# KSTA 6666: Strengthening Digital Information of the National Statistical Data Systems

CAPI/CATI/CAWI Component

Computer-Assisted Interviewing (CAI)

COMPUTER-ASSISTED TELEPHONE INTERVIEWING

COMPUTER-ASSISTED
WEB-AIDED INTERVIEWING

COMPUTER-ASSISTED PERSONAL INTERVIEWING

Overview of KSTA 6666

Knowledge and Support Technical Assistance (KSTA) project 6666

Project Name: Strengthening Digital Information of the National Statistical Data Systems

Participating Countries: Nauru, Niue, Samoa, and Tuvalu

Objective: The CAPI/CATI/CAWI component of KSTA will focus on the implementation of surveys, including questionnaire design; programming on CAPI, CATI, or CAWI platforms; data validation; data transfer; and maintenance of relevant equipment or devices. Furthermore, training will be provided on the use of software to collect data using tablets, telephones, and/or the web.

Selection of CAPI/CATI/CAWI Platform: Among the open-source platforms, **CSPro** and **Survey Solutions** are the recommended platform of choice for large and complex data collection initiatives of the NSOs. To date, it should be noted that there is no single open-source platform which seem to support all three technologies (CAPI/CATI/CAWI), except CSPro for which there are upcoming feature updates to support web interviews.

ADB

Overview of KSTA 6666

Nauru

- Assistance in the implementation of HIES in 2022
- Possibility of evolving to a Long Form Census implementation in collaboration with SPC
- Initial proposed budget has been prepared
- Received government concurrence, awaiting response of NSO to proposed activities

Niue

- Proposal of an implementation of an Economic Census in 2023
- Initial proposed budget and questionnaire have been prepared
- Received government concurrence, awaiting response of NSO to proposed activities

ADB

Overview of KSTA 6666

Samoa
- Assistance in the implementation of HIES in 2023
- Received government concurrence and have started formal discussion with Samoa Bureau of Statistics (SBS) on activities and needed equipment
- Ongoing review of 2018 HIES Methodology
- Online training on Survey Solutions and GIS planned in 2022
- On-site CAPI training planned in 2023

Tuvalu
- Assistance in the implementation of Long Form Census in 2022
- Received government concurrence and have started formal discussion with Central Statistics Division (CSD) on activities and needed equipment
- Survey implementation in collaboration with SPC
- Ongoing discussion of budget line items

ADB

Online Course for CAPI/CATI/CAWI (CSPro and Survey Solutions)

- 3 rounds already conducted (on open edx platform)
- Working on the 4th (migrating to ADB Moodle platform)
  - Updating the content (to align with new versions of CSPro and Survey Solutions)

Thank you.
