasing for the past two years. There are 1,057 teachers teaching in classrooms in 2009. There were 923 high school graduates of public high schools in 2009.

The American Samoa Community College awarded 253 degrees and certificates in 2009. The college awarded 169 Associate of Arts degrees, 72 Associate of Science degrees, and 12 Certificates of Proficiency in 2009.

This section is very important but due to incomplete data from DOE and ASCC some of the tables have not been updated and are reprinted in this publication.

College, (Fall)	1,767	1,607	1,601	1,550	1,537	1,367	1,178	956	1,155	1,062
NOTE: ASCC enrollment for 2008 and 2009 were 1,826 and 2,188 respectively.										
There is a slight change in the data that was already published for school year 2003 than what is published in the 2005 Statistical Yearbook. As published in the combined 2003-2004 Statistical Yearbook, there were 8 private elementary schools. However, during collection of data for the 2005 Statistical Yearbook, DOE made correction that there were 9 not 8.										
Enrollment for Special Education for beginning of school year 2006 and 2007 are included in the public elementary and high school enrollment counts.

STATISTICAL YEARBOOK 2009

Section Four

LAW ENFORCEMENT

This section contains statistical data on crime, traffic, accidents, firearm registration, correctional facility population, fire, and court activities.

The Department of Public Safety reported a total of 2,267 offenses in 2009 (an increase of 16 percent from FY2008). Both Part One and Part Two offenses increased considerably in 2008 and 2009. For Part One offenses, burglary remained the number one complaint from the community followed by 1st and 2nd assault. All Part One offenses with the exception of burglary dropped in 2009. For Part Two offenses, disorderly conduct again increased from 390 in 2008 to 439 in 2009. After dropping in 2008, DUI went up again with 238 in 2009. Other offenses was the leading offense in Part Two offenses. Property damage/vandalism increased for the fourth year in a row.

Juvenile offenses dropped in 2009. Burglary was the leading offense for Part One offenses followed by larceny and assault. Other offenses was the leading offense in Part Two offenses. Runaways, disorderly conduct, and property damage also have 20+ offenses.

Traffic accidents increased in 2009. The Department of Public Safety reported a total of 803 traffic accidents, 134 persons injured, and 3 fatalities in 2009. The number of firearms registered increased from 126 in 2008 to 147 in 2009. The inmate population at the Tafuna Correctional Facility increased from 120 in 2008 to 218 in 2009. About 46.3 percent of inmates are Samoa citizens while 45.9 percent are U.S. Nationals.

A total of 104 fires were reported in FY2009 with 82 residential homes, 10 commercial buildings, and 12 industrial buildings.

The High Court reported 593 new cases files in 2009 adding to 2,616 cases pending from 2008. A total of 372 were disposed of in 2009. Juvenile ranked highest with 158 followed by Criminal cases with 145 and civil action cases with 80. In the District Court, there were 11,696 cases that were filed in 2009 and 11,210 cases were disposed in 2009.

Section Five

CLIMATE

This section presents climate data for American Samoa.

American Samoa has a tropical maritime climate with abundant rain and warm, humid days and nights. The average temperature in 2009 was recorded at 82.4 degrees Fahrenheit. Throughout the past ten years, average temperature remained between 82.1 and 83.6 degrees. A total of 139 inches of rainfall was recorded in 2009. The month of December recorded the most rain with 27.40 inches and June recorded the lowest rainfall with 3.65 inches.

The two main seasons in Samoa are those of wet and dry, sometimes referred to as 'summer' and 'winter'. However, these are actually relative terms as it still rains quite a bit during the dry season. In addition, the south coast receives, on an annual basis, approximately twice as much rain as the north coast.

Summer or wet season is also cyclone season and runs from November through April. Winds tend to be either calm or mainly out of the north. Although heavy rain, showers and long rainy periods can occur any month of the year, torrential downpours are most common and humidity is at its peak during the summer months.

Winter or dry season is also Trade Wind season and runs May through October. The Trade Winds are mainly south-easterly but can turn to a more easterly direction at times. During the winter months the Trade Winds tend to blow rather incessantly and can range from anywhere from mild to rather strong at times. However, the Trade Winds can also blow during any month of the year, not just the winter months, or they might unexpectedly stop blowing in the middle of the Trade Wind season, often for days at a time.

Note: A cooling degree day is a unit used to relate the day's temperature to the energy demands of air conditioning. Cooling degree days are calculated by subtracting 65 from a day's average temperature. For example, if the day's high is 90°F and the day's low is 70°F, the day's average is 80°F. Eighty minus 65 is 15 cooling degree days. Cooling degree days can be used to compare the current summer to past summers. It can also be used to compare the heat in one part of the country with another.

Section Six

**LAND USE/REGISTRATION, HOUSING CHARACTERISTICS, AND
BUILDING PERMITS**

This section presents statistics on land use, land ownership registration and tenure, housing characteristics, building permits, type and value of construction activities.

American Samoa has a total land area of 48,767 acres and about two-thirds of the land is steeply sloping and virtually inaccessible. Land registration at the Office of the Territorial Registrar went up by 48 percent in 2009. Land ownership registration is categorized into five titles. Approximately 7,794 acres have been registered in 2009. Communal land holds 26.8 percent, Individually-owned holds 25.7 percent, Government-owned holds 21.2 percent, Freehold land holds 13.1 percent and Church-owned holds 13.2 percent.

In the 2000 Census, American Samoa registered 10,052 housing units. Of the 10,052 housing units, nine percent were occupied and seven percent (703) were vacant. Of the 9,349 occupied housing units, 77.2 percent were owner-occupied and 22.8 percent were rather occupied. In the Tualauta County, Tafuna village had the highest number of occupants per room in both owner-occupied and renter-occupied units.

Approximately 60 percent of the 10,052 housing units were located in the Maoputasi and Tualauta counties. Furthermore, these two counties absorbed most of the growth: a combined 71.6 percent of the rental market. Housing units are characterized as single detached units, attached units, 2 houses, 3 or more houses. This is unique to American Samoa where about 9 percent of households live in two or more houses. Those living in apartment housing although small but are on the rise as 6 percent of households live in building with two or more housing units. Those living in single detached houses have dropped from about 90 percent in 1990 to 78 percent in 2000. The construction boom peaked in the 1990-1994 period, which accounted for almost 3,000 newly built structures.

The number of building permits issued rose 838 in 2009. Permits for new structures increased in 2009 with 135 permits issued. Permits for extension, repair and alteration jumped to 362 in 2009. The estimated value of construction was \$40 million.

1989	351	244	107	12,120
1988	354	247	107	10,071
1987	396	238	158	10,454
1986	347	172	175	7,384
1985	434	187	247	11,600

NOTE: Estimated value of construction for 1980 to 1988 was done by the Research and Statistics Division, EDPO, based on permit fees assessment.

Estimated value of construction from 1989 to 1997 were extracted from monthly reports submitted by the Building Branch Division, Department of Public Works. For other years forward, the form was filled out by Public Works.

Estimated value for 1990 did not include value for all FEMA houses built after Ofa; although the number of FEMA permits issued were included. Thus number of permits in 1990 increased by 265 percent due to Hurricane Ofa. Estimated value in 1992 included a \$5 million single major project at the Industrial Park. Value of all government projects are excluded from estimated value of construction.

Section Seven

INTERNATIONAL ARRIVALS AND DEPARTURES

This section presents statistical data on international arrivals and departures by purpose and citizenship of travelers. Data for 2002-2004 are not available.

In 2009, approximately 70,848 travelers arrived in American Samoa. The majority of travelers were returning residents of American Samoa (over 38,000). Visitor arrivals accounted for 43 percent of all arrivals in 2009. However, visitor arrivals dropped in 2009 (30,705) compared to 2008 (31,277).

Approximately 71,567 travelers departed American Samoa in 2009. The majority of departures were residents leaving the island (38,796) for better opportunities abroad. In 2009, there was a net loss of 719 persons. When comparing 2009 to 2008, arrivals and departures have dropped significantly.

The United States continued to be our primary tourism market holding 58 percent of the market. New Zealand followed with 30 percent, Australia with 8 percent and the rest of the countries with the remaining 4 percent.

Section Eight

ELECTION

This section presents data on the American Samoa voter registration, election results and participation by voting districts, village, age and gender of the voting population.

A total of 16,780 people registered to vote in the November 4, 2008 General Election. Although this many people registered to vote, only 12,419 voted on Election Day. The Tualauta voting district (District #15) cast the most votes with 2,164 (17 percent). Ituaui (District #12) had 1,590 votes cast in the General Election (about 13 percent).

The majority of registered voters were between the ages of 18 and 34 (48 percent). About 24 percent of registered voters were between the ages of 35 and 49. The 65 and over age group had the least registered voters with 10 percent. The 50-64 age group made up 18 percent of registered voters. A total of 7,885 males (47 percent) registered to vote while 8,895 females (53 percent) registered to vote in the 2008 General Election.

Section Nine

STATISTICAL YEARBOOK 2009

GOVERNMENT FINANCE

This section presents statistical data on government revenues and expenditures.

In 2002, the American Samoa Government adopted GASB Statement No. 34. It is a reporting approach established by Governmental Accounting Standards Board to enforce new requirements and a new reporting model for the annual financial reports of state and local governments. Its primary purpose is to develop annual financial reports for easier interpretations and understandings of government funding. GASB No. 34 has technically changed the format of the financial statements in contrast to the previous years. This had made financial data incompatible for analytical purposes. Therefore, it is difficult to evaluate the financial trend from previous to 2002.

The American Samoa Government collected \$211 million in revenues and spent \$221 million in Fiscal Year 2009. The resulting deficit was \$10 million. In Fiscal Year 2008, the government collected \$200.9 million in revenues and spent \$200.7 million resulting in a \$192 thousand surplus. Federal grants accounted for 63 percent of revenues in FY2009. Local taxes accounted for 25 percent of revenues in the same fiscal year. In Fiscal Year 2009, thirty-four percent of expenditures were for Education/Culture and seventeen percent were for General Government.

In Fiscal Year 2008, Federal grants accounted for fifty-four percent of revenues and local taxes amounted to twenty-nine percent of revenues.

Section Ten

LABOR FORCE, EMPLOYMENT AND EARNINGS

This section presents statistical data on labor force participation, employment and earnings.

Total employment in 2008 was estimated at 16,990 (a decline for two consecutive years). Government (including all Authorities) made up 35 percent of the workforce. Secondary or Private Sector made up 36 percent of the workforce while the canneries made up 29 percent.

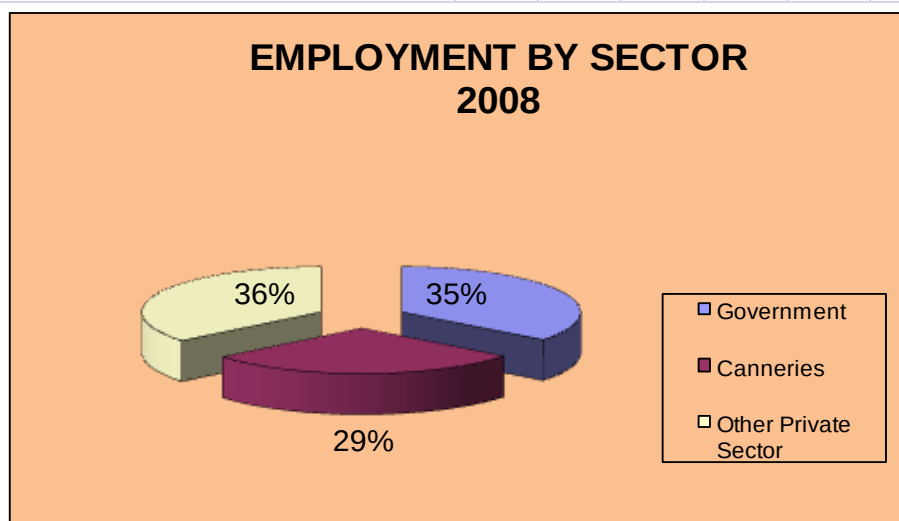

The Fair Labor Standard Act (Public Law 110-28) ordered new wage increases for American Samoa. The law stipulated \$0.50 increases to current local minimum wages every year until it reaches the US minimum wage of \$7.25 an hour. Local minimum wages for various industries in American Samoa had another fifty-cent increase on May 25, 2009. Fish canning and processing increased to \$4.76. The shipping industry increased to \$5.09, \$4.92, and \$4.88. Government increased \$4.41 and Finance and Insurance increased to \$4.99.

In 2000, the median household income was \$18,219. Close to \$150 million worth of income from all sources were received by all residents of the territory in 2000. Thus, the per capita income was \$4,357.

In 2000, about 62 percent of all persons or 50 percent of families were below the national poverty level. Out of every ten families is a female householder with children. Of the 3,889 grandparents reported to have lived with their grandchildren, 71 percent of them were responsible for childcare.

Section Eleven

CONSUMER PRICES AND EXPENDITURES

This section presents statistical data on local consumer prices and indices with some household expenditure information from previous household surveys.

American Samoa initiated a Consumer Price Index rebase in the fourth quarter of 2007. Commodity descriptions and household spending details from the 2005 household income and expenditure survey were utilized for creating new CPI weights distributions. The new CPI is expanded to add two new subgroups making it 7 subgroups now. Two other major revisions were done to the CPI since inception in 1974. The first revision was carried out in 1982 after consultation with an SPC CPI expert and then another one in 1997 using the 1995 household income and expenditure survey results.

The Consumer Price Index in 2009 registered at 110.9. Inflation was at an average of 3.3 throughout 2009. Inflation varied in 2009 with 7.3 in the first quarter then it dropped all the way to 0.6 in the fourth quarter.

The local economy which is 90 percent dependent on foreign and U.S. imports becomes vulnerable to global changes and international market shifts. The increase in fuel and oil has reached our islands with its ripple effect.

The average prices of selected commodities throughout the years have increased somehow.

Section Twelve

COMMUNICATION AND TRANSPORTATION

This section presents statistical data on communication and transportation services including vehicle registration and driver licenses, vessel and cargo movements, and air traffic/aircraft operations.

The number of telephones dropped again in 2009 to 10,134. Number of cellular phones was not reported in 2009. However, the number of internet subscribers slightly increased in 2009 to 2,086.

Motor vehicle registrations have increased throughout the years. However, motor vehicle registration in 2009 is not available in this publication. There were 8,540 registered vehicles in 2007 compared to 8,771 in 2008. The number of driver's licenses and permits are not available in 2009. In 2007 and 2008, there were 8,788 and 7,491 driver's licenses and permits that were issued respectively.

There were 710 incoming vessels in 2009. Seaborne traffic amounted to 1,529 total movements whereas 710 vessels arrived to port and 819 vessels left port. About 589 thousand tons of cargo was handled at the port. There were 124 freighters that called to port and some 83 fishing vessels brought tuna for local canning. However, fishing vessels have declined for the past five years.

The number of flights that landed at Pago Pago International Airport in 2009 increased slightly to 3,409 from the previous year. The incoming flights carried 70,830 passengers and the same number of flights took off carrying 71,701 passengers (a net loss of 871 travelers). The incoming flights carried 1.6 million pounds of cargo and 1.4 million pounds of mail.

There were 132 flights in 2009 between Pago Pago and Honolulu. This is an average of 11 flights per month. In 2009, there were 3,048 flights between Pago Pago and Samoa (an average of 254 flights per month).

Section Thirteen

AGRICULTURE AND FISHING

This section presents statistics on agricultural land, farms, farm tenures, field crops and livestock, and local fishing.

The 2003 Agricultural Census, which is conducted every five years, will be conducted again in 2009 with the assistance of USDA-NASS. The Agriculture Census was usually conducted as supplement to the Decennial Census of Population and Housing. New data will be available once the report from the 2009 Agriculture Census is released.

A total of 7,094 farms were covered in 2003. Approximately 40 percent of total land area (19,642 acres) is used for farming. This includes cropland, pastureland, and other farm uses including woodland. The majority of farms were cropland farms covering over 14,000 acres of land. Thirty-eight percent of farms were about 1 to 2 acres in size. Another 26 percent were one or less acre in size. Similar distributions of average farm sizes were seen in both the 1999 and 1990 censuses. All agricultural farming whether for commercial resale or home consumption were valued at \$58.2 million in 2003. This is a significant drop from the 1999 census with \$73.8 million. The drop in value of agriculture farming was probably due to flooding which affected American Samoa in 2003 and Hurricane Heat that devastated the islands in January 2004.

Staple food (taro, green bananas and breadfruits) sold at the market increased significantly in 2009 after dropping in 2008. Produce sold at the market dropped because most of the farmers avoided going to the temporary market in Pago Pago but selling their produce at other makeshift places. According to the farmers, the temporary market was too far and the cost of fuel was too much for them and they were not profiting from selling their produce there. The newly built market in Fagatogo will be open in 2010.

In 2009, about 111,736 pounds of fish were caught by local fishermen. There were 48 boats that were utilized and 144 fishermen manned these boats. There was a huge drop in the numbers of fish caught in 2009.

Section Fourteen

STATISTICAL YEARBOOK 2009

COMMERCE AND TRADE

This section covers data on trade, government purchases, and business registration.

The American Samoa Balance of Trade in fiscal year 2009 recorded a surplus of \$1.5 million. This surplus was due primarily to exports (\$483.5 million) exceeding imports (\$482 million). Imports include government purchases, value of fish brought in for processing for the canneries, and value of commercial merchandise brought in for resale. Trade data is still considered incomplete because of the absence of the Post Exchange (PX) data from the import series. The value of exports is made up primarily of canned tuna and by-products. The value of exports increased significantly in 2009 compared to the last two years.

The number of canned tuna cases reported by the Customs Office in FY2009 increased significantly. The value of canned tuna increased considerably by \$142 million. A case of canned tuna is a nonstandard quantity of measure, but it provides some measure on unit cost analysis of canned tuna. The unit cost for a case of canned tuna ranges from \$25 to \$50.

Imports brought in through Customs Regulations for commercial use and resale valued at \$328 million. Imports dropped in FY2009. Imports decreased in FY2009 because of drops in most of the categories. The United States continued to be American Samoa's leading trade partner, followed by Fiji, New Zealand and Korea.

In 2009, there were 2,864 business licenses that were issued. This is a slight increase from 2008 (2,820). It is unclear what is causing this (e.g., whether due primarily to business failures or individuals leaving the island or a combination thereof). Small businesses in American Samoa typically have a high turnover rate of ownership and management composition. The change of business ownership can occur for a number of reasons including cash flow problems, poor management, business transfer to relatives, to take advantage of immigration law (i.e., partnership or corporation to sponsor aliens), social security mandates, low quality products, insufficient advertising, and under capitalization. Cultural factors may also come into play here.

However, prior to 2006 the trend was that of a steady increase in the number of registered business licenses. The number of business licenses issued in 2005 was 2,893 which was an increase of 3.2 percent from the number issued in 2006 (2,985). Although the number issued in 2005 was a slight decline of less than one percent from 2004, during the period 2000-2004 there had been a steady increase in the number of business licenses issued, with an average yearly increase of just over 6.5 percent.

It must also be kept in mind that the true number of business entities or establishments is actually somewhat less than the total number registered business licenses as some businesses must obtain multiple business licenses.

Major improvements are needed at the Customs Office for the collection of trade statistics, especially in regards to the right Country of Origin and the correct value of

STATISTICAL YEARBOOK 2009

imported goods. Any and all goods crossing American Samoa border should be accounted for regardless of purpose or user. Valuation of goods (FOB and CIF) must be applied. Automation and standard commodity classification of all goods should be adopted. Differentiation between intermediate goods and final consumption goods need major improvements.

Section Fifteen

STATISTICAL YEARBOOK 2009

ELECTRICITY AND WATER

This section presents statistical data in electricity production and consumptions, number of meters and water usage.

Electricity produced in 2009 was 178 million KWh. About 6.8 million KWh was used in the production of electricity, netting 171 million KWh for sale. With 8.4 percent of line loss, only 164 million KWh was sold. Fuel efficiency remained at 15 KWh per gallon for the past ten years. Lube efficiency remained at 1600 plus in the last five years. About 11.8 gallons of fuel was consumed in FY2009. The average cost of a gallon of fuel was \$2.622 in FY2009. With the decrease in cost of a gallon of fuel, the fuel surcharge also decreased.

The number of meters dropped in FY2009 to 11,880. The majority of meters were for residential usage (about 88 percent of total meters). About 7 percent were for commercial usage. The rest were for government, ASPA and large power.

About 2,530 million gallons of water were sold in FY2009.
